Q4 FY26 Consolidated EBITDA at ₹43.7 crores; up by 105%

Q4 FY26 Consolidated PAT at ₹43.8 crores; up by 118%

YOY volume increased by 131%

Mumbai, May 16, 2026: Fineotex Chemical Limited (“FCL” or “Company”), one of India’s largest multinational specialty performance chemical manufacturers, today announced its audited financial results for the fourth quarter and full year ended March 31st, 2026.

Consolidated Financial Performance for Q4 & FY26:

Particulars (₹ Crore)	Q4 FY26	Q4 FY25	YoY %	FY26	FY25	YoY %
Revenue	313.73	119.79	162%	772.23	533.33	45%
EBIDTA*	43.69	21.29	105%	134.75	127.23	6%
PAT	43.79	20.13	118%	125.01	109.21	14%

*EBITDA is calculated excluding Other Income

Performance Highlights:

- Revenue from Operation increased by **162%** to **₹313.73 Crores** in Q4 FY26 and by **45%** to **₹772.23 Crores** in FY26
- Profit after tax increased by **118%** to **₹43.79 Crores** in Q4 FY26 and by **14%** to **₹125.01 Crores** in FY26

Operational Highlights:

Our recently acquired U.S. oil & gas specialty chemicals business, CrudeChem Technology, is now operating at optimal efficiency levels, supported by strong demand and improved operational execution. As part of its expansion strategy, the Company has further strengthened its footprint through the addition of a new 15-acre facility in Midland, strategically located in the Permian Basin, one of the world’s most prominent energy hubs.

The facility has an annual handling capacity of approximately 150 million pounds (~80,000 MTPA) and significantly enhances the Company’s integrated capabilities across blending, storage, logistics, research & development, quality assurance and quality control (QA/QC), and supply chain management.

Commenting on the performance Mr. Sanjay Tibrewala, Executive Director and CFO, Fineotex Chemical, said: "During the quarter, the Company delivered strong operational and financial performance, supported by the successful integration of our recently acquired oilfield specialty chemicals business. The acquisition has significantly strengthened our presence in this segment and contributed meaningfully to topline growth. Under Fineotex's management, CrudeChem has witnessed notable improvements in operational efficiency, capacity utilization, execution capabilities, and scalability, resulting in an expansion in EBITDA margins."

Ms. Aarti Jhunjunwala, Executive Director, Fineotex Chemical, said: Our domestic business also recorded healthy growth, supported by steady demand across key end-user segments. Despite volatility in global raw material prices due to geopolitical tensions in the Middle East, we successfully passed on higher costs to customers, helping maintain healthy blended margins. This reflects the strength of our customer relationships and value-added product portfolio.

To capitalize on rising demand and strong customer traction in the U.S. oilfield chemicals market, we also doubled CrudeChem's manufacturing capacity, positioning the business for larger contracts and future growth."

About Fineotex Chemical Limited:

Fineotex Chemical Limited is one the leading Indian multinational specialty performance chemical producer and provides sustainable technology driven solutions to several industries especially the textile & garment processing, clean and homecare &, water treatment, oil & gas.

With state-of-the-art manufacturing facilities in Ambarnath, Navi Mumbai (India) and Selangor (Malaysia), and United States, Fineotex is at the forefront of innovation and sustainability.
