  - a. Pursuant to Section 124 and 125 and all other applicable provisions, if any, of the Companies Act, 2013, ('The Act') the amount of the dividend remaining unpaid or unclaimed for a period of 7 (Seven) years from the date of transfer to unpaid dividend account of the Company shall be transferred to the Investor Education and Protection Fund (the "Fund") set up by the Government of India.
  - b. Further, in accordance with Section 124(6) of the Act read with Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 as amended from time to time, amongst other matters, all shares in respect of which dividend has remained unclaimed or unpaid for 7 (Seven) consecutive years or more are required to be transferred to the Demat Account of the IEPF Authority. Accordingly, all the shares in respect of which dividends were declared upto the financial years ended March 31, 2012 and remained unpaid or unclaimed were transferred to the IEPF Demat Account. The details of unpaid/ unclaimed dividend and numbers of shares liable to be transferred / transferred are available on website: [www.autostampings.com](http://www.autostampings.com)
  - c. Members are requested to note that no claim shall lie against the Company in respect of any amount of dividend remaining unclaimed/unpaid for a period of 7 (Seven) years from the dates they became first due for payment. However, Shareholders may claim from IEPF Authority both unclaimed dividend amount and the shares transferred to IEPF Demat Account as per the applicable provisions of Companies Act, 2013 and rules made thereunder. The Member/ Claimant is required to make an online application to the IEPF Authority in Form IEPF-5 (available on [www.iepf.gov.in](http://www.iepf.gov.in)) along with requisite fees as decided by the IEPF Authority from time to time. The Member/Claimant can file only one consolidated claim in a financial year as per the IEPF Rules. In order to help Members to ascertain the status of Unclaimed Dividends, the Company has uploaded the information in respect of Unclaimed Dividends on the website of Investor Education and Protection Fund: [www.iepf.gov.in](http://www.iepf.gov.in) and on the website of the Company: [www.autostampings.com](http://www.autostampings.com).
13. Members are requested to intimate changes, if any, pertaining to their name, postal address, e-mail address, telephone/mobile numbers, PAN, registering of nomination, power of attorney registration, bank mandate details, etc., to their DPs in case the shares are held in electronic form and to the Registrar at [Pune@in.mpms.mufg.com](mailto:Pune@in.mpms.mufg.com) in case the shares are held in physical form, quoting your folio no. Further, Members may note that SEBI has mandated the submission of PAN by every participant in securities

market.

14. As per the provisions of Section 72 of the Act, the facility for making nomination is available for the Members in respect of the shares held by them. Members who have not yet registered their nomination are requested to register the same by submitting Form SH-13. If Member desires to cancel the earlier nomination and record a fresh nomination, he/she may submit the same in Form SH-14. Members are requested to submit the said form to their DP in case the shares are held in electronic form and to the Registrar & Transfer Agents at [Pune@in.mpms.mufg.com](mailto:Pune@in.mpms.mufg.com) in case the shares are held in Physical Form, quoting your Folio No.
15. Members may note that as per SEBI Master Circular No. SEBI/HO/MIRSD/POD-1/P/CIR/ 2024/37 dated May 7, 2024, it is mandatory for all holders of physical securities in listed entities to update their KYC and choice of Nomination with the Registrar and Share Transfer Agent ('RTA'), in case they have not updated the same. As per the SEBI Circular, effective from April 1, 2024.

RTA will attend to all service requests of the shareholders with respect to transmission, dividend, etc., only after updating the above details in the records.

As per the aforesaid SEBI Circular, Members holding securities in physical form may note that any future dividend payable against their shareholding would be withheld if their KYC and choice of Nomination are not updated with the RTA. For the purpose of updation of KYC and choice of Nomination, Members are requested to send the necessary forms (ISR-1, ISR-2 and SH-13) along with the necessary attachments mentioned in the said Forms to RTA.

16. Members who wish to inspect the relevant documents referred above and those in the Notice can send an email to [cs@autostampings.com](mailto:cs@autostampings.com) up to date of this AGM.
17. To prevent fraudulent transactions, Members are advised to exercise due diligence and notify the Company of any change in address or demise of any Member as soon as possible. Members are also advised to not leave their demat account(s) dormant for long. Periodic statement of holdings should be obtained from the concerned Depository Participant and holdings should be verified from time to time.
18. To support the 'Green Initiative', Members who have not yet registered their email addresses are requested to register the same with their DPs in case the shares are held by them in electronic form and with the Company in case the shares are held by them in physical form.

## Automotive Stampings and Assemblies Limited

21. As per the Scheme of Arrangement (demerger) of 2001 between the Company and JBM Auto Limited (formerly known as JBM Auto Components Limited), the Members of the Company were required to surrender the original share certificates of the Company for exchange of new shares certificates of both the Companies. The Company had pending share certificates of those Members who had not submitted their share certificates in terms of the scheme of arrangement for exchange and also of those Members in whose case new share certificates remained undelivered. In compliance with Clause 5A of the erstwhile Listing Agreement issued by SEBI, after following the prescribed procedure, the shares which remained unclaimed, were dematerialized and transferred to a demat account in the name of "Automotive Stampings and Assemblies Limited - Unclaimed Securities Suspense Account".

The Members are requested to refer the note w.r.t. Unclaimed Shares in Corporate Governance Report for further information in this behalf.

22. Non-Resident Indian Members are requested to inform the Company/Depository Participant, immediately of:

- a. Change in their residential status on return to India for permanent settlement.
- b. Particulars of their bank account maintained in India with complete Bank Name, Branch, Account Type, MICR number, Account Number and Address of the bank with pin code number, if not furnished earlier.

23. The Securities and Exchange Board of India (SEBI) has mandated the submission of Permanent Account Number (PAN) by every participant in the securities market. Members holding shares in electronic form are, therefore, requested to submit their PAN details to their respective Depository Participants. Members holding shares in physical form are requested to submit their PAN details to the Company or its Registrar & Transfer Agents.

26 Voting through electronic means:

1. The complete details of the instructions for e-voting are annexed to this Notice. These details form an integral part of the Notice.
2. In compliance with provisions of Section 108 of the Companies Act, 2013 and rules framed there under, as amended from time to time, Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Secretarial Standard on General Meetings (SS2) issued by the Institute of Company Secretaries of India, the Company is pleased to offer e-voting facility to the Members to exercise their right to vote by electronic means on all Resolutions set forth in the Notice convening the 36<sup>th</sup> Annual General Meeting through National Securities Depository Limited (NSDL).
3. The e-voting facility is available at the link [www.evoting.nsdl.com](http://www.evoting.nsdl.com).

Accordingly, the Board recommends the Resolution set out in Item No.13 of the Notice for approval by the Members as an Ordinary Resolution.

#### **ITEM NO 14: TO APPROVE COMMISSION PAYABLE TO THE DIRECTORS**

In terms of provisions contained in Section 197 of the Companies Act, 2013 (“the Act”), a company by way of an Ordinary Resolution in general meeting may authorise payment of remuneration/compensation to Non- Executive Directors (including Independent Directors), a sum not exceeding 1% (one percent) of the Net Profits of such company calculated in accordance with provisions of section 198 of the Act, if there is a Managing or Whole-Time Director or Manager.

Further, as per Regulation 17(6)(a) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, including any amendment thereto or modification thereof (“Listing Regulations”), the Board of Directors shall recommend all fees (save and except payment of sitting fees for attending meeting(s) of the Board of Directors and/or Committee(s) thereof or for any other purposes whatsoever as may be decided by the Board of Directors within the limits as prescribed under Section 197(5) of the Act) or compensation, if any, paid to Non-Executive Directors including Independent Directors, the same shall require approval of the Members in General Meeting.

At present, save and except for the sitting fees for participating in the meetings of the Board of Directors and Committees thereof, the Company does not pay any remuneration/ compensation to Non-Executive Directors including Independent Directors. The Non-Executive Directors including Independent Directors of your Company brings with them significant professional expertise and rich experience across wide spectrum of functional areas and the role played by the Non-Executive Directors including Independent Directors in the Company’s governance and performance is very important for growth of the Company.

