OUR JOURNEY

KINETIC ENGINEERING LIMITED

1970

KEL was **founded** by **H.K. Firodia.**

1972

The company was established and began operations **with the launch of the Kinetic Luna moped**, which **achieved significant domestic sales and exports**.

1975

Converted to a **public limited company on October 1.**

1984

Formed a joint venture with Honda Motor Company, introducing Kinetic Honda scooters with electric start and gearless transmissions.

1998

Kinetic **acquired Honda's stake in the joint venture**, rebranding as Kinetic Motors.

2008

Entered into a **joint venture with SYM a Taiwanese motorcycle company**, to bring new products to Indian market.

2011

Shifted **focus to automotive components manufacturing, supplying to various industries**, including automotive and off-highway applications.

2022

Kinetic Watts & Volts was formed in September 2022 as a subsidiary of Kinetic Engineering with a **vision to provide integrated solutions for EV customers**.

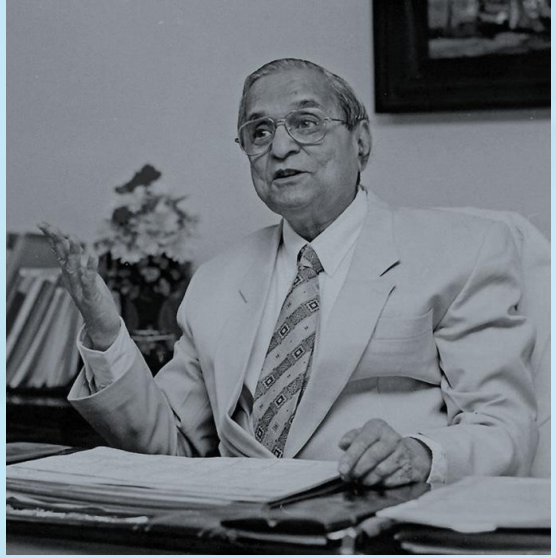
2024-25

New Additions:

- **Nylon Coating unit**
- **Automated welding facility**
- **Solar power project**

(The Solar project is projected to save Rs. 6 Crore annually)

LEAD MANAGEMENT



Late Mr. H.K. Firodia

The Doyen of Indian Automobile

Mr. H.K. Firodia, fondly known as the Doyen of the Indian Automobile Industry, played a pivotal role in shaping iconic companies like Bajaj Auto, Force Motors, and Kinetic Honda. He was instrumental in laying the foundation of India's thriving automobile sector, leaving behind a proud legacy for the Kinetic Group.

Padma Shri Dr. Arun Firodia

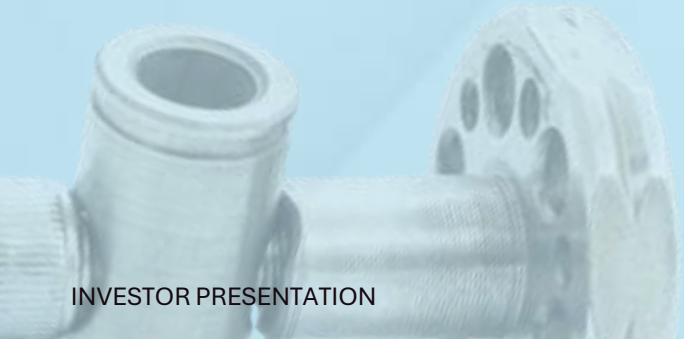
Chairman

Padma Shri Dr. Arun Firodia, the chairman of Kinetic Group is an epitome of the combination of a brilliant engineer and an astute businessman' Apart from being a leading industrialist, Dr. Arun Firodia is also a prominent social activist' Born to Shri H.K. Firodia in 1943, Dr. Arun Firodia obtained his B. Tech degree with distinction in Electrical Engineering from IIT Mumbai in 1965. He continues the rich tradition of his distinguished father, Late Shri H K Firodia.

