PRESS RELEASE

Infosys Announces Expansion of Indore Development Center

Infosys strengthens its presence in Central India, with enhanced capabilities in AI, cloud, cybersecurity, and next-generation digital services

Bengaluru, India – September 16, 2026: Infosys (NSE, BSE, NYSE: INFY), a global leader in AI-first business consulting and technology services, today announced the expansion of its Indore Development Center (DC) with the inauguration of a new Software Development Block (SDB-2) at its campus in the Super Corridor, Indore. The new 330,000-sq. ft. block further strengthens Infosys' presence in Central India and its commitment to the region's growing technology and talent ecosystem.

The inauguration ceremony was graced by **Dr. Mohan Yadav, Hon'ble Chief Minister of Madhya Pradesh**; **Shri Shankar Lalwani, Hon'ble Member of Parliament for Indore, Madhya Pradesh; and Shri Manoj Nirbhay Singh Patel, Hon'ble Member of Legislative Assembly** in the presence of Infosys Leadership represented by **Mr. Jayesh Sanghrajka, Chief Financial Officer, along with Mr. Sunil Kumar Dhareshwar, Executive Vice President, and Mr. Niladri Prasad Mishra, Senior Vice President,** and other senior officials from the Government of Madhya Pradesh and Infosys.

Infosys Indore currently has more than 3,300 employees supporting global clients across Banking, Financial Services and Insurance (BFSI), Retail, Life Sciences, and Manufacturing. The expanded center will strengthen Infosys' capabilities in cloud, application development, artificial intelligence and machine learning, and cybersecurity to address evolving client requirements. The expansion will also enable Infosys to tap into Central India's growing talent pool. Infosys plans to deepen its engagement with Madhya Pradesh's academic and technology ecosystem through skilling programs and institutional partnerships, including engagement with IIT Indore, IIM Indore, and Devi Ahilya Vishwavidyalaya (DAVV).

The new building is aligned with Infosys' ESG commitments and high-performance green building standards, and the center is designed to be environmentally friendly and energy efficient. It incorporates features like low-energy cooling, smart building automation, rainwater harvesting, and wastewater recycling. The facility will also be enabled with amenities such as flexible workstations, training facilities, and wellness centers.

Dr. Mohan Yadav, Hon'ble Chief Minister of Madhya Pradesh, said, "Indore is steadily emerging as an important technology hub, supported by a strong talent base and a growing innovation ecosystem. Infosys' investment in Indore will create employment opportunities for the state's skilled youth and further strengthen Madhya Pradesh's technology ecosystem. We welcome Infosys' renewed commitment to the state and look forward to its contribution towards technology-led and inclusive economic growth."

Mr. Jayesh Sanghrajka, Chief Financial Officer, Infosys, said, “We are delighted to expand our presence in Indore, reflecting our ongoing investment in talent, innovation, and digital capabilities. The expansion will enable us to leverage the region’s strong talent pool, strengthen our capabilities across AI, cloud, and digital technologies, and deliver greater value to our global clients. It also reinforces our long-term commitment to Madhya Pradesh through continued investment and high-quality employment opportunities”.

About Infosys

Infosys (NSE, BSE, NYSE: INFY) is a global leader in AI-first business consulting and technology services. Over 325,000 of our people work to amplify human potential and create the next opportunity for people, businesses, and communities. As navigators of enterprise transformation, we enable businesses in 59 countries to unlock AI value at scale. With over four decades of experience in managing the systems and workings of global enterprises, we accelerate business transformation through our AI-first value framework, deep domain expertise, and our unique ability to orchestrate innovations from our AI-native partner ecosystem. Infosys is recognized as the fastest growing IT services brand globally, committed to being a well-governed, environmentally sustainable partner for our clients where deep talent expertise, in an inclusive workplace, help them navigate their next.

Safe Harbor

Certain statements in this release, including those concerning our future events, future growth prospects, our future financial or operating performance and our offerings and collaborations are “forward looking statements” intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are based on our current expectations, assumptions, estimates and projections about the Company, our industry, economic conditions in the markets in which we operate, and certain other matters. These forward-looking statements are subject to substantial known and unknown risks, uncertainties and other factors, that could cause actual results or outcomes to differ materially from those implied by such forward-looking statements. Important factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements include, but are not limited to, risks and uncertainties regarding the execution of our business strategy, increased competition for talent, our ability to attract and retain personnel, increase in wages, investments to reskill our employees, our ability to effectively implement a hybrid work model, economic uncertainties and geo-political situations, technological disruptions and innovations such as artificial intelligence, the complex and evolving regulatory landscape including immigration regulation changes, particularly in the United States, our Environmental, Social, Governance (“ESG”) vision, our capital allocation policy and expectations concerning our market position, future operations, margins, profitability, liquidity and capital resources, our corporate actions including acquisitions, cybersecurity matters, the outcome of pending litigation and the US government investigation, and the effect of current and future tariffs. These and additional factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements are discussed in more detail in our US Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2026. These filings are available at www.sec.gov. In light of these and other uncertainties, you should not conclude that the results or outcomes referred to in any of the forward-looking statements will be achieved. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and our reports to shareholders. The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company unless it is required by law.
