Encl: as above

Inox Wind secures repeat turnkey order from Indian Oil Corporation Limited

- 100 MW turnkey order with a contract value of approximately ₹755 crore

~ Order includes turnkey project execution and post-commissioning O&M services for a period of 10 years

Noida, September 03, 2026: Inox Wind Limited (IWL), India's leading wind energy solutions provider, today announced that it has secured a 100 MW turnkey order from Indian Oil Corporation Limited (Indian Oil), India's largest oil marketing company. The order will be executed on a turnkey basis and includes post-commissioning operations and maintenance (O&M) services.

Under the order, Inox Wind will be responsible for the end-to-end execution of the project, including the supply of wind turbine generators, engineering, procurement & construction (EPC), project execution and post-commissioning O&M services.

The order strengthens Inox Wind's diversified customer portfolio, which spans commercial & industrial (C&I) customers, public sector undertakings (PSUs) and independent power producers (IPPs).

This order further reinforces Inox Wind's position as an integrated wind energy solutions provider with capabilities spanning the entire project lifecycle—from turbine supply and project development to EPC and long-term O&M.

On this occasion, **Mr. Kailash Tarachandani, Group CEO, Renewables business, INOXGFL Group**, said, "We are pleased to have secured this 100 MW turnkey order from Indian Oil Corporation Limited, a Maharatna company and India's largest oil marketing company. This repeat order is a testament to the confidence that leading institutional customers place in our integrated capabilities and execution track record. With our ability to deliver comprehensive solutions across the wind project lifecycle, we remain well positioned to support customers in their transition towards cleaner sources of energy."

Mr. Tarachandani further added, "India's renewable energy transition is creating significant opportunities for wind power, with large enterprises and public sector organisations increasingly looking for reliable partners who can deliver projects with efficiency and accountability. We are committed to leveraging our technology, manufacturing and execution capabilities to deliver high-quality projects while contributing meaningfully to India's clean energy ambitions."

About Inox Wind

Inox Wind Limited (IWL) is India's leading wind energy solutions provider servicing IPPs, PSUs, Corporate investors and retail. IWL is a part of the \$16 billion INOXGFL Group which has a legacy of over nine decades and is primarily focused on two business verticals - chemicals and renewable energy. IWL is a fully integrated player in the wind energy market with five state-of-the-art manufacturing plants in Gujarat, Madhya Pradesh and Himachal Pradesh, where Blades, Tubular Towers, as well as Hubs & Nacelles are manufactured. With its state-of-the-art 3 MW and upcoming 4.45 MW series WTG offering, IWL's manufacturing capacity stands at 2.5 GW per annum.

IWL offers end-to-end wind energy solutions from concept to commissioning to O&M, manufacturing key components of WTGs, using the most advanced technology, in-house, to maintain high quality, reliability and cost competitiveness. IWL has ISO 9001:2008, ISO 14001:2004, OHSAS 18001 and ISO 3834 certifications for its management systems pertaining to the manufacturing, installation, commissioning and O&M of wind turbines.

IWL's subsidiary, Inox Green Energy Services Ltd., is the only listed pure-play renewable O&M services company in India, having a strong portfolio (including investments) of ~ 13.3 GW of assets and a multi-fold growth path ahead. Through its other subsidiary, Inox Renewable Solutions (earlier known as Resco Global Wind Services Pvt. Ltd.), IWL provides EPC services for wind and solar projects and develops common infrastructure, including power evacuation infrastructure, for renewable projects.