Ajinkya Firodia

Vice Chairman & Managing Director

Ajinkya Firodia, Vice Chairman & Managing Director of Kinetic Engineering Ltd., is a distinguished industrialist from the Firodia family, pioneers in the Indian automobile industry. He graduated from Brown University, USA. He holds a double degree in engineering & economics and began his career as an M&A analyst at J.P. Morgan Chase.



KINETIC ENGINEERING LIMITED

Kinetic Engineering Limited (KEL) has over **50+ years of legacy** in India's auto industry. Founded by **Late Mr. H.K. Firodia**.

Creator of the iconic:

- **Kinetic Luna**
- **Kinetic DX -** India's first gearless scooter.
- **Blaze 165 cc -** India's first moto scooter.

Three Key Verticals:

- **Transmission Vertical**
- **Driveline Vertical**
- **EV Vertical**

Manufacturing facility spread over **50+ acres** in **Ahmednagar, Maharashtra** with **1000+ employees.**

Certified with **IATF 16949**, a globally recognized quality standard, reinforcing the company's commitment to world-class automotive manufacturing excellence.

EVOLUTION OF KEL

KINETIC ENGINEERING LIMITED

Phase 1 (1972-2010)

The phase when legacy was built

- Pioneered India's two-wheeler revolution with **Kinetic Luna** and **Kinetic DX** - **iconic scooters.**
- Formed a successful JV with Honda **(Kinetic Honda Motor Company).**
- Expanded presence in domestic and international markets with strong product portfolio.
- Built large-scale manufacturing & R&D infrastructure in **Ahmednagar.**

Phase 2 (2011-2022)

The phase of realignment and strengthening of core

- Transitioned focus from **vehicle manufacturing to auto component manufacturing.**
- Developed expertise in **drivetrain, transmission components, and precision engineering.**
- Expanded OEM partnerships across domestic and international markets.
- Promoter group gradually increased stake, indicating confidence in revival.
- Formed EV-focused subsidiaries like **Kinetic Watts & Volts Ltd**.

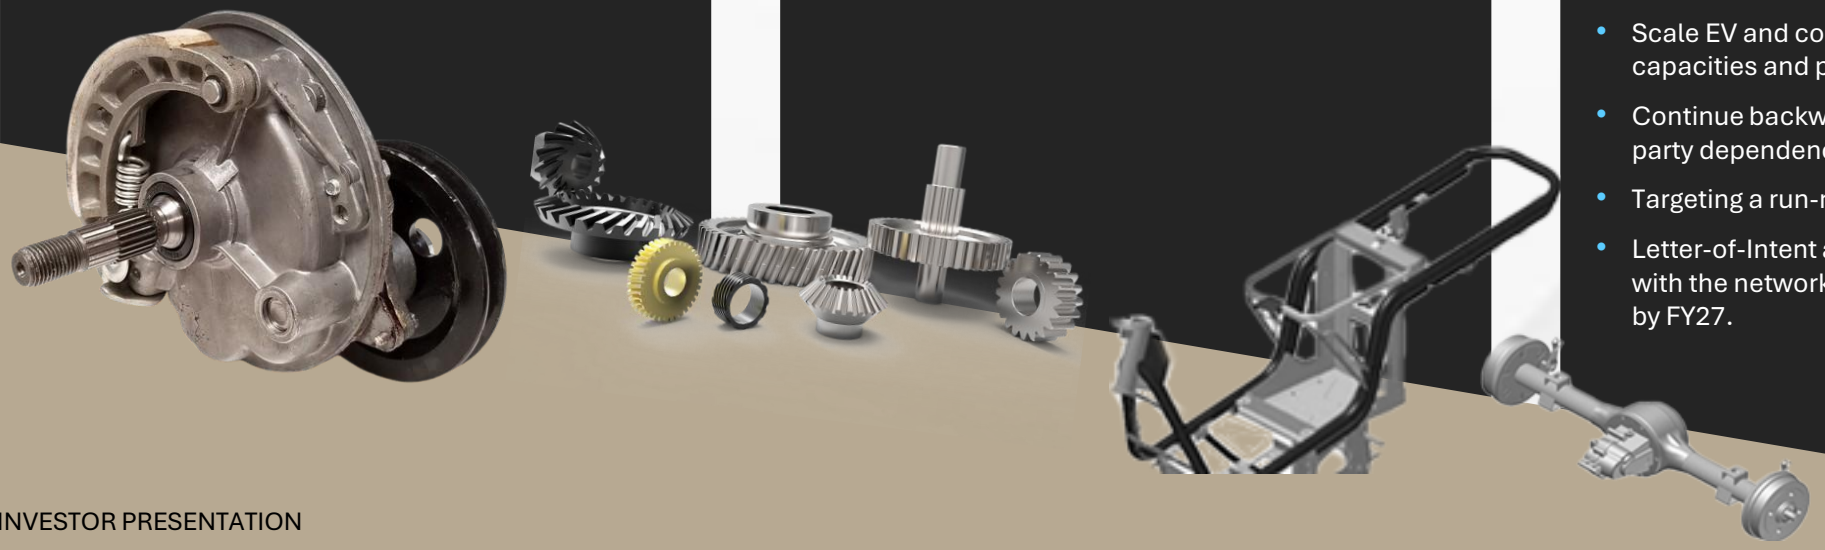
Phase 3 (2023 & Beyond)