Accordingly, the Board of Directors of the Company at its meeting held on April 25, 2026 recommended for the approval of the Members, payment of remuneration/compensation by way of profit related commission or otherwise as permissible under the Act to Non-Executive Directors including Independent Directors of the Company for all financial years commencing from FY 2025-26 taking into account the business prospects, roles and responsibilities, contributions, performance of the non-executive directors and in the interest of higher level of excellence in corporate governance on account of statutory and regulatory changes. The amount of remuneration/ compensation payable to the Non-Executive Directors shall be determined by the Board of Directors for each financial year commencing from FY 2025-26 based on the recommendation of the Nomination and Remuneration Committee. The remuneration/compensation by way of profit related commission or otherwise as permissible (excluding Goods and Services Tax, if any, thereon) as above, shall be paid in such proportion/ manner and upto such extent amongst all or some Non-Executive Directors as the Board of Directors determine from time to time within the overall maximum limit of 1% (one percent) of the Net Profits of the Company for the relevant financial year computed in the manner as laid down under Section 198 and other applicable provisions of the Act and rules made thereunder.

The said remuneration/compensation by way of profit related commission or otherwise as permissible (excluding Goods and Services Tax, if any, thereon) to the Non-Executive Director(s) shall be in addition to the sitting fees and reimbursement of expenses for attending Board/Committee meetings.

Non-Executive Directors including Independent Directors and their relatives may be deemed to be concerned or interested in this resolution to the extent of the remuneration that may be received by them.

None of the Key Managerial Personnel of the Company either directly or through their relatives, are in any way, concerned or interested, whether financially or otherwise, in the Resolution as set out at Item No. 13 of the

Notice.

Accordingly, the Board recommends the Resolution set out in Item No.14 of the Notice for approval by the Members as an Ordinary Resolution.

### ITEM NO. 15 & 16

#### **RATIFICATION AND APPROVAL FOR CHANGE IN REMUNERATION / COST TO COMPANY (CTC) STRUCTURE OF MR. SUSHAS DODE, MANAGER DESIGNATED AS CHIEF EXECUTIVE OFFICER (CEO)**

**&**

#### **REVISION IN REMUNERATION OF MR. SUHAS DODE, MANAGER DESIGNATED AS CHIEF EXECUTIVE OFFICER**

##### **Background of the Resolution:**

On the recommendation of Nomination and Remuneration Committee, Board of Directors at their meeting held on April 28, 2023 appointed Mr. Suhas Dode (the appointee) as a "Manager" under Section 196 of the Companies Act, 2013 (the Act), designated as the 'Chief Executive Officer' (KMP) of the Company, for a period of not exceeding 5 (Five) years from May 1, 2023, to April 30, 2028 and approved his remuneration subject to approval of the Members of the Company.

Members of the Company at the 33<sup>rd</sup> Annual General Meeting (AGM) held on August 14, 2023 approved appointment of Mr. Suhas Dode (the appointee) as a "Manager" under Section 196 of the Companies Act, 2013 (the Act), designated as the 'Chief Executive Officer' of the Company, for a period of not exceeding 5 (Five) years from May 1, 2023 to April 30, 2028 and approved his remuneration.

Further, Members of the Company at the 35<sup>th</sup> Annual General Meeting (AGM) held on July 30, 2025 approved revision in remuneration of Mr. Suhas Dode, Manager designated as chief executive officer w.e.f. April 01, 2025.

##### **• Ratification and Approval of Remuneration / Cost to Company (CTC) Structure**

The Government of India has announced the implementation of the four Labour Codes - the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020 and the Occupational Safety, Health and Working Conditions Code, 2020 (hereinafter to be referred as "Wage Code") with effect from 21st November 2025, rationalising 29 existing labour laws. Consequent to implementation of Wage Code, the Company is required to change the Remuneration / Cost to Company (CTC) structure across the Company for all the employees, workers, Key Managerial Personnels including for Mr. Suhas Dode, Manager designated as Chief Executive Officer.

Pursuant to the provisions of section 197 of the Companies Act, 2013, if any manager draws or receives, directly or indirectly, by way of remuneration any such sums in excess of the limit prescribed by under aforementioned section, the Company shall seek approval of the members by way of Special Resolution.

In order to ensure compliance with the Wage Code and provisions of the aforementioned section of the Companies Act, 2013 and to maintain consistency in remuneration practices, it is necessary to ratify and approve remuneration/Cost to Company (CTC) structure, paid or payable, of Mr. Suhas Dode, Manager designated as Chief Executive Officer.

The Board of Directors of the Company, on the recommendation of Nomination and Remuneration Committee at its meeting held on July 1, 2026 has ratified and approved change in remuneration / CTC structure, paid or payable to Mr. Suhas Dode w.e.f. April 01, 2026 until 36th Annual General Meeting.

##### **• Revision in Remuneration**

Further, considering performance and overall growth of the Company, the Board of Directors of the Company, on the recommendation of Nomination and Remuneration Committee at its meeting held on July 1, 2026 has approved revision in remuneration payable to Mr. Suhas Dode w.e.f. April 01, 2026 & effective from May 01, 2026, due to car lease policy of the Company.

The revision in the remuneration payable to him is subject to the approval of the Members of the Company at the ensuing Annual General Meeting.

Schedule V to the Act, fixes the limits for payment of managerial remuneration by companies in case of loss or inadequacy of profits in any financial year and inter-alia, requires Members' approval for payment of managerial remuneration to the managerial person by way of a Special Resolution. Mr. Suhas Dode is functioning in a professional capacity and is not having any interest in the capital of the Company or its holding Company or any of its subsidiaries directly or indirectly or through any other statutory structures and not having any direct or indirect interest or related to the Directors or Key Managerial Personnel or Promoters of the Company or its holding Company or any of its subsidiaries at any time during the last two years before or on or after the date

of appointment. Besides the terms and conditions for payment of managerial remuneration as contained in the proposed Resolution, the other main terms and conditions, contained in the Resolution passed at the 33rd AGM held on August 14, 2023 shall remain same.

In compliance with the provisions of Section 196, 197 read with Schedule V and other applicable provisions thereof (including any statutory modification or re-enactment thereof for the time being in force), the revision in remuneration of Mr. Suhas Dode, Manager designated as Chief Executive Officer on the terms and conditions specified above is now being placed before the Members for their approval.

Except Mr. Suhas Dode, no Director, Key Managerial Personnel or their respective relatives are concerned financially or otherwise in the Resolution mentioned at Item No. 15 & 16 of the Notice.

Accordingly, the Board recommends the Resolution set out in Item No. 15 & 16 of the Notice for approval by the Members as a Special Resolution.

Additional Information relevant to the said appointment of Manager as per Schedule V Part II Section II (B) (iv) of the Act.

### MANAGEMENT DISCUSSION AND ANALYSIS

#### Global Economy

In 2026, global economic growth is projected to 3.1%, reflecting increasing pressure from geopolitical conflicts

particularly in the Middle East and broad supply side disruptions. Growth in advanced economies will remain subdued, with the United States expanding by ~2%, the Europe area growing by 1.1%, and Japan recording growth of 0.7%. The growth for emerging market and developing economies is projected to be 3.9%, outperforming advanced economies despite higher energy and food prices. India continues to stand out, with growth projected at 6.5%, supported by strong domestic demand, public infrastructure investment, and favorable growth carry over, making it the fastest growing major economy globally.

The Global inflation projected at 4.4% due to energy, logistics, and commodity price shocks, alongside persistent services sector inflation. Consistent with this, the OECD projects G20 inflation at 4.0% in 2026. As a result, monetary easing is expected to be slower and more cautious, while fiscal policy remains constrained by elevated public debt levels and rising defense, energy security, and climate transition spending. EY Parthenon advises businesses to prepare for structural volatility by strengthening scenario based planning, supply chain resilience, cost discipline, and GenAI led productivity initiatives to sustain resilience and profitability through 2026.

## Indian Economy

India's economy demonstrated strong resilience and continuity of growth during FY2026 despite a challenging global backdrop marked by geopolitical tensions and commodity price volatility. According to the International Monetary Fund (IMF), India's real GDP growth for 2026 is projected at 6.5%, maintaining its position as the fastest growing major economy globally, even as global growth moderated to about 3.1%.

In nominal terms, India's GDP is estimated at approximately USD 4.1 – 4.2 trillion. Movements in global GDP rankings largely reflect exchange rate effects and statistical revisions, rather than any weakening of domestic growth fundamentals.

Economic expansion in FY26 was supported by diversified and structurally improving growth drivers such as:

- Robust private consumption, led by sustained urban demand and gradual improvement in rural incomes
- Strong public capital expenditure, particularly in infrastructure, transport, power, and logistics
- Resilient services sector performance, driven by IT, business services, and financial services exports
- Manufacturing investment momentum, aided by policy initiatives such as Production Linked Incentive (PLI) schemes and supply chain diversification

Inflation remained moderate and well anchored. As per MoSPI, headline CPI inflation stood at 3.40% in March 2026, up marginally from 3.21% in February 2026, and comfortably within the RBI's target band of 2–6%.

