Mamata Machinery has been granted a patent in the European Union for its invention titled "Multi-Purpose Sealing Module"

Ahmedabad, India – June 2, 2026: Mamata Machinery Limited ('Mamata' or 'the Company'), a leading machinery solution provider in the flexible packaging industry, today announced that it has been granted a patent in the European Union for its invention, a Multi-Purpose Sealing Module for plastic film based bags and pouches making machines. The patent has been granted under European Patent No. 4467325 (EP 4467325 B1), with the grant published on May 13, 2026. This technology is already patented in India, and an application for the same has been filed in the United States.

With the EU patent now secured, Mamata will be able to offer this sealing solution to customers across the European market, strengthening its position as a technology-driven player in global flexible packaging machinery.

About the Company:

Mamata Machinery Limited is a leading global provider of total flexible packaging machinery solutions, offering a comprehensive range of products across the value-chain, from co-extrusion to converting and advanced packaging machinery. With over 35 years of industry experience, Mamata has established itself as a trusted engineering enterprise, boasting more than 5,400 machine installations in 80 countries worldwide. The Company is renowned for its consistent innovation and numerous industry-first product introductions, delivering cutting-edge solutions that address the evolving needs of the flexible packaging sector. Mamata's commitment to technology, quality, and customer-centric design has made it a preferred partner for businesses seeking reliable and efficient flexible packaging solutions on a global scale.