The phase drive the future of mobility

- Set up advanced battery manufacturing unit **(Range-X) in MAIPL with 60,000 units/year capacity.**
- Investing in EV drivetrain & transmission systems, **targeting 2W/3W OEMs.**
- Focused on **green mobility, electrification and expanding export markets.**

What lies ahead?

- Leverage strong promoter vision to tap into **India's growing EV ecosystem.**
- Scale EV and component businesses through new capacities and product lines.
- Continue backward integration to reduce third-party dependency.
- Targeting a run-rate of 4 lakh units by FY30.
- Letter-of-Intent already signed with 100+ dealers, with the network targeted to reach **70–100 dealers** by FY27.



KINETIC ENGINEERING LTD.

KEL: KEY PRODUCTS

KINETIC ENGINEERING LIMITED

Transmission Vertical

Planet Gear

Gearboxes

Sun Shaft

Shifter Sleeve

Disk Brake Tow Hub

Knuckle Assembly

EV (2W & 3W) Vertical

Rigid Axle

Trans Axle

Chassis & body parts

2-Wheeler GB Assembly

Driveline Vertical

Spline Yoke

Stub Shaft

WHY KINETIC ENGINEERING?

50+ years of legacy in trusted automotive engineering.

Backward integrated operations ensuring **cost control and quality advantage.**

Expansion into EV components, battery manufacturing with **(Range-X brand).**

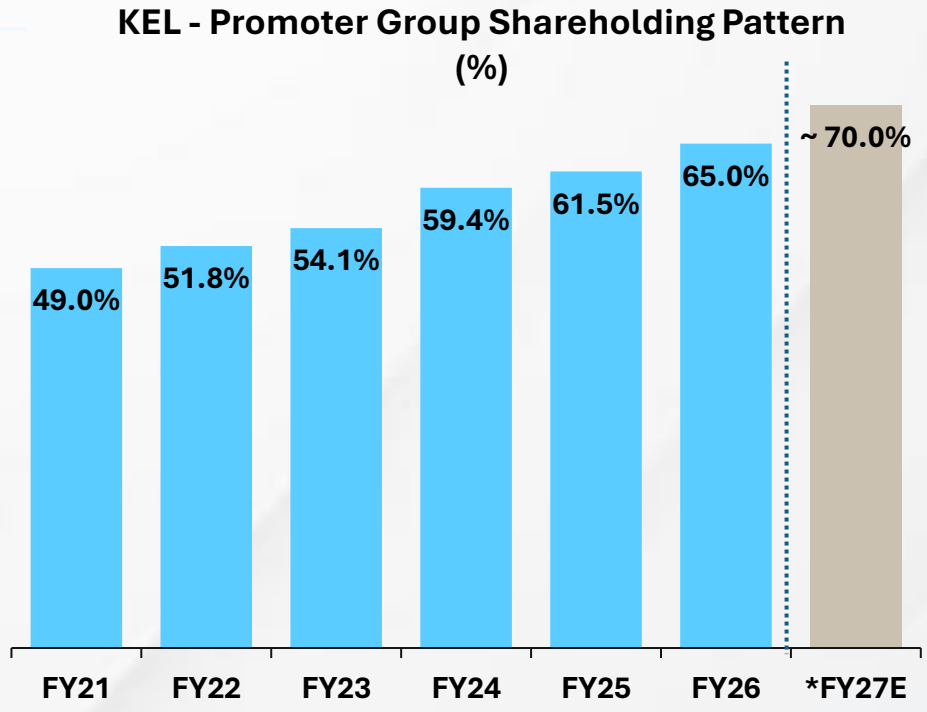
Dedicated EV subsidiary:
Kinetic Watts & Volts Ltd. to capture India's booming **EV supply chain opportunity.**