Food inflation was 3.87%, while housing inflation remained subdued at 2.11%.

Key inflation and cost drivers affecting the automotive sector included:

- Elevated energy prices, increasing fuel, power, and logistics costs
- Volatility in metals and commodities, impacting steel, aluminium, and non ferrous inputs
- Selective food price pressures, affecting labour costs through rural inflation trends
- High precious metal prices, influencing two wheeler, electronics, and EV component costs

Manufacturing activity continued to expand, albeit at a slower pace. The HSBC India Manufacturing PMI, compiled by S&P Global, declined to 53.9 in March 2026 from 56.9 in February, marking the slowest expansion since mid 2022, though remaining firmly above the expansion threshold of 50.

The moderation reflected higher input costs, supply chain disruptions, and geopolitical uncertainty, even as year on year manufacturing output remained positive.

India's external position remained manageable and supported by strong services exports. RBI data shows that the current account deficit widened to USD 13.2 billion (1.3% of GDP) in Q3 FY26, driven primarily by a higher merchandise trade deficit. However, net services receipts rose to USD 57.5 billion, providing a strong offset.

On a cumulative basis, the CAD moderated to USD 30.1 billion (1.0% of GDP) during April–December 2025, compared with USD 36.6 billion (1.3% of GDP) in the corresponding period of the previous year.

### OPERATIONS

The Company manufactures sheet metal components, welded assemblies, steel and aluminium battery tray assemblies, aluminium cooling tubes, seat structures, and heavy fabricated parts. These products cater to a wide range of applications across the Passenger Vehicle, Commercial Vehicle, Electric Vehicle, two and three wheeler, and off road equipment segments.

The Company serves a diversified and reputed customer base, including Tata Motors Limited, Tata Motors Passenger Vehicles Limited (TMPVL), Tata Passenger Electric Mobility Limited (TPEML), Fiat India Automobiles

Private Limited, Ashok Leyland Limited, Piaggio Vehicles Private Limited, Tata Hitachi Construction Machinery Company Private Limited, M.L.R. Motors Limited, Octillion Power system and JCB Heavy Products Limited. In addition, the Company supplies to its Parent Company - Tata AutoComp Systems Limited (TACO) and TACO'S Joint Ventures & Subsidiary Companies such as, Tata AutoComp Gotion Green Energy Solutions Private Limited, TACO Air International Thermal Systems Private Limited, and Tata AutoComp Hendrickson Suspensions Private Limited.

Through our ongoing commitment to quality and service, Company looks forward to maintaining these working relationships, and forging new partnerships in the future.

With a continued commitment to growth and diversification, the Company has expanded both its product offerings and customer portfolio during the year. Further, a new vertical for Automotive Seat Structures has been successfully established, from where supplies have been initiated to TM Automotive Seating Systems Private Limited.

In line with its strategy to expand global reach, the Company has commenced servicing its global customer, TitanX, through Tata AutoComp- Supply Chain Solutions, thereby strengthening its international presence.

The Company also started the supply of Body-in-White (BIW) components to MG Motor India & will continue its efforts to increase the share of its business.

Currently, the Company operates five manufacturing facilities, located at Chakan I and Chakan II Pune (Maharashtra), Pantnagar (Uttarakhand), Sanand (Gujarat), and Jamshedpur (Jharkhand).

All manufacturing plants are certified to IATF 16949:2018, ISO 14001:2016, and ISO 45001:2016, reflecting the Company's strong focus on quality excellence, environmental management, and occupational health and safety.

## **OPPORTUNITIES:**

### a) Growth in Automotive Demand:

Indian automotive industry has grown by 11.8% in FY2026 over FY2025 showing a strong demand amongst the consumers. Growth in the EV segment is expected to continue its momentum during the upcoming fiscal year FY2027 with the launch of EV models by OEMs.

### b) Growth in Export Business:

During the year, the company has started supplies to TACO synergy customers through TACO Supply Chain Solutions to the plants in Mexico & Poland. With start of supplies, there is potential growth opportunities further with synergy customers.

### c) Affiliation with Market Leader:

The Company's Anchor Customers are Tata Motors Limited (CV segment) and Tata Motors Passenger Vehicles Limited (TMPVL), leading manufacturers in India. TMPVL has sold 6.41 Lakh units as against 5.66 Lakh units in Fiscal Year 2025 holding third position in the Indian market. Anchor customer has more than 50% market share in EVs.

Tata Motors Limited (CV segment) sold 4.08 Lakh units of commercial vehicles during Fiscal 2026, continued to be market leader in commercial vehicle segment with a market share of 35% in Fiscal Year 2026. The Company is associated with Tata Motors Limited (CV segment) and TMPVL (PV segment) in their growth journey as a reliable supplier.

### d) Manufacturing Capability:

During the year, the Company developed the capability of manufacturing & supply of the battery trays and seat structures through robotic production lines for the first time. The Company established an in-house Friction Stir Welding (FSW) facility for aluminium battery tray applications, strengthening its manufacturing technology. The Company has expanded the manufacturing for battery trays for 3W segment for synergy business. The Company will continue to focus on expanding its EV related manufacturing capabilities in the coming years. This capability has enhanced customer engagement and opened new business opportunities in the automotive segment. The Company is actively pursuing towards automation of manual weld lines.

## Automotive Stampings and Assemblies Limited

### **RISKS AND CONCERNS:**

a) Concentrated Customer Base:

The Company derives majority of its revenue from TML (CV Segment) and TMVPL and is striving to increase the share of business with them in terms of volume and new products. The Company has intensified its focus to diversify its customer base by focusing on adding new business with other customers through new products and business development.

b) Rising Input Costs:

The products manufactured by the Company consume mainly steel, where prices continue to fluctuate. While the Customer adjusts the price fluctuation, there is continuous pressure for reduction in conversion and other costs. Also, the minimum wages at PAN India region has been inflated significantly in the current year. The Company has ongoing improvement initiatives to optimize cost through improving operational efficiency, yield improvement and SG&A cost reduction.

c) Skilled Manpower Availability:

The availability of trained manpower is a challenge particularly in the scenario of growing demand and further introduction of new wage code & geopolitical situation is creating a challenge of workmen getting migrated to different states. This is further compounding the shortage of skilled workmen.

The Company focuses on recruitment and in-house skill development to address this challenge. The Company has also undertaken the initiative to associate with service providers to have PAN India presence in recruitment and skilling. The Company is also focusing on productivity improvement through various continuous improvement drive.

d) Supply Chain and Volume fluctuation:

The schedule fluctuations emerged as a potential risk during FY2026. However, the Company was well-prepared through its established partnership arrangements with vendors, enabling effective scaling up or down of operations as required.

Company has systems in place to identify, assess, monitor and mitigate various risks. Major risks identified by the businesses and functions are systematically addressed through mitigating actions on a continuing basis. These are discussed regularly at the Risk Management Committee meetings and Board meetings.

## KEY NOTES:

- Sales have Increased by ₹11,524 lakhs over last year (approximately 14.86%). As explained above, the improvement in the performance of Automotive Industry and consequent to higher off-take by our OEM customers have led to the increase.
- The percentage of material consumption to sales has improved during this year due to prudent product mix (mainly new products) and new cost saving measures.
- The percentage of employee cost to sales has been consistent as compared to last year, there has been an increase in absolute employee benefit expenses in line with higher sales, the impact of wage revisions and normal increments has been offset by continued focus on productivity improvements, operational efficiencies and rationalization measures. Additionally, improved price realization from new and existing products has supported the maintenance of employee cost ratios at level comparable to previous year.
- The percentage of other expenses to sales has increased from the previous year FY 2024-25 mainly due to additional subcontract cost for new product program and cost inflations in consumable and other cost heads.
- Finance costs have decreased mainly due to repayment of Inter-company deposits, and reduced interest rates as compared to previous year. In addition, better working capital management resulted in lower reliance on interest bearing fund, further supporting the reduction in finance costs.
- The Company reported a significant improvement in total revenue. EBITDA also improved marginally reflecting the benefits of an improved product mix, better price realization and continued focus on cost rationalization, particularly in relation to raw material consumption.

