Introduction

India's economy continues to grow at a steady and confident pace, standing out as the fastest growing major economy in the world. For Financial Year 2026-27, projected India's GDP to grow at 6.4% in the next fiscal, the fastest pace among G-20 economies, driven by strong domestic consumption, policy measures, and a stable banking system. - Source: [Moody's Ratings](#)

The NBFC sector—particularly Base Layer entities—remained instrumental in serving underbanked and unbanked populations. The operating landscape has been influenced by growing digital adoption and enhanced regulatory emphasis on governance and risk-based supervision.

Over the years, the Non-Banking Financial Companies (NBFC) sector has undergone significant transformation in terms of scale, operational capabilities, technological adoption, and diversification into new financial services and products. Both the number of NBFCs and the overall size of the sector have seen substantial growth. The sector now operates within an increasingly interconnected financial ecosystem, with deep linkages to banks, capital markets, and other financial institutions across both assets and liabilities. Additionally, the emergence of non-traditional players leveraging digital platforms has led to the development of innovative, technology-driven business models.

NBFCs have consistently played a crucial role in advancing financial inclusion across India. By complementing and supplementing the efforts of the banking sector, they have helped extend credit access to traditionally unbanked and underserved segments. One of their most significant contributions has been in supporting Micro, Small, and Medium Enterprises (MSMEs)—the backbone of entrepreneurship and innovation in the country. NBFCs possess a unique ability to understand the nuanced needs of these businesses and tailor financial products accordingly, positioning them as effective and agile credit delivery channels for the MSME sector.

Economic and Industry Overview:

FY 2024-25 witnessed gradual economic stabilization following post-pandemic recovery cycles and geopolitical uncertainties. India's GDP growth was estimated at ~6.8%, supported by resilient domestic demand, robust infrastructure spending, and sustained momentum in the services sector.

The NBFC sector, especially the Base Layer entities, continued to play a vital role in reaching underbanked and unbanked segments. Increased digital penetration and regulatory focus on governance and risk-based supervision have shaped the operating environment.

Regulatory Landscape

As NBFCs have become more significant, the RBI has enhanced its regulation of the sector to address the industry specific issues such as contagion risk in the financial system, oversimplified underwriting processes, concentration of credit risk, exposure towards technology related risks, etc.

Accordingly, the RBI, over last few years, has issued various guidelines on (i) vigil over asset-liability management practices, (ii) maintaining liquidity ratios, (iii) increased reporting requirements, and (iv) scale-based regulations. These have led to NBFCs adopting practices in line with banks. The regulatory vigil is based on four key cornerstones of: (i) responsible financial innovation, (ii) accountable conduct, (iii) responsible governance, and (iv) centrality of the customer.

The Company remains fully compliant with applicable regulations and has taken proactive steps to align with evolving guidelines.

Growth Drivers for NBFC Industry

- 1. Expanding Financial Inclusion:** NBFCs have been playing a pivotal role in deepening financial inclusion by reaching segments traditionally underserved by the formal banking sector. Their agile operating models, localised reach, and flexible underwriting practices have enabled them to serve small businesses, first-time borrowers, rural populations, and informal income groups - effectively bridging the credit divide. *Source: Article from SMFG India Credit updated November 04, 2025*
- 2. Credit Demand from the MSME Sector**

The Micro, Small and Medium Enterprises (MSME) sector, which contributes nearly 30% to India's GDP and employs over 25 crore people, continues to face a significant credit gap. With a credit addressable market estimated at ₹ 92 lakh crore, NBFCs have a vital role to play in meeting this growing and underpenetrated demand. Their ability to offer tailored financing solutions positions them as preferred partners for MSME growth. *Source: Understanding the Indian MSME Sector, SIDBI, May 2025*
- 3. Green and Sustainable Financing**

With a global emphasis on sustainability, NBFCs are increasingly funding environmentally friendly projects, including renewable energy initiatives and electric vehicle financing, aligning with both regulatory requirements and market demand.
- 4. Technological Advancements**

NBFCs have been early adopters of digital technology, which has enhanced both reach and efficiency. Digital loan origination platforms, eKYC, automated credit scoring, and real-time disbursements have significantly improved customer experience and reduced operational costs. Technology has also enabled NBFCs to serve remote geographies with minimal physical infrastructure. Digital channels like online lending platforms, mobile apps, and digital wallets have become popular among customers, especially the younger generation. NBFCs have been quick to adopt these digital channels, enabling them to offer a more personalised and convenient service to their customers. Further, NBFCs have also started using data analytics to gain insights into customer behaviour and preferences. This has enabled them to offer more personalised products and services to their customers. *Source: Article by Faster Capital dated April 02, 2025*

Challenges Facing the NBFC Sector

While NBFCs have undoubtedly achieved significant growth, they also face challenges that could affect their operational and growth potential.