PROMOTERS CONTRIBUTION

Promoters have already contributed Rs. 100+ Cr through warrants, to fuel future growth.

PROMOTER CONFIDENCE & STRATEGIC COMMITMENT

- The consistent increase in promoter shareholding reflects strong confidence in Kinetic Engineering's growth trajectory.
- Demonstrates long-term focus towards both the business and the evolving EV ecosystem.



*FY27 Post conversion of existing warrants

KINETIC WATTS & VOLTS LTD.

Subsidiary company
(90.1% Equity)

Established – September 2022

A subsidiary of Kinetic Engineering Ltd.:

KWVL is the group's dedicated venture into the **electric vehicle (EV)** segment **acts as Design, Development and manufacturing unit** within Kinetic Group's EV supply chain. The new Kinetic DX model has been relaunched under KWV.

Facility:

~87,000 Sq. ft.
Ahmednagar,
Maharashtra.

KINETIC ENGINEERING LTD.

POWERING THE FUTURE:

HOW LEGACY SCALE FUNDS KINETIC'S MOBILITY AMBITIONS -

Kinetic Engineering Ltd.

Engineering | Manufacturing | Components | Industrial capabilities

Kinetic Watts and Volts Ltd.

Electric mobility | Energy systems | Future mobility products

Electric Vehicles | Energy & Storage | Power Electronics | Mobility Technology

The established engineering business generates the cash flow that underwrites the incubation of Kinetic's future mobility bets - reducing funding risk for the growth engine.

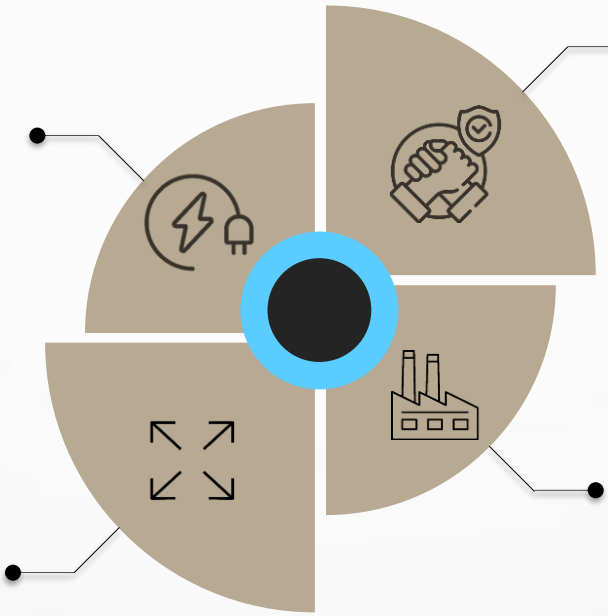
The Technology Stack Behind the Platform

- Digital / connected layer
- Vehicle platform
- Battery & energy management
- Power electronics
- Manufacturing & supply chain

CATCHING THE CURVE:

THE INFLECTION POINT FOR KINETIC, NOW -

India's EV transition is accelerating, with 2W/3W penetration and charging infrastructure scaling faster than the broader auto cycle - positioning early, credible players to capture disproportionate share



Kinetic carries decades of consumer trust that most EV-only entrants must still build from scratch

An established manufacturing and supplier base removes the capital and lead-time risk that typically slows new-entrant scale-up

Idle capacity provides a direct path to margin expansion - growth here doesn't require proportionate new fixed-cost investment

STRATEGIC TECHNOLOGY PARTNERSHIPS & EXPANDING RETAIL FOOTPRINT

KINETIC ENGINEERING LIMITED

Kinetic Watts & Volts Joins Hands with Jio Things to Build India's Next-Gen Connected EVs.

