Quicklease Car Rental Partners with RateGain to Strengthen Competitive Pricing Intelligence Across Its Fleet

The UAE-based car rental company will leverage Rev-AI's Rate Insights and Rate Shopping capabilities to monitor competitor pricing and enable faster, more informed commercial decisions.

India, 17 November 2026: RateGain Travel Technologies Limited (NSE: RATEGAIN, BSE: 543417), a global provider of AI-powered SaaS solutions for the travel and hospitality industry, today announced that Quicklease, a UAE-based car rental company, has partnered with RateGain to strengthen its competitive pricing intelligence and enable faster, more informed pricing decisions.

Through this partnership, Quicklease will use **Rev-AI**, RateGain's revenue management solution for car rentals, including **Rate Insights and Rate Shopping**, to gain greater visibility into competitor pricing, track market movements, and respond more effectively to changing demand and competitive conditions.

The partnership will equip Quicklease's revenue and commercial teams with a clearer view of the competitive landscape, helping them assess their pricing position, identify opportunities and make more informed decisions across their fleet. As pricing becomes increasingly dynamic, these capabilities will help the company move towards a more agile, intelligence-led approach to revenue management

Speaking on the partnership, Sanchit Garg, Executive Vice President & General Manager (Rev-AI, Car & OTA), RateGain Travel Technologies Limited, said, *"Pricing has become a strategic lever for car rental operators, particularly in markets where demand and competitive conditions can change quickly. The ability to understand the market, identify pricing opportunities, and act with confidence is increasingly important to protecting revenue and improving commercial performance. With Rev-AI, Quicklease can bring this intelligence into its pricing process, helping its teams make more informed decisions as market conditions evolve. We are pleased to partner with Quicklease as it continues to strengthen its revenue management capabilities in the UAE".*

Mohammad Daud Ali, Group General Manager, Quicklease, said, *"In a competitive car rental market, having the right pricing intelligence at the right time is essential to making smarter commercial decisions. Our partnership with RateGain gives us greater visibility into competitor pricing and market movements through Rev-AI, Rate Insights and Rate Shopping, helping our teams respond faster and with greater confidence. As we continue to strengthen our pricing capabilities, we see this partnership as an important step toward staying competitive, improving pricing decisions, and driving stronger revenue performance".*

The partnership further strengthens RateGain's presence in the car rental industry. Rev-AI helps operators connect demand, booking performance, fleet utilisation, competitor pricing and market signals to support faster, more informed commercial decisions. Its broader capabilities also enable operators to automate pricing with greater control.

About RateGain Travel Technologies Limited
RateGain Travel Technologies Limited is a global provider of AI-powered SaaS solutions for travel and hospitality, working with 14,000+ customers and 700+ partners across 160+ countries.