## DETAILS OF SIGNIFICANT CHANGES (>25% and <-25%)

- Debt-Equity ratio: The Company's debt-equity ratio improved significantly from 17.02 in the previous year to 3.44 during the current year, primarily due to substantial repayment of borrowings and retention of profits generated during the year.
- Return on Equity ratio: The Return on Equity Ratio decreased from 24.58% to 1.23% during the year. While net profit after tax increased to INR 2,513.73, the ratio was impacted by a substantial rise in average shareholder's equity to INR 2,244.82, compared to INR 68.26 in the previous year.

## Automotive Stampings and Assemblies Limited

3. Trade Payable turnover ratio: The Trade Payables Turnover Ratio improved consequent to improved Cashflow from operations and reduction in payment term, indicating improvement in working capital management.
4. Net Capital Turnover Ratio: The sharp movement in the ratio is primarily a mathematical outcome of the denominator (net working capital) converging towards zero, and does not indicate any deterioration in operational efficiency. The improvement in current assets during the year further corroborates the strengthening of the Company's short-term financial position.
5. Net Profit Margin: improvement is attributable to a combination of higher revenue volumes driven by increased market demand and process improvement achieved during the year. The increase in volumes enabled better absorption of fixed costs, while process rationalization contributed to reduction in per-unit operating cost.
6. Interest Coverage ratio: Earnings increased by approximately 50%, strengthening interest service coverage. Interest expenses reduced due to principal repayments and favorable market conditions resulting in lower interest rates.
7. Return on Networth: RONW declined from 184% to 75% primarily due to the transition of net worth from negative to positive. The earlier ratio was inflated by a low base. With profits retained, equity has strengthened, resulting in a more sustainable measure that reflects recovery and improved financial stability.

### COMPANY'S OWN TECHNOLOGY / PROCESSES / SYSTEM IMPROVEMENT PLAN

The Company has made significant progress in automation by implementing robotic welding applications at four of its plants to meet increasing customer quality expectations and improve operational efficiency. Plans are in place to extend automation to additional manual welding operations. The conversion of manual welding processes to robotic welding has enabled improved product quality and reduced dependency on availability of skilled labour.

During the year, the Company developed aluminium welding capabilities for battery trays by installing a Friction Stir Welding (FSW) facility at its Pune location. In growing EV segment, Company is focusing on manufacturing technologies for Aluminum Battery trays, Aluminium stamping products & cooling plates/tubes which is an emerging technology in the EV field.

Additionally, the Company is equipped with in-house laser cutting and press brake manufacturing technologies to support the production of heavy fabrication parts.

### SEGMENT-WISE PERFORMANCE

Your Company operates only in the Automobile Component Segment in the Domestic Market.

### MATERIAL DEVELOPMENT IN HUMAN RESOURCES/INDUSTRIAL RELATIONS FRONT

The Company accords high importance to build and sustain healthy industrial relations with an aim of achieving competitive productivity & cordial work environment. The industrial relations continue to remain harmonious. Close interaction and cordial relations with the Union Committees and the workers is maintained all the time. With a view to enhance the involvement and remain focused, the Functional Heads/Departmental Heads of each manufacturing locations are involved in Plant Committees e.g. Works Committee, POSH Committee, etc. The Committees have equal representation from workmen, who are also involved in resolving issues and grievances in a time bound manner. All the wage settlements with the Union have been signed in a peaceful and amicable manner. The Company has HR help desk to resolve grievances/day-to-day issues of employees within time bound manner. Skill Development:

The Company recognizes skill development as a critical area for long-term value creation. Currently Skill Development Centre (SDC) is providing training to permanent operators and contractual manpower through well-trained Drona (Trainer) who are practically experienced & motivated Instructors. SDC helps the trainees

in building skill sets for multi-dimensional competencies so that the person is ready for work. The workmen are provided classroom, digital and physical training. Based on the evaluation and around 70% efficiency, the trainee is deployed on production lines. VR based skill development has also been started in the Company

Learning & Development Update:

The Company conducted its development interventions through 4 Learning Academies – 1. Management & Leadership Academy, 2. Operational Excellence Academy, 3. Technology & Product Leadership Academy and 4. Academy of Linguistics and Cross-Cultural Engagement.

Mandatory trainings for Cadre (Business Etiquettes, GD&T, PFMEA, AutoCAD, Industry 4.0, Gen AI)

Monthly Knowledge Nexus- Webinar conducted by the Company Leaders on topics like Digital technologies in Automotive, Customer Centricity, Customer Satisfaction, Automobile Thermal Engineering, Pillars of Industry 4.0, Electrical Vehicle System Integration and Applied Controls.

Monthly Induction is held which includes – Visit to CSR Projects, Tata Central Archive.

In addition to training programs employees participate in improvement projects through which they get a practical exposure.

Communication and Recognition:

The Company organizes monthly open forums in each location where updates are provided by senior management, achievements are celebrated in several forums including Monthly Chairman award, Quarterly Achievers forum award, Monthly Awards, Spot recognitions. This is helping to improve performance through a higher level of motivation amongst various employee groups.

## **FUTURE OUTLOOK**

India's automotive sector is entering an investment led scale up phase, supported by sustained economic growth, strong domestic demand, policy stability, and a decisive shift by global and domestic OEMs to expand manufacturing footprints in India. With a population of approx. ~1.48 billion in India represents one of the world's largest long term automotive opportunities, particularly given its low passenger car penetration of ~33 cars per 1,000 people, leaving substantial headroom for demand expansion.

The Government of India's Automotive Mission Plan (AMP) 2047 continues to anchor the sector's long term vision of establishing India as a global automotive manufacturing and R&D hub. This vision is now being executed through PLI schemes for automobiles and auto components, FAME incentives for electric mobility, state level manufacturing policies, and improved ease of doing business frameworks, strengthening India's position as a competitive manufacturing, export, and sourcing base.

A defining shift in the current cycle is the acceleration of OEM investments. Multiple global and Indian automakers are expanding capacity, commissioning new plants, increasing localization, and committing multi year capital investments across passenger vehicles, commercial vehicles, EVs, and advanced powertrains. This includes investments in EV platforms, battery assembly, power electronics, lightweight materials, and digital manufacturing, significantly enhancing India's role in global automotive supply chains. These trends are generating strong multiplier effects for Tier 1 and Tier 2 suppliers, employment, and technology transfer.

OEMs scaling localized manufacturing of electric SUVs and commercial vehicles. However, challenges around EV financing, battery cell localization, critical mineral dependence, and charging infrastructure persist. Accelerating local manufacturing, recycling, and diversified sourcing will be critical to enable mass EV adoption in India.

Consumer preferences are also evolving rapidly. Demand is increasingly skewed toward SUVs, premium vehicles, and feature rich models, which now account for over 55% of passenger vehicle production, influencing OEM strategies across ICE, hybrid, and EV platforms. The rising acceptance of premium and electric SUVs is further reinforcing OEM investment decisions.

In summary, India's automotive industry has transitioned from a potential driven phase to a capacity and investment driven growth phase. Large scale OEM expansion, deeper localization, strong policy support, and premiumization of demand are creating sustained opportunities across the automotive value chain. Addressing

### ENVIRONMENT, HEALTH AND SAFETY

The Company is dedicated to providing a Safe, Secure and Healthy Workplace, as outlined in its Health, Safety and Environment (HSE) policy, which forms an integral part of Company's overarching wellness strategy. A comprehensive approach to safety has been adopted, with the implementation of the "Total Safety Culture" concept across all Operational Plants.

Chakan -1, Chakan - 2, Pantanagar, Sanad, and Jamshedpur Plants have achieved certification for EMS ISO 14001:2015 and ISO 45001:2018, as well as recognition from the National Safety Council (NSC). Throughout the reporting period, all plants have placed particular emphasis on Wellness and Safety Initiatives, such as Safety Week Celebrations, Annual Medical Check-Ups, Road Safety Traffic Management within Plant Premises, and Blood Donation Camps. Daily wellness programs are conducted by Dispensary Staff and Monthly Programs overseen by the Group Chief Medical Officer.

The Company is currently in the process of implementing the TSHMS "Tata Safety Health Management System." Internal audits of Safety walks & Behavior-Based Safety Culture (BBS) for Health, Safety, and Environment are conducted quarterly at all plants, resulting in consistently high ratings. Additionally, safety training and awareness

initiatives have been actively pursued throughout the year, with health check-ups and counselling sessions provided to employees by the Group Chief Medical Officer and other Competent Authorities.