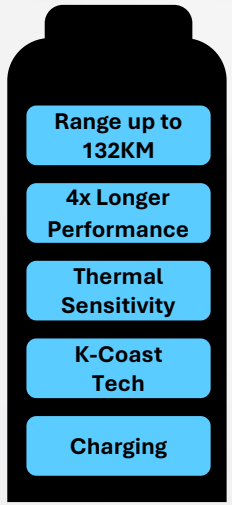
Through this association, **KWV will introduce a suite of new digital capabilities** enabled by Jio's IoT ecosystem.

- **Voice-assisted vehicle interaction** for convenience and safety
- **Smart digital instrument clusters** with real-time data
- **Connected mobility features** for performance monitoring & diagnostics
- **Telematics & cloud-based analytics** for fleet operators
- Enhanced infotainment applications

Jio Things provides a fully integrated IoT ecosystem spanning **edge devices, connectivity, cloud infrastructure, device management, installation, and aftermarket support**. Integrating this full-stack platform into Kinetic EVs will enable seamless **digital connectivity, enhance user experience, and support both individual customers and commercial fleet operations.**

KINETIC RE-ENTERS TWO-WHEELER MARKET

Introducing the All-New Electric Kinetic Launched under its EV subsidiary **Kinetic Watts and Volts Ltd.**, KEL revives its iconic DX scooter in a modern electric avatar. Kinetic DX, a household name from the 90s, reborn with cutting-edge EV tech.



Battery & Performance:

Powered by **Range-X 3.1 kWh** LFP battery with up to **132 km IDC range** (DX+)

4x longer lifecycle (2,500–3,500+ cycles) vs. typical NMC batteries

Better **thermal sensitivity**, making it safer in Indian conditions

60V system with **K-Coast regenerative technology** for high efficiency

0-50% charge in **2 hours**; **0-100%** charge in **4 hours**

ENGINEERING INDIA'S NEXT EV MOBILITY PLATFORM

KINETIC ENGINEERING LIMITED

Kinetic Watts and Volts Ltd.: Engineering India's Next EV Mobility Platform

A trusted Indian mobility name evolving into a platform business - combining precision engineering, electric mobility, energy systems, and next-generation urban transport, built on decades of brand equity and manufacturing depth.

Kinetic 2.0 - From Engineering Heritage to an Electric Mobility Platform

- Six decades of engineering credibility, now redeployed toward EV-led growth
- A dedicated EV and energy subsidiary providing pure-play growth optionality
- A multi-year roadmap converting legacy scale into next-generation mobility economics

- A mobility platform anchored by a genuine EV growth engine
- Growth built on capital efficiency and operating leverage, not just top-line expansion
- A structural, multi-year growth story rather than a one-off cyclical uptick
- A well-recognised Indian mobility brand with deep customer trust
- An integrated play across mobility and energy, not a single-product bet
- A roadmap defined by clear milestones, disciplined unit economics, and a credible path to scale

KINETIC WATTS & VOLTS LTD.
LAUNCH OF “KINETIC LAB”

KINETIC ENGINEERING LIMITED

Kinetic Lab –

A dedicated Two-Wheeler EV Technical Training Centre – has been inaugurated to upskill technicians, service engineers, & dealer staff for India’s expanding electric mobility ecosystem.

Strategic Significance

- Strengthens **after-sales infrastructure** and ensures **EV-ready workforce** across India.
- Builds **technical competency** – a critical pillar of **customer trust and retention** in EV adoption.
- Supports Kinetic’s **nationwide dealer network** with standardized diagnostics, service protocols, and safety practices.

