Before vs After Comparison

Management Comment on Q2 & H1FY27 Result

Mr. Saurabh Chhabra

Promoter & Director

*Q2 FY27 marks the most profitable quarter in Sunrakshakk's history, further strengthening our position as a diversified, growth-led FMCG company. Consolidated revenue grew **119.20% YoY** to **₹265.17 crore**, driven by broad-based demand across FMCG, FMCG Intermediates and Edibles, which together contributed **90.85%** of consolidated revenue.*

*EBITDA increased **98.26% YoY** to **₹23.14 crore**, while PAT grew **130.10%** to **₹16.00 crore.** Consolidated EBITDA margin stood at **8.73%**, improving **55 bps** sequentially, supported by easing raw material cost ratios, although higher input costs continued to impact margins on a YoY basis. PAT margin improved to **6.03%** from **5.75%** in Q2 FY26 and **5.44%** in Q1 FY27. FMCG segment result margin expanded to **9.27%** from **6.34%** in Q2 FY26, reflecting improved operating leverage.*

*For H1 FY27, consolidated revenue grew **119.93% YoY** to **₹541.50 crore**, EBITDA increased **96.32%** to **₹45.73 crore** and PAT rose **130.39%** to **₹31.04 crore**. PAT margin improved to **5.73%** from **5.47%** in H1 FY26.*

*The successful ramp-up of our Guwahati facility and the additional soap production line at Roorkee have expanded our aggregate installed FMCG and FMCG Intermediates capacity to **20,840 tons per month**. Our earlier aspiration was to reach approximately ₹1,000 crore in revenue by FY28. With ₹541.50 crore of revenue already achieved in H1 FY27, more than half of that figure in just six months, we are well ahead of the pace we had envisaged and are on track to reach this milestone much sooner than planned. With a diversified portfolio, an expanding customer base and an increasing contribution from FMCG businesses, we remain focused on sustaining profitable growth and creating long-term value for all stakeholders.*

Way Ahead

FMCG Industry – Key Drivers

Sunrakshakk

India FMCG Market Size, 2018-2032 (USD Billion)

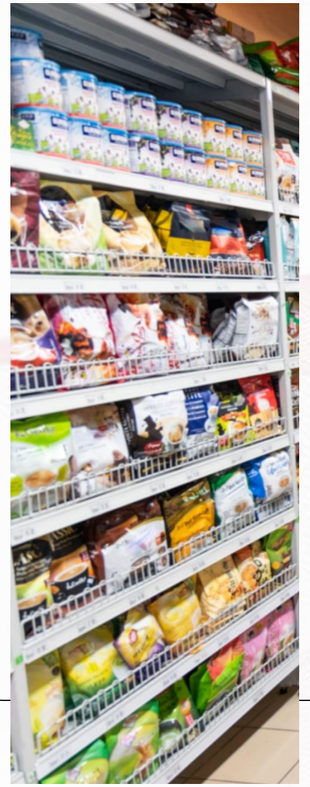

Source: zionmarketresearch

India FMCG Industry Prospective

The India FMCG market size was worth around USD 192.20 billion in 2023 and is predicted to grow to around USD

665.63 billion by 2032 with a compound annual growth rate (CAGR) of roughly 14.80% between 2024 and 2032.

FMCG Segment

- **Availability of raw materials**
  Easy access to palm oil derivatives, soap noodles and surfactants.
- **Cost competitiveness**
  Essential for maintaining an edge in the global market.
- **High domestic consumption**
  Driven by rising disposable income and increasing fashion consciousness.
- **Growing demand for specialized textiles**
  Expanding applications in healthcare, automotive, and sports sectors.

Way Ahead

Sunrakshakk

Customer & Channel Expansion: Deepening FMCG and Edibles penetration across existing and new markets, strengthening distributor network, and expanding reach in underpenetrated regions to drive sustainable growth.

Manufacturing & Capacity Optimization: Improving capacity utilization, operational efficiency, and backward integration across FMCG, intermediates, and Edibles to support scalable growth.

Wallet Share & Cross-Selling Growth: Enhancing customer engagement through a diversified FMCG portfolio, enabling cross-selling across categories and increasing share of wallet.

Revenue & Profitability Focus: Our earlier aspiration of ~₹1,000 crore in revenues by FY28 looks well within reach, with ₹541.50 crore already achieved in H1 FY27, and we expect to cross it much sooner than planned, supported by product mix improvement, operating leverage and cost efficiencies.

Product & Portfolio Expansion: Expanding offerings across high-growth FMCG categories through continuous innovation, value-added products, and premiumization initiatives.

Distribution & Market Deepening: Strengthening pan-India distribution network, increasing retail touchpoints, and enhancing supply chain capabilities to improve market reach and service levels.