Efforts to Strengthen Safety Protocols across all operations have been intensified, with regular Safety Drills and Audits conducted at all plants. Employees receive requisite safety training, and safety enforcement is rigorously monitored and same is effectively communicated to the employees and workers as well, through monthly Open Forum & Safety Committee Meetings.

Sensitization on safety is of paramount importance where in visible actions are taken for every entrant to the plant. This includes safety induction at Gurukul and plant under trained personnel. The safety committee regularly provides inputs. There is a separate guideline for visitors and external persons who come for repair and maintenance activity. This includes tool box talk, instructions on emergency evacuation.

The safety personnel are upgraded through trainings and encouraged to visit other companies to see and implement best practices. Senior safety officers from other companies visit the plants periodically to provide their inputs.

External Audits are conducted as per demand from statutory bodies. There is an allocated safety budget which is given highest priority. This is supplemented by a maintenance budget where in high priority is given to proximity sensors, robot programming and other equipment's which can enhance safety of personnel in the factory.

Implemented a Virtual Reality (VR) training system in Chakan Plant-1 for spot welding operations to strengthen safety awareness, enhance training effectiveness, and provide a risk-free learning environment for employees.

Chakan 1 plant procured a new ambulance during the year under review to strengthen on site emergency medical response and enhance employee health and safety preparedness.

Compliance with all recommendations issued under the CGWA NOC has been achieved as per the prescribed regulatory guidelines.

Presentations on Safety Improvements, Environment Mock Drills, and Environment Day Celebrations are conducted to foster a Safe and Healthy Work environment.

The Board of Directors receive regular updates on health, safety, and environmental matters, ensuring oversight and accountability at the highest level.

## **QUALITY INITIATIVES**

All 5 of your Company's plants i.e., Chakan 1, Chakan 2, Pantnagar, Jamshedpur and Sanand are certified under IATF 16949 standards and have also obtained ISO 45001 certification for OHSMS.

The Company continues to adopt best practices based on the Tata Business Excellence Model (TBEM) to drive operational excellence across all functions.

### **Quality Month and Employee Engagement**

Customers were also invited to address employees, share their insights on quality, and express the "Voice of the Customer."

### **Total Quality Management (TQM)**

Your Company has embarked on a Total Quality Management (TQM) journey with the goal of strengthening Daily Management, Policy Management, and Total Employee Involvement. Numerous improvement projects have been executed under this initiative, with active participation in external competitions such as those organized by CII and QCFI. Also launched quality circle register and form 48 quality circle team across the Company.

### **Technological Advancements and Quality Enhancements**

An online quality monitoring pilot project was launched for the 1250T press machine to enhance real-time oversight and performance tracking.

## Automotive Stampings and Assemblies Limited

In manufacturing advancements, a new Curvv Line was installed with Level 3 Poka-Yoke at all stations to ensure error-proofing. Additionally, a new Eterna Line, also equipped with Level 3 Poka-Yoke, was commissioned to further strengthen production quality and efficiency. During the year under review, the Company has also set up robotic welding line at Sanand for supplies to Tata Motors. A FSW machine is also installed at the Chakan 2 Plant of your Company.

#### 26. Overview of the entity's material responsible business conduct issues

S.No	Material issue identified	Indicate whether risk (R) or opportunity (O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity
1.	Employee Health & well-being	Risk & Opportunity	<p><b>Risk:</b> Employee health and well-being are vital to maintaining productivity and operational continuity. Poor health, stress, or lack of engagement can lead to absenteeism, reduced efficiency, and reputational damage. Inadequate safety systems, weak process controls, or non-compliance with health and safety standards increase the risk of workplace incidents, injuries, and legal exposure. A healthy, safe, and motivated workforce is essential for sustaining performance and stakeholder confidence.</p> <p><b>Opportunity:</b> Promoting employee health and well-being is a strategic opportunity to enhance productivity, innovation, and organizational resilience. A healthy workforce is more engaged, motivated, and creative leading to improved performance and job satisfaction. Prioritizing well-being also strengthens the Company's reputation, supports talent retention, and builds stakeholder trust, ultimately contributing to sustainable business growth.</p>	<ul style="list-style-type: none"> <li>Conduct periodic training on workplace safety, permit-to-work systems, and incident reporting protocols.</li> <li>Enforce well-defined SOPs aligned with health and safety management systems.</li> <li>Perform scheduled audits to ensure compliance with safety regulations and internal guidelines.</li> <li>Actively track and analyze near-miss incidents and workplace hazards to implement timely corrective actions.</li> <li>Provide Personal Protective Equipment (PPE) based on job-specific risks and work environments.</li> </ul>	<p><b>Negative:</b></p> <ul style="list-style-type: none"> <li>Inadequate safety systems, practices, and SOPs can lead to workplace accidents and injuries, posing serious risks to employee well-being and operational continuity.</li> <li>Non-compliance with health and safety regulations may result in legal penalties, financial liabilities, and reputational damage to the organization.</li> </ul> <p><b>Positive:</b></p> <ul style="list-style-type: none"> <li>Strict adherence to safety guidelines helps prevent workplace accidents, reduce medical expenses and compensation claims.</li> </ul>

S.No	Material issue identified	Indicate whether risk (R) or opportunity (O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity
				<ul style="list-style-type: none"> <li>Recognize safe practices to promote a safety-first culture.</li> <li>Organize healthcheck-ups, wellness programs, and access to occupational &amp; mental health support to enhance overall well-being.</li> </ul>	<ul style="list-style-type: none"> <li>Minimized disruptions from incidents lead to lower production downtime and improved operational efficiency.</li> <li>A safe work environment enhances employee satisfaction, morale, and retention.</li> </ul>
2	Talent Management	Opportunity	Effective talent management presents a significant opportunity to drive innovation, operational excellence, and long-term business growth. By attracting, developing, and retaining skilled and motivated employees, the Company can build a high-performing workforce aligned with its strategic goals. Investing in talent development enhances leadership capabilities, fosters a culture of continuous improvement, and strengthens organizational resilience. Moreover, a strong employer brand improves employee engagement and retention, while positioning the company as an employer of choice in a competitive market.	NA	<b>Positive:</b> <ul style="list-style-type: none"> <li>Skilled and motivated employees enhance efficiency, leading to higher productivity and better resource utilization.</li> <li>Strong retention strategies reduce employee turnover, lowering recruitment and training costs.</li> <li>Investing in talent development fosters innovation, contributing to new revenue-generating ideas and solutions.</li> <li>Engaged employees deliver better customer service, improving satisfaction and loyalty.</li> <li>A strong employer brand attracts high-quality candidates, reducing hiring time and costs.</li> <li>Healthier, more engaged employees take fewer sick days, lowering absenteeism and healthcare-related expenses.</li> </ul>
3.	Circular Economy	Opportunity	<ul style="list-style-type: none"> <li>ASAL's manufacturing processes involving sheet metal and assemblies generate substantial scrap. By adopting a circular economy approach, the company can recover and reuse scrap materials, significantly reducing the need for virgin raw inputs and minimizing environmental impact.</li> <li>Designing products with recyclability and reusability in mind allows ASAL to lower its overall waste output. Incorporating recycled materials and optimizing production for minimal waste not only conserves natural resources but also reduces operational costs.</li> <li>Furthermore, the implementation of a zero waste to landfill strategy helps the Company cut waste disposal costs, reinforcing its commitment to sustainable manufacturing and environmental stewardship.</li> </ul>	NA	<b>Positive:</b> <ul style="list-style-type: none"> <li>Reduces landfill waste through reuse and recycling of scrap materials.</li> <li>Lowers carbon emissions by minimizing raw material extraction and energy use.</li> <li>Cuts waste disposal costs via zero waste to landfill initiatives.</li> <li>Saves on raw material procurement through internal material recovery.</li> <li>Generates additional revenue from sale of recyclable or refurbished components.</li> <li>Enhances resource efficiency and reduces production waste.</li> </ul>

### SECTION C:

#### Principle-wise performance disclosure

**Principle 1: Business should conduct and govern themselves with integrity, and in a manner that is Ethical, Transparent and Accountable.**

Integrity, ethical conduct, and transparency are fundamental to the way ASAL operates and governs its business. The Company is committed to conducting business responsibly and in line with the highest standards of ethical behavior, ensuring that all decisions and actions are guided by its core values and support sustainable long-term value creation.

ASAL's governance framework is designed to embed ethical practices across the organization and to ensure accountability at every level. Robust oversight mechanisms, clear policies, and a strong culture of compliance guide responsible decision-making and reinforce fairness, honesty, and transparency in engagement with all stakeholders.

