Kosol Energie awards Rs. 8.75 cr. manpower contract to Krystal Integrated Services Ltd.

- ***One-year contract to support Kosol Energie's workforce requirements***
 - ***250 technically qualified professionals to be deployed***
 - ***Expands KISL's presence in industrial staffing services***

Mumbai, 29 September 2026: Krystal Integrated Services Ltd (KISL), a leading provider of Integrated facility management solutions, has secured a manpower contract from Kosol Energie Private Limited for the deployment of technical manpower at its Bavla facility in Gujarat.

Contract valued at Rs 8.75 crore annually, KISL will deploy 250 technically qualified professionals with ITI, Diploma, BE or B.Tech qualifications and industry experience to support Kosol Energie's operational manning requirements. Part of the Kalthia Group, Kosol Energie has grown into a tier-1 global player in solar power generation, providing end-to-end engineering, procurement, and construction (EPC) services across utility-scale, commercial & industrial (C&I), residential, and agricultural sectors.

KISL will provide technical workforce, supporting in production management, and statutory compliances.

Speaking on the development, Mr. Sanjay Dighe, CEO and Whole-Time Director of Krystal Integrated Services Ltd., said, *"Securing this mandate is a significant milestone for Krystal Integrated Services Ltd. and strengthens our presence in India's rapidly expanding renewable energy sector. Renewable energy projects operate in complex and high-demand environments where efficient workforce deployment and operational discipline are critical to seamless execution. Through this engagement, we look forward to supporting the sector with structured manpower deployment and professionally managed workforce solutions that contribute to efficient and reliable project operations."*

This mandate further strengthens KISL's growing presence in the industrial staffing and workforce solutions segment and reinforces its ability to manage large-scale technical manpower requirements across operational environments.