- **Rising Funding Costs:** Increased capital requirements and higher interest rates are elevating borrowing costs for NBFCs, potentially impacting profitability
- **Intensified Competition:** The NBFC sector in India is highly competitive. While larger ones maintain their positions, smaller NBFCs often struggle to compete against well-established companies due to limited resources and challenges in scaling operations effectively. *Source: Article from SMFG India Credit updated November 04, 2025.*
- **Technological Disruptions:** While technology has been a key driver of NBFC growth, keeping pace with rapid advancements and cybersecurity threats is crucial. Smaller NBFCs may struggle to invest in sophisticated digital solution, putting them at a disadvantage compared to larger, tech savvy competitors. : *Article from SMFG India Credit updated November 04, 2025.*
- **Regulatory Compliance:** Stricter regulations necessitate significant investments in compliance infrastructure and processes.
- **Asset Quality Management:** Maintaining asset quality amidst economic fluctuations and evolving credit landscapes remains a critical concern.

Strategic Outlook

To navigate these challenges and capitalize on growth opportunities, NBFCs are focusing on:

- **Diversifying Funding Sources:** Exploring international markets and alternative financing options to mitigate funding risks.
- **Enhancing Digital Capabilities:** Investing in technology to improve customer engagement, operational efficiency, and data analytics.
- **Expanding into Underserved Markets:** Targeting rural and semi-urban areas with tailored financial products to drive inclusion.
- **Fostering Strategic Partnerships:** Collaborating with fintech firms and other stakeholders to innovate and expand service offerings.

The NBFC sector is poised for continued growth, underpinned by technological advancements, strategic partnerships, and a focus on underserved markets. However, addressing challenges related to funding costs, regulatory compliance, and asset quality will be crucial for sustaining long-term profitability and stability.

Opportunities

According to the World Bank, Non-Banking Financial Institutions (NBFIs) serve as vital components of a resilient financial system, contributing to macroeconomic stability and long-term economic growth. Their ability to offer cost-effective financing to both individuals and businesses, diversify funding sources, and provide alternative investment avenues helps reduce systemic volatility

while fostering competition through a broad range of financial products. This role has been well-demonstrated in mature financial markets. In India, Non-Banking Financial Companies (NBFCs) continue to be instrumental in expanding access to financial services, particularly among underserved and remote populations. They are increasingly establishing themselves as key players in the retail finance space. Looking ahead, NBFCs are expected to further solidify their position in retail lending and maintain a steady growth trajectory.

Threats

In FY 2025, NBFCs continue to grapple with mounting competition from banks and other financial institutions, primarily due to their access to low-cost funding, which allows them to offer credit at more competitive rates. Additionally, the Reserve Bank of India's enhanced capital adequacy requirements for NBFCs have further constrained their ability to extend lower-cost financing, putting additional pressure on their margins and lending capabilities.

The challenges are compounded by the growing dominance of commercial players with a higher risk-absorption capacity, rising counterparty risks, and ongoing regulatory developments aimed at expanding the supervisory scope over NBFCs. While these measures aim to strengthen systemic stability, there is a growing concern that they may dilute the unique positioning of NBFCs—entities originally structured to serve niche segments and underbanked populations with customized, flexible financial solutions.

Financial Services -NBFC Sector

NBFCs have become a key component of India’s financial sector, outpacing scheduled commercial banks (SCBs) in credit growth in recent years. With their deep regional knowledge, efficient collection systems, and customer-focused services, NBFCs have been instrumental in driving financial inclusion. Their low transaction costs, quick decision-making, and personalized offerings differentiate them from banks, positioning them well to bridge the financing gap in India.

Over the past decade, NBFCs have grown significantly, now representing over a quarter of the balance sheet size of banks. This growth has prompted the RBI to increase regulatory oversight of larger NBFCs, as outlined in its 2021 framework aimed at addressing potential systemic risks while fostering further development in the sector.

The COVID-19 pandemic tested the resilience of NBFCs, particularly due to the lack of relief on liabilities, unlike banks. However, those that maintained strong liquidity were able to navigate the crisis successfully. Despite previous challenges like demonetization, GST implementation, and the failure of a major NBFC, the sector has demonstrated its resilience. With stronger capital adequacy, improved margins, and lower NPAs, the NBFC sector is poised for growth in the post-pandemic period, with the RBI’s revised framework further enhancing its resilience.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS financial statements for the financial year ended March 31, 2026. These matters were addressed in the context of our audit of the Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to be communicated in our report.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report but does not include the Ind AS financial statements and our auditor's report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Management for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statement

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements for the financial year ended March 31, 2026 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

We have audited the internal financial controls over financial reporting of **SUNGOLD CAPITAL LIMITED** ("the Company") as of March 31, 2026 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these Ind AS financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these Ind AS financial statements.

Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Financial Statements

A company's internal financial control over financial reporting with reference to these IND AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these Ind AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting With Reference to these Ind AS financial statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these Ind AS financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting with reference to these financial statements and such internal financial controls over financial reporting with reference to these Ind AS financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Deferred Tax Asset and Liability are netted off and disclosed in the balance sheet under the Head "Deferred Tax Asset / Liability"

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Provisions are reviewed at each balance sheet date and adjusted to reflect the current management estimates. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed.

A disclosure of contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources.