To support this governance framework, ASAL has implemented a comprehensive Code of Conduct applicable to the Board of Directors, employees, and value-chain partners. The Code explicitly prohibits bribery, corruption, and all forms of unethical conduct, while setting clear expectations for professional behavior and responsible stakeholder engagement. Regular training and awareness programmes strengthen the Board's and employees' understanding and adherence to these principles.

The Company aims to embed integrity and transparency in our business strategy as well as its day-to-day operations, and build enduring trust with its stakeholders, contributing positively to the sustainable and responsible growth of the automotive manufacturing ecosystem.

NA. No awareness programmes conducted for value chain partners		

2. Does the entity have processes in place to avoid/ manage conflict of interests involving members of the Board? (Yes/No) If yes, provide details of the same.

Yes. The Company has established clear and robust processes to identify, disclose, and manage conflicts of interest involving members of the Board. In line with the Code of Conduct, Directors are required to act at all times in the best interests of the Company and to disclose any actual or potential conflicts that could influence, or be perceived to influence, their objectivity or decision making. The Board of Directors acts as the overseeing authority for reviewing and addressing such disclosures.

These processes include mandatory conflict of interest declarations at the time of appointment, as well as periodic and event based disclosures whenever a potential conflict arises. The Code of Conduct also provides guidance for identifying conflicts arising from personal, financial, or professional relationships. Where conflicts are identified, appropriate measures are implemented to mitigate or resolve them in accordance with applicable laws, regulatory requirements, and internal policies, thereby ensuring transparency, accountability, and the highest standards of ethical governance at the Board level.

## Automotive Stampings and Assemblies Limited

### PRINCIPLE 2:

Businesses should provide goods and services in a manner that is sustainable and safe

ASAL is committed to providing products and solutions that meet the highest standards of quality, safety, and sustainability throughout their lifecycle. The Company’s approach integrates responsible manufacturing practices, product safety, and environmental stewardship to ensure that ASA’s products support sustainable mobility and long-term value creation.

The manufacturing processes are designed to minimize environmental impact through responsible sourcing of raw materials, efficient use of energy and natural resources, and systematic waste reduction across operations. Sustainability considerations are embedded into process design and execution, enabling us to reduce our footprint while maintaining consistent product performance and reliability.

The Company’s manufacturing facilities operate under comprehensive safety management systems and adhere to stringent protocols to ensure the well-being of employees and the safe handling of materials at every stage of production. This focus on operational safety reinforces product integrity and supports responsible manufacturing practices.

Continuous improvement remains central to ASAL’s operational strategy and is driven by product innovation, process optimization, and strict compliance with applicable environmental and occupational safety regulations. Through these efforts, the Company aims to contribute meaningfully to a cleaner, safer, and more sustainable mobility ecosystem.

### ESSENTIAL INDICATORS

1. **Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.**

Segment	FY 2025-26	FY 2024-25	Details of improvements in environmental and social impacts
R&D	Nil	Nil	1. These initiatives collectively promote environmental sustainability by reducing emissions, conserving energy, and encouraging the use of renewable resources. 2. Socially, they enhance workplace safety, improve operational efficiency, and support employee well-being.
Capex	2.56%	1.17%	

- 2.

- a. **Does the entity have procedures in place for sustainable sourcing? (Yes/No)**

Yes. The Company has established formal procedures for sustainable sourcing as part of its commitment to responsible and ethical business practices. These procedures require suppliers and other value chain

partners to comply with defined environmental, social, and ethical standards aligned with the Company's Code of Conduct. The sourcing framework emphasizes transparency, fair selection processes, and a preference for partners that demonstrate responsible resource use, compliance with labor laws, and sound environmental practices.

**b. If yes, what percentage of inputs were sourced sustainably?**

During the reporting period, 71.9% of the Company's input was sourced sustainably, reflecting its strong focus on integrating environmental and social considerations into procurement practices. The Company prioritizes suppliers that demonstrate ethical labor practices, environmental compliance, and resource efficient operations. It actively engages with value chain partners through assessments, capacity building initiatives, and long term collaborations and continues to work towards increasing the proportion of sustainably sourced inputs.

**3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste**

Not applicable. The Company supplies intermediate components to Original Equipment Manufacturers (OEMs) and does not directly distribute products to end consumers. Accordingly, responsibility for end-of-life product reclamation, reuse, recycling, or disposal rests with the OEMs.

While direct reclamation is outside the Company's operational scope, it remains committed to supporting circular economy principles through sustainable manufacturing practices, efficient resource use, and responsible waste management within its operations.

**4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.**

Not applicable. Extended Producer Responsibility (EPR) is not applicable to the Company's activities as per the prevailing EPR rules and regulations in India.

## PRINCIPLE 3:

**Businesses should respect and promote the well-being of all employees, including those in their value chains**

ASAL believes that the well-being of our people is fundamental to sustainable and responsible business growth. Guided by the Tata Group’s core values, the Company is committed to respecting, protecting, and promoting the health, safety, dignity, and rights of all employees across operations, as well as those engaged throughout the extended value chain. This commitment is embedded in policies, management practices, and workplace culture.

Strong emphasis is placed on providing a safe, inclusive, and respectful working environment. Manufacturing facilities adhere to stringent occupational health and safety standards, supported by regular training programmes, audits, and continuous improvement initiatives. Fair employment practices form an integral part of the Company’s people strategy, ensuring equal opportunities, non-discriminatory hiring, and equitable and competitive compensation for all employees.

Recognizing shared responsibility beyond direct operations, ASAL actively engages with suppliers and business partners to promote ethical labor practices, safe working conditions, and respect for human rights across the value chain. The Company encourages alignment with Tata Group values and responsible business conduct, reinforcing accountability at every level.

ASAL also invests in the holistic development of its workforce through structured learning initiatives, leadership development programmes, and employee wellness efforts. A supportive and inclusive workplace enhances individual well-being as well as strengthens business resilience and collective success. Through this people-centric approach, our Company reaffirms its commitment to building a responsible, inclusive, and sustainable organization.

**Are the premises / offices of the entity accessible to differently abled employees, as per the requirements of the Rights of Persons with Disabilities Act, 2016? If not, whether any steps are being taken by the entity in this regard.**

Yes. The Company's premises and offices are accessible to persons with disabilities and are designed in compliance with the requirements of the Rights of Persons with Disabilities Act, 2016. The Company has undertaken proactive measures to ensure a barrier free and inclusive workplace, including the provision of ramps, accessible restrooms, and designated parking facilities, enabling ease of movement and accessibility for differently abled employees.

### 4. Does the entity have an equal opportunity policy as per the Rights of Persons with Disabilities Act, 2016? If so, provide a web-link to the policy.

Yes. As a Tata Enterprise, the Company adheres to the Tata Code of Conduct, which reflects a strong commitment to equal opportunity and non-discrimination in line with the provisions of the Rights of Persons with Disabilities Act, 2016. The Company does not discriminate on the basis of disability and ensures fair, inclusive, and equitable employment practices across all levels of the organization. The Tata Code of Conduct outlines the Company's commitment to providing equal opportunities to all employees and applicants, including persons with disabilities, and to fostering a work environment that respects dignity, diversity, and inclusion. 3	Permanent Employees
4	Other than Permanent Employees

Yes. The Company has a well defined, inclusive, and robust grievance redressal mechanism in place for all categories of employees and workers, including those under permanent and contractual employment. This mechanism is governed by the Company's Whistleblower Policy and Vigil Mechanism, which is aligned with the Tata Code of Conduct and applicable legal and regulatory requirements.

The policy provides a secure, confidential, and accessible platform for reporting concerns related to unethical behavior, misconduct, or violations of Company policies. Both permanent and contractual employees are explicitly covered under the definition of "employee" under the policy, ensuring equal and non discriminatory access to the grievance redressal process.

The mechanism also includes safeguards against retaliation, thereby encouraging concerns to be raised in good faith. This framework reflects ASAL's commitment to maintaining a safe, ethical, transparent, and inclusive workplace for all employees, regardless of their employment status.

## 10. Health and Safety Management System

### a. Whether an occupational health and safety management system has been implemented by the entity? (Yes / No). If yes, the coverage such system?

Yes. The Company has implemented a robust and integrated Occupational Health and Safety Management System (OHSMS), reflecting its strong commitment to safeguarding the health, safety, and well-being of its workforce. The OHSMS is embedded into the Company's operational framework and goes beyond regulatory compliance, serving as a strategic pillar of its business philosophy.

