PRESS RELEASE

New Delhi, September 17, 2026

Brahmaputra Infrastructure Limited (BSE: 535693) Through its JV M/s BIL – GKCPL (JV) Declared L-1 for Rs. 89.73 Crore High Level Bridge over River Ravi in Punjab

44-span, 1,606-metre High Level (HL) major river bridge with 4,144 metres of approaches at Makoura Pattan, Districts Gurdaspur and Pathankot; funded under the Central Road and Infrastructure Fund (CRIF); 24-month execution period; Letter of Award awaited

Key Highlights

- **Announcement:** Brahmaputra Infrastructure Limited (BIL) through its M/s BIL – GKCPL (JV) declared L-1 (lowest bidder). This is an L-1 declaration; the contract has not yet been awarded.
- **Total bid value:** Rs. 89.73 crore (INR 897.3 million).
- **Scope:** High Level (HL) major bridge over the River Ravi – 44 spans of 36.50 metres each (bridge length 1,606 metres) plus 4,144 metres of approaches, about 5.75 km in all.
- **Client:** Executive Engineer, Construction Division, PWD (B&R) Branch, Pathankot, Government of Punjab.
- **Funding:** Central Road and Infrastructure Fund (CRIF).
- **Execution period:** 24 months from receipt of the Letter of Intent (LOI) / Letter of Award (LOA).
- **Status:** L-1 declared; LOI / LOA awaited.

New Delhi, September 17, 2026: Brahmaputra Infrastructure Limited (“BIL” or the “Company”) (BSE Scrip Code: 535693), an infrastructure EPC company executing road and bridge projects, today announced that it has been declared the lowest bidder (L-1) through its Joint Venture M/s BIL – GKCPL (JV) for the construction of a High Level (HL) major bridge over the River Ravi at Makoura Pattan, Punjab. The tender was floated by the Executive Engineer, Construction Division, PWD (B&R) Branch, Pathankot, Government of Punjab. The JV’s L-1 bid is valued at Rs. 89.73 crore.

A Technically Demanding River Bridge

The project is a High Level (HL) bridge: its superstructure is kept above the highest flood level with the required clearance, so that traffic can move in all seasons, including the monsoon. Classified as a major bridge, it comprises 44 spans of 36.50 metres each, giving a total bridge length of 1,606 metres, along with 4,144 metres of approach roads linking the structure to the road network in Districts Gurdaspur and Pathankot.

Building a bridge of this length across the Ravi, a perennial Himalayan river, calls for specialised well foundation and pier works across the river bed and flood plain, repetitive construction of the superstructure over 44 spans, and careful scheduling of site activity around monsoon flows.

Site Context and Connectivity Impact

Makoura Pattan (also spelt Makora Pattan or Makkoran Pattan) lies on a flood-prone reach of the Ravi near its confluence with the Ujh river, in the border belt of Gurdaspur district. Villages on the far bank are currently linked by a pontoon bridge that is dismantled every monsoon. The High Level bridge is intended to provide a permanent, all-weather crossing at this location.

Significance for the Company

Upon receipt of the LOI / LOA, the project will add to the Company's order book. The project adds a technically complex major river bridge to BIL's portfolio of road and bridge works for government authorities, and the joint venture structure allows the Company to bid for and execute a larger, specialised project alongside its partner. The project also further enhances BIL's focus on flood-resilient infrastructure, extending its flood protection and river works into permanent, all-weather crossings over flood-prone rivers.

This press release accompanies the Company's intimation under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Further updates, including receipt of the LOI / LOA, will be communicated to BSE Limited in due course.

About Brahmaputra Infrastructure Limited

Brahmaputra Infrastructure Limited (BSE: 535693) is a New Delhi-headquartered infrastructure construction company engaged in the execution of roads, bridges, and other civil infrastructure projects across India. The Company undertakes projects for central and state government authorities and is committed to the timely and quality execution of critical infrastructure assets.

Forward-Looking Statement

This press release may contain forward-looking statements, including statements regarding the anticipated award, execution, and value of the project referred to herein. Such statements are based on current expectations and assumptions and are subject to risks and uncertainties, including the receipt of the formal Letter of Intent / Letter of Award and the performance of the joint venture arrangement, which may cause actual results to differ materially.