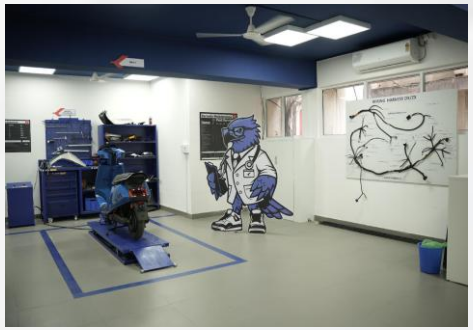
Key Focus Areas

- Deep technical expertise in **EV powertrains & battery systems**
- **Standardized repair protocols** and **diagnostic workflows**
- Creation of **EV “Master Technicians”** and **EV Champions** for dealer-level leadership

Expected Impact

- Higher **First-Time Fix Ratio** and **lower vehicle downtime**
- Improved **diagnostic accuracy** and **service quality**
- Strengthened **customer experience and brand reliability**
- EV-ready technicians deployed across urban and emerging Tier 2–3 markets

With Kinetic Lab, Kinetic Watts & Volts Ltd. becomes one of the few Indian EV manufacturers to establish a dedicated training facility — reinforcing its long-term commitment to quality, reliability, and scalable EV service excellence.



PRESENT BUSINESS PLAN

Where We are

Recognized at Pride of India Conclave 2025
A prestigious honor affirming our leadership in India's electric mobility revolution.

Strategic Focus on EV Core Components
Deep investment in key EV parts (motor, controller, battery pack) to strengthen India's self-reliance in clean tech.

Dedicated R&D for Scalable Innovation
Robust in-house R&D ensures future-ready products tailored for Indian roads and user needs.

Future-Ready Manufacturing Facility
Equipped with Industry 4.0 practices, our plant is designed to scale sustainably & deliver quality at speed.

Contributing to National Priorities
Aligned with Make in India, Aatmanirbhar Bharat, & India's Net Zero 2070 vision through clean mobility solutions.

Strong Leadership Backed by Legacy
Guided by the Firodia family legacy, combining experience with a progressive EV mindset.

Talent-Driven Culture
Building a next-gen workforce equipped to lead India's transition to electric mobility.

Who We are

- KWVL builds on the decades-old legacy of Kinetic in the Indian automotive industry
- Led by Mr. Ajinkya Firodia, Vice Chairman of Kinetic Group
- Focus on Innovation & Sustainability

WHERE WE WISH TO BE

KINETIC ENGINEERING LIMITED

Goal

- Launch electric scooters and motorcycles, delivery-focused 2Ws.
- In-house development and IP ownership of motors, controllers, and battery packs.
- Build strategic alliances to create an end-to-end battery charging ecosystem for customers.
- Building a 500+ Strong Dealer & Service Network
- Scale to 400,000 vehicles sales in the next 4-5 years
- Gain up to 5% market share by 2030/31

Execution Strategy

- Scalable Product Strategy
- Robust Supply Chain & Vendor Partnerships
- In-House R&D & IP Development
- Process-Driven Manufacturing Excellence
- Strong Distribution & digital-first D2C Network
- Focus on reliability, after-sales, & real-world performance.
- People-First Culture & ESOP Empowerment
- Transparent Governance & IPO-Ready Compliance

Market Share

- India is the world's largest two-wheeler market, with ~17 million units sold annually.
- EV 2-wheelers currently hold ~6–7% share (~1.1 million units in FY24), expected to cross 20–25% by FY30.

KWVL's Strategic Opportunity

- Projected Market Size in FY28: ~4.48 million units (assuming a 35% CAGR)
- Building competitive edge through cost innovation, post-sales service, and in-house tech.

MANUFACTURING PLANT - AHMEDNAGAR

KINETIC ENGINEERING LIMITED

50+	32+	460+
Acres	Production Sheds	Robust Machines

Ahmednagar Factory

Employs 1,000+ people.