ASAL's safety framework is aligned with the Tata Safety & Health Management System (TSHMS), developed under the guidance of the Tata Business Excellence Group (TBExG). The framework is built on four core pillars:

- Commonality and Convergence:** Establishing unified safety strategies, policies, and terminologies across Tata companies.
- Capability Building:** Delivering structured training and development programs to enhance safety competencies.
- Transparency and Sharing:** Promoting open reporting, sharing of lessons learned, and best practices across the group.
- Governance and Assurance:** Ensuring compliance with regulatory and group-level safety standards through audits and assessments

The Company applies a structured risk management approach through tools such as Hazard Identification and Risk Assessment (HIRA), Job Safety Analysis (JSA), Preliminary Hazard Analysis (PHA), Initial Safety Assessment (ISA), Hazard and Operability Studies (HAZOP), and a Permit to Work (PTW) system. These tools are applicable to both routine and non-routine activities and are supported by Standard Operating Procedures, employee participation, and periodic safety audits.

The Company's manufacturing units at Chakan-1, Chakan-2, Pantnagar, and Sanand are certified under ISO 45001:2018, underscoring adherence to global occupational health and safety best practices.

The Environment, Health and Safety (EHS) Policy provides overall guidance and affirms the Company's commitment to providing a safe and healthy work environment for all employees, including contractual workers.

### b. What are the processes used to identify work related hazards and assess risks on a routine and non-routine basis by the entity?

## Automotive Stampings and Assemblies Limited

Yes. The Company follows a structured and multi layered approach to identify and assess work related hazards across all operations for routine and non-routine tasks, aligned with its ISO 45001:2018 certified OHSMS.

### Key processes include:

- **Hazard Identification and Risk Assessment (HIRA):** Conducted regularly to identify potential hazards, evaluate their causes, consequences, and impacts. This includes both routine assessments and those triggered by changes in operations or processes.
- **Independent Safety Assessments (ISA) and Hazard and Operability Studies (HAZOP):** These are carried out to proactively identify and mitigate risks before they can impact worker safety.
- **Job Safety Analysis (JSA):** A task-specific risk evaluation tool used to assess hazards associated with particular jobs or activities, especially non-routine or high-risk tasks.
- **Process Hazard Analysis (PHA):** Applied to evaluate risks in complex or critical operations, ensuring that all process-related hazards are systematically reviewed.
- **Permit to Work (PTW):** A mandatory system for high-risk activities, ensuring that prior risk assessments are conducted, and appropriate controls are in place before work begins.

In addition, regular safety inspections, internal audits, and management reviews are conducted to monitor compliance and identify improvement opportunities. Employees are encouraged to report unsafe acts, conditions, incidents, and near misses, which are analyzed to identify trends and strengthen preventive controls. Risk assessments consider severity, likelihood, work environment, and task complexity, with mitigation measures reviewed periodically for effectiveness.

### c. **Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)**

Yes. The Company has established a robust and inclusive mechanism that enables all employees and workers, including permanent and contractual personnel, to report work-related hazards and remove themselves from unsafe situations without fear of retaliation. This mechanism is supported by clearly defined reporting channels, designated safety personnel, and a workplace culture that emphasizes transparency, accountability, and timely response.

Employees are encouraged to proactively report unsafe acts, conditions, incidents, and near-misses through multiple accessible platforms. All reported concerns are reviewed by trained personnel to ensure prompt investigation and implementation of corrective and preventive actions. Regular awareness programmes, Behaviour-Based Safety (BBS) initiatives, and periodic safety audits further strengthen hazard identification and risk mitigation.

In addition, the Company's PTW system mandates prior risk assessment and authorization for high-risk activities, while the Health and Safety function continuously monitors workplace conditions and addresses identified risks. This integrated approach supports regulatory compliance and fosters a collaborative safety culture, empowering every individual to contribute to a safe and healthy work environment.

### d. **Do the employees/workers of the entity have access to non-occupational medical and health care services? (Yes / No)**

Yes. The Company provides access to non occupational medical and healthcare services to all employees. On call medical professionals are available at Company facilities for routine health checkups and diagnosis of non occupational illnesses, along with support for treatment related requirements. This ensures comprehensive healthcare support beyond workplace related health needs.

## 12. Describe the measures taken by the entity to ensure a safe and healthy workplace

The Company has implemented a comprehensive and proactive framework to ensure a safe, healthy, and secure workplace for all employees and workers. This framework is fully aligned with applicable legal requirements and leading industry practices and is designed to foster a strong culture of safety through prevention, monitoring, and continuous improvement at all levels of the organization.

### Key measures adopted by the Company include:

- **Health & Safety Training:** Regular induction programmes, refresher training, and awareness sessions are conducted for employees and workers. Behavior Based Safety (BBS) initiatives further strengthen safety consciousness, risk awareness, and preparedness across the workforce.
- **Safety Systems and Controls:** The Company has implemented structured safety systems, including Safety Kaizens, prominent safety signage, and strict enforcement of Personal Protective Equipment (PPE) usage across all facilities to mitigate workplace hazards.
- **Risk Management:** Operational risks are identified and managed through established tools such as HIRA, JSA, and mandatory compliance with the PTW system for high risk activities.
- **Incident Management:** All incidents, near misses, and unsafe conditions are systematically investigated, and appropriate Corrective and Preventive Actions (CAPA) are implemented to prevent recurrence and strengthen controls.
- **Emergency Preparedness:** Periodic mock drills for fire, chemical spills, and other emergency scenarios are conducted to assess response readiness and enhance emergency management capabilities.
- **Monitoring and Evaluation:** Daily and weekly safety inspections, periodic internal and external safety audits, and structured safety review meetings are conducted to monitor compliance and continuously enhance workplace safety standards.
- **Leadership Oversight:** Safety performance is regularly reviewed by senior management. The leadership team sets annual EHS objectives and monitors progress against defined targets to drive accountability and continuous improvement.

Health and safety practices	100
Working Conditions	100

### 15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health & safety practices and working conditions.

No risks or concerns were identified in the health and safety and working conditions assessment undertaken during the year. Nevertheless, the Company has a well defined and robust incident investigation and management framework to address safety related incidents and emerging health and safety risks. Upon identification of an incident, a structured root cause analysis is undertaken, followed by the implementation of appropriate Corrective and Preventive Actions (CAPA) to eliminate underlying causes and prevent recurrence.

Remedial actions are guided by insights derived from systematic risk assessment tools such as HIRA, JSA, and HAZOP, ensuring a data driven and risk prioritized response to safety concerns.

Safety performance is regularly reviewed through management review meetings, where progress against annual EHS objectives is tracked and strategic improvement measures are identified. In addition, targeted training programmes are conducted to strengthen employee competence and awareness of health and safety practices. The Company ensures strict compliance with applicable legal and regulatory requirements and continually enhances its safety systems to foster a culture of accountability, vigilance, and continuous improvement.

### LEADERSHIP INDICATORS

#### 1. Does the entity extend any life insurance or any compensatory package in the event of death of (A) Employees (Y/N) (B) Workers (Y/N)?

Yes. The Company extends a compensatory package to both employees and workers. In the unfortunate event of the death of an employee or worker, the Company provides a compensatory benefit equivalent to two times the individual's Cost to Company (CTC). This measure reflects the Company's commitment to supporting the families of its workforce during difficult circumstances.

#### 2. Provide the measures undertaken by the entity to ensure that statutory dues have been deducted and deposited by the value chain partners.

The Company has established a robust compliance framework to ensure that its value chain partners meet all statutory obligations related to labor and employment laws. Key measures include:

- **Vendor Onboarding Requirements:** During onboarding, value chain partners are required to submit valid documentation demonstrating compliance with statutory requirements, including Provident Fund (PF), Employees' State Insurance (ESI), and other applicable labor-related contributions.
  - **Third-Party Audit and D&B Assessment:** The Company conducts third-party audits and undertakes due diligence assessments, including Dun & Bradstreet (D&B) evaluations, to assess the statutory compliance profile of partners.
  - **Ongoing Compliance Assessments:** Periodic compliance reviews are conducted to verify continued adherence to statutory obligations, including examination of remittance records for PF, ESI, and other statutory dues.
  - **Documentation Review:** Value chain partners are required to submit challans, payment receipts, and statutory returns, which are reviewed to confirm timely deduction and deposit of statutory contributions.
3. **Provide the number of employees / workers having suffered high consequence work related injury / ill-health / fatalities (as reported in Q11 of Essential Indicators above), who have been rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment:**

### PRINCIPLE 4:

**Businesses should respect the interests of and be responsive to all its stakeholders**

ASAL recognizes that long-term business success is built on actively understanding, respecting, and responding to the interests of all stakeholders, including employees, customers, suppliers, investors, regulators, and the communities in which it operates. The Company is committed to fostering transparent, inclusive, and constructive engagement with stakeholders, ensuring that their perspectives are considered in our decision-making processes and that mutual trust is strengthened over time.

