Subject: Disclosure under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 – Press Release

Dear Sir/Madam,

Pursuant to Regulation 30 read with Schedule III of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are pleased to enclose herewith a copy of the Press Release issued by Blue Cloud Softech Solutions Limited titled:

" Blue Cloud Softech Solutions Signs MoU with Government of Liberia and GCIB Africa to Advance National Digital Infrastructure Project."

The press release relates to the Company's signing of a Memorandum of Understanding (“MoU”) with the Government of the Republic of Liberia, for the planning, development, financing and implementation of the Liberia National Digital Infrastructure Project (“NDIP”) through a Public-Private Partnership (PPP) model.

The enclosed press release is being disseminated to the media for public information and is also being made available on the Company's website at https://bluecloudsoftech.com/wp-content/uploads/2026/08/Government-Of-Liberia.pdf.

This is for your information and record.

Thanking you.

Yours faithfully,
For Blue Cloud Softech Solutions Limited

Blue Cloud Softech Solutions Signs National Digital Infrastructure MoU with Government of Liberia, Marking Its Third Major West Africa Engagement in a Single Quarter

BCSSL and GCIB Africa build a multi-country digital infrastructure platform across West Africa — spanning sovereign cloud, national data infrastructure, cybersecurity, digital identity, and AI-led mining surveillance — following engagements in Senegal and Liberia since April 2026

Hyderabad, India — 3 August 2026: Blue Cloud Softech Solutions Limited (BSE: 539607) ("BCSSL" or the "Company"), an AI-first technology conglomerate, today announced the signing of a Memorandum of Understanding ("MoU") with the Government of the Republic of Liberia, represented by the Ministry of Posts and Telecommunications, and the Global Council for Investment and Business for Africa ("GCIB Africa"), for the planning, development, financing and implementation of the Liberia National Digital Infrastructure Project ("NDIP") through a Public-Private Partnership (PPP) model — a flagship programme intended to anchor Liberia's digital public infrastructure, data sovereignty and cybersecurity resilience for a generation.

The MoU (Ref. NDIP/MOU/LR/2026/001) was executed on 31 July 2026 by Hon. Sekou M. Kromah, Minister of Posts and Telecommunications and Postmaster General, Government of Liberia; Dr. Idrissa Doucouré, President, GCIB Africa; and Mudraganam Chandrashekar, Chief Executive Officer, BCSSL.

Scope of the National Digital Infrastructure Project

NDIP is envisaged as a national flagship programme supporting Liberia's Digital Public Infrastructure, to be developed through a Public-Private Partnership structure. The scope of cooperation under the MoU spans:

- A National Data Centre and sovereign cloud infrastructure
- Cybersecurity and digital resilience capabilities, including a national Cybersecurity Operations Centre and CERT/CSIRT
- A Digital Identity programme and unified digital payments infrastructure
- Government enterprise network and e-government / digital services
- 5G telecommunications infrastructure
- Artificial intelligence and smart government initiatives
- Capacity building, technical training and local workforce development

Subject to completion of feasibility studies and execution of definitive agreements, the parties intend to jointly establish a Special Purpose Vehicle (SPV) under the laws of the Republic of Liberia as the dedicated project company for the development, financing, implementation, ownership, operation and management of NDIP. BCSSL's participation in the Project — including its role in financing, implementation, operation and maintenance — is on a non-binding, best-efforts basis at this stage and remains subject to such definitive agreements. The MoU has an initial term of 24 months, and no consideration is payable or receivable by any party under the MoU at this stage.

A Regional Platform, Not a Single Deal

The Liberia NDIP MoU is the latest, and most significant, step in a West Africa strategy BCSSL has been building with GCIB Africa since earlier this year:

- Senegal (April 2026): BCSSL and GCIB Africa signed an MoU for a "Digital Factory" joint venture spanning information technology, healthcare, infrastructure, education and renewable energy.
- Liberia — Mining & Energy (29 July 2026): Following an in-person meeting with Hon. R. Matenokay Tingban, Minister of Mines and Energy, in Monrovia, BCSSL and GCIB Africa jointly submitted a non-binding Expression of Interest for AI-driven mine surveillance, a digital mining licensing portal, mine safety and environmental AIoT sensing, a National Digital Mining Command & Control Centre, and 5G fixed wireless access — with a joint feasibility assessment as the next step.
- Liberia — National Digital Infrastructure (31 July 2026): Today's MoU with the Government of Liberia for NDIP, described above.

Taken together, these engagements position BCSSL and GCIB Africa as an emerging digital infrastructure partner of scale across West Africa — spanning sovereign cloud, cybersecurity, government digital services, and AI-enabled natural-resource management — built on the same partnership model in under four months. The Company intends to continue evaluating similar digital infrastructure opportunities across the region, subject to due diligence, feasibility outcomes and execution of definitive agreements in each case.

Management Commentary

"Liberia represents more than a single project for us — it is proof that our partnership model with GCIB Africa works, and that it scales. In the space of a few months, we have moved from Senegal to Liberia's mining sector to now Liberia's national digital backbone. Our ambition is to build sovereign cloud, cybersecurity and digital public infrastructure that West African nations can genuinely own and rely on, and this MoU is a significant step toward that ambition," said Mudraganam Chandrashekar, Chief Executive Officer, BCSSL.

About Blue Cloud Softech Solutions Limited

Blue Cloud Softech Solutions Limited (BSE: 539607) is a Hyderabad-based, BSE-listed AI-first technology conglomerate with a presence across digital infrastructure, sovereign cloud, cybersecurity, telecom and healthcare technology. The Company is headquartered at Plot No. 38, 5th Floor, N Heights, Software Units Layout, Hitech City, Madhapur, Hyderabad, Telangana – 500081. CIN: L72200TG1991PLC013135.
