MEDIA RELEASE: IEX POWER MARKET UPDATE, OCTOBER'26

- **IEX ACHIEVES MONTHLY ELECTRICITY TRADED VOLUME OF 13.1 BU IN OCTOBER'26, AN INCREASE OF 16.5% YOY**
- **ACHIEVES MONTHLY VOLUME OF 5.7 BU IN RTM, INCREASE OF 23.7% YOY**

New Delhi, 03rd November 2026: Indian Energy Exchange (IEX), India's premier electricity exchange, recorded monthly electricity traded volume of 13,092 MUs in October 2026, an increase of 16.5% year-on-year.

According to government data, India's energy consumption touched 159.8 BUs in October 2026, registering a year-on-year growth of 21.9%. This rise in power demand drove buy bids in the Day-Ahead Market up 265% year-on-year, resulting in an increase in prices. The average market clearing price in the Day-Ahead Market registered a 149% increase year-on-year, rising from Rs 2.67/unit in October 2025 to Rs 6.66/unit in October 2026. The sharp increase was also attributable to the low base of the corresponding month last year, when power demand was relatively lower. Similarly, the average market clearing price in the Real-Time Market stood at Rs 5.78/unit during October 2026, registering an increase of 112% year-on-year.

However, demand-supply dynamics remained volatile even during October. Warmer weather due to El Niño and below-normal monsoon rainfall, resulted in strong power demand in the first half, while cooler weather, rainfall and the impact of Cyclone Arnab led to an easing of demand during the latter days of the month. Higher supply liquidity during periods of subdued demand resulted in near-zero prices in the Real-Time Market (RTM) across multiple time blocks.

ELECTRICITY MARKET: DAY- AHEAD, REAL-TIME & TERM- AHEAD MARKET

The **Day-Ahead Market (DAM)** including HP-DAM, achieved 4,508 MU volume in October '26 as compared to 4,684 MU volume in October'25, decline of 3.8% YoY.

The **Real-Time Electricity Market** (RTM) volume increased to 5,670 MU in October'26, from 4,583 MU in October'25, registering an increase of 23.7% YoY.

Day Ahead Contingency and **Term-Ahead Market** (TAM) comprising of HPTAM, intraday, contingency, daily & weekly and monthly contracts up to 3 months, traded 2,175 MU in October'26 as compared to 911 MU volume in October'25, increase of 138.8% YoY.

GREEN MARKET: GREEN DAY-AHEAD & GREEN TERM-AHEAD MARKET

IEX Green Market, comprising the Green Day-Ahead and Green Term-Ahead Market segments, achieved 738 MU volume during October'26 as compared to 1,055 MU in October'25, decline of 30% YoY. The weighted average price in Green Day-Ahead Market (G-DAM) for October'26 at Rs 4.13/ unit, increased 67% on a year-on-year basis.

RENEWABLE ENERGY CERTIFICATE MARKET (REC MARKET)

A total of 12.22 lakh RECs were traded in October '26, up 97.5% YoY. Trading sessions were held on 14th October'26 and 28th October'26, with clearing price of Rs 338/REC and Rs 330/REC, respectively.

The next REC trading sessions at the Exchange are scheduled on 11th November'26 and 25th November'26.