Serves key automative segments:

- Commercial Vehicles
- Passenger Cars
- Tractors
- Two-Wheelers

QUALITY MANAGEMENT SYSTEM

COMPETITIVE STRENGTHS

KINETIC ENGINEERING LIMITED

Vertically Integrated Manufacturing

- In-house production of forgings, gearboxes, shafts, and chassis components.
- End-to-end manufacturing ensures cost efficiency and quality control.

Focus on EV Growth & Sustainability

- Expanding into EV drivetrain systems, axles, and gear solutions.
- Strong synergy with Kinetic Watts & Volts and the company's EV focused brand, Range-X, for future growth.

Strong Legacy & Brand Recognition

- Over 50 years of experience in the automotive industry.
- Pioneer of Kinetic Luna and India's first gearless scooter (Kinetic Honda).

Robust R&D, Manufacturing and Engineering Capabilities

- Investment in CAD, CAM, and advanced material engineering.
- Focus on lightweight and high-performance auto components.

Diversified Product Portfolio

- Specialization in ICE (Internal Combustion Engine) and EV components.
- Supplies transmission, driveline, and chassis parts to multiple industries.

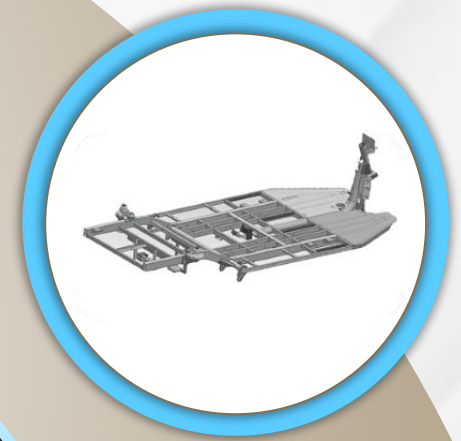
Strong OEM & Tier-1 Client Base

- Supplies to leading automotive OEMs and Tier-1 suppliers.
- Established domestic & export business across multiple geographies.

UPCOMING PARTS OF EV

Kinetic Engineering Ltd.

KINETIC ENGINEERING LIMITED



FRAMES & OTHER BODY PARTS

KEL makes **chassis, frames and body parts such as side stand , rear forks, swing arms, main stands for 2-wheeler and 3-wheelers** and supplies them duly welded and painted.

KEY BUSINESS DEVELOPMENTS

KINETIC ENGINEERING LIMITED

Auto Components – New Business Pipeline

- New business opportunities progressing towards commercialisation, supported by established OEM relationships and focused business development.
- Samples submitted for new projects, with **commercial production expected to commence in first half of 2027.**
- Projects carry an estimated **annual business potential of ~₹100 crore**, including component supplies to Kinetic Watts & Volts.

EV Business – Strong Sales Traction

- Kinetic Watts & Volts has recorded **7,000+ cumulative electric scooter sales** since commencing operations.
- Kinetic DX has gained market acceptance, positioning the company among the **top 15 EV scooter manufacturers** within a short period.

Product Development & Industry Recognition

- Kinetic DX received industry recognition, including **Best EV – Viewers' Choice** and **Best Design Product/House**.
- Product enhancements include an **upgraded battery configuration**, alongside customer-focused features such as Easy Charge, Easy Flip and Easy Key

EV Revenue Contribution

- The electric scooter business to contribute **at least ₹100 crore to consolidated revenue during FY27**.
- EV business expected to become an increasingly significant contributor to KEL's overall operations.

MANAGEMENT COMMENTARY

Mr. Ajinkya Firodia
Vice Chairman & Managing Director

There is growth momentum across our businesses. Our automotive components business continues to benefit from strong customer relationships and focused business development efforts, with several new opportunities progressing towards commercialization. Despite the challenging cost environment, we remain focused on strengthening our operations, improving efficiencies and building a sustainable business

Kinetic Watts & Volts is witnessing encouraging customer acceptance, with over 7,000 cumulative scooter sales and an expanding dealership network. Today, 1 in every 4 scooters sold in India is electric, and we believe India's electric mobility market offers a significant opportunity, and our focus is on leveraging Kinetic's trusted legacy, a strong product proposition and reliable customer service to build a meaningful presence in this space.
