

A Message to Our Valued Shareholders

Dear Shareholders,

As we continue to build the next chapter of iStreet Network Limited, I would like to reaffirm our commitment to our shareholders, our customers and the long-term vision of the Company.

iStreet is moving forward with renewed focus, strengthening its execution capabilities and pursuing opportunities in Artificial Intelligence (AI), particularly in enterprise and banking environments. Our experience in complex technology implementations and our focus on real-world banking use cases provide an important foundation as we work towards building scalable, meaningful technology solutions.

We recognise that confidence is built not through words alone, but through consistent execution, customer trust, responsible governance and measurable progress. These principles will continue to guide our decisions as we develop iStreet's next phase of growth.

I also urge our valued shareholders to rely on official Company communications and stock exchange disclosures for accurate information. In an environment where unverified messages, speculation and misleading information can circulate, it is important that decisions are based on facts rather than rumours. We remain committed to communicating material developments through the appropriate official channels.

Our journey is driven by a clear belief: that technology, when combined with strong execution, the right partnerships and customer-centric thinking, can create lasting value. We are focused on converting opportunities into practical outcomes, expanding our capabilities and building a stronger foundation for sustainable growth.

On behalf of the leadership team, I thank you for your continued trust, patience and support. We understand the responsibility that comes with being a listed company, and we remain committed to acting in the best interests of the Company and all its shareholders.

We believe in the journey we are building at iStreet — with conviction in our direction, discipline in our execution and a long-term commitment to value creation.

Warm regards,

UTTAM