Employees are supported through safe and healthy working conditions, fair and equitable employment practices, and opportunities for continuous learning and career development. Customer needs are addressed through a strong focus on product quality, innovation, reliability, and responsiveness. Across the supply chain, we promote ethical practices, regulatory compliance, and collaborative growth, while maintaining open and responsible communication with investors through sound governance structures and timely disclosures.

Beyond operational boundaries, ASAL remains committed to contributing positively to community development and environmental sustainability. By aligning stakeholder expectations with business objectives, The Company seeks to create shared value, enhance organizational resilience, and build a sustainable, inclusive foundation for long-term growth.

### ESSENTIAL INDICATORS

#### 1. Describe the processes for identifying key stakeholder groups of the entity.

The Company follows a structured and systematic approach to identify and engage with its key stakeholder groups, ensuring alignment with its business objectives and long term sustainability priorities. This approach is guided by a four step process comprising identification, prioritization, review, and continuous engagement.

- **Stakeholder Identification:** Stakeholders are initially identified based on their relevance to the Company's operations, as well as their potential influence on and impact from the Company's activities. This includes both internal and external stakeholders such as employees, customers, suppliers, investors, regulatory authorities, and local communities.
- **Prioritization:** Stakeholders are prioritized using a stakeholder matrix that considers factors such as the degree of influence, level of engagement, and significance of their expectations in relation to the Company's strategic objectives. This prioritization enables the Company to focus its efforts on stakeholders who are most critical to its operations and long term value creation.
- **Review Process:** The stakeholder mapping and prioritization process is subject to periodic review to reflect changes in regulatory requirements, business environment, and operational dynamics. This ensures that stakeholder engagement remains relevant, responsive, and aligned with evolving expectations.
- **Engagement:** The Company maintains ongoing engagement with its stakeholders through various channels, including meetings, surveys, site visits, emails, telephonic interactions, and focused discussions. The frequency and mode of engagement are tailored to the needs and expectations of each stakeholder group, enabling meaningful dialogue and timely response to concerns.

Through this structured approach, the Company aims to strengthen stakeholder relationships, enhance transparency, and ensure that stakeholder perspectives are effectively integrated into its decision making processes.

**2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group**

Stakeholder group	Whether identified as Vulnerable & Marginalized Group (Yes/ No)	Channels of communication (Email, SMS, Newspaper, Pamphlets, Advertisement, Community Meetings, Notice Board, Website), Other	Frequency of engagement (Annually/ Half yearly/ Quarterly / others – please specify)	Purpose and scope of engagement including key topics and concerns raised during such engagement

**LEADERSHIP INDICATORS**

**1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.**

The Company has established structured processes to facilitate consultation with stakeholders on key economic, environmental, and social matters. Stakeholder engagement is undertaken through a formal engagement framework, with consultations conducted on a need basis through multiple channels, including physical meetings, virtual interactions, surveys, emails, and telephonic discussions.

Stakeholder inputs gathered through these interactions are consolidated and reviewed by relevant functional teams and Senior Management. Key insights, material concerns, and emerging themes are periodically presented to the Board of Directors and its committees, ensuring that stakeholder perspectives are appropriately integrated into strategic decision making and oversight processes.

## Automotive Stampings and Assemblies Limited

**2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.**

Yes. Stakeholder consultation is a critical input in identifying and managing environmental and social issues within the Company. The Company undertakes a structured materiality assessment process to identify key ESG issues relevant to its operations. This process incorporates insights obtained from targeted consultations with both internal and external stakeholders through surveys, questionnaires, and focused discussions. The feedback received is analyzed in conjunction with applicable sustainability frameworks, regulatory requirements, and peer benchmarking to develop a comprehensive understanding of material topics. These issues are then prioritized and integrated into the Company's sustainability strategy, guiding the formulation of policies, business objectives, and performance targets.

The Company remains committed to ensuring that its ESG initiatives remain relevant, responsive, and aligned with stakeholder expectations, thereby enhancing transparency, accountability, and long term value creation.

**3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.**

The Company is committed to supporting inclusive and equitable development by actively engaging with vulnerable and marginalized stakeholder groups, particularly in communities surrounding its areas of operation. A dedicated Corporate Social Responsibility (CSR) function and committee oversee the identification, planning, and implementation of initiatives aimed at addressing the specific needs of these groups.

CSR programmes are designed to promote community upliftment and empowerment, with a focus on areas such as education, healthcare, skill development, and livelihood enhancement. These initiatives are developed based on direct engagement with community members to understand their concerns, priorities, and aspirations, ensuring that interventions are need based and impactful.

The Company maintains open and continuous engagement with these stakeholder groups, ensuring timely resolution of concerns and incorporating feedback into program design and execution. This approach builds trust, strengthens community relationships, and ensures that CSR initiatives deliver meaningful and sustainable outcomes.

## PRINCIPLE 5:

### Businesses should respect and promote human rights

ASAL is firmly committed to respecting and promoting human rights across all areas of its operations. The Company strives to ensure that every individual is treated with dignity, fairness, and equality, irrespective of race, gender, ethnicity, religion, or background. This commitment is embedded in comprehensive human rights-related policies that apply to employees, contract workers, suppliers, and other key stakeholders across the value chain.

To build a culture of respect and inclusion, the Company conducts regular training and awareness programmes aimed at strengthening understanding of human rights principles and responsible conduct. ASAL maintains a zero tolerance approach towards any form of human rights violations, including discrimination, harassment, child labor, and forced labor. Robust grievance redressal mechanisms are in place to enable concerns to be raised confidentially and addressed in a timely and effective manner.

Additionally, the Company supports employee well-being and development through initiatives focused on skill enhancement and behavioral development, enabling individuals to grow in an inclusive and respectful work environment. By extending these expectations to its value chain partners, ASAL seeks to uphold human rights standards throughout its business ecosystem, reinforcing its commitment to ethical, responsible, and sustainable business practices.

**4. Do you have a focal point (Individual / Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)**

Yes. Automotive Stampings and Assemblies Limited (ASAL/the Company) has designated focal points to address human rights impacts and concerns arising from its operations. The Human Resources function, along with the Ethics Counsellor, serves as the primary point of contact for handling human rights-related issues, including those linked to non compliance with the Company's Code of Conduct. Such concerns may be reported through the Company's Whistleblower Policy and Vigil Mechanism.

In addition, to safeguard the dignity and rights of employees, particularly women, the Company has constituted Internal Complaints Committees (ICCs) across all units and offices in accordance with the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act.

These mechanisms collectively ensure that human rights concerns are addressed in a timely, fair, and confidential manner, in line with applicable legal and ethical standards.

**5. Describe the internal mechanisms in place to redress grievances related to human rights issues.**

The Company has established robust internal mechanisms to effectively address grievances related to human rights. The Ethics Counsellor serves as the designated focal point for receiving and addressing such concerns, supported by the framework provided under the Tata Code of Conduct, which incorporates key human rights principles and expectations for ethical conduct across all levels of the organization.

Grievances may be reported through the Company's Whistleblower Policy and Vigil Mechanism, which enables employees, directors, and other stakeholders to raise concerns through protected disclosures. Depending on the nature of the issue, such disclosures may be directed to the Ethics Counsellor or the Chairman of the Audit Committee.

All complaints are handled with strict confidentiality and are subject to independent and impartial investigation. The mechanism includes safeguards to protect individuals from retaliation for raising concerns in good faith, and appropriate corrective or disciplinary actions are taken based on investigation outcomes. This structured approach reinforces the Company's commitment to upholding human rights and fostering a workplace environment grounded in dignity, fairness, and accountability.

### 8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases

The Company has established robust safeguards to protect individuals who report instances of discrimination, harassment, or any form of unethical conduct. As outlined in the Whistleblower Policy, the Company strictly prohibits discrimination, harassment, victimization, or unfair treatment against complainants or individuals participating in investigations.

To ensure adequate protection, the following measures are in place:

#### To ensure protection:

- **Confidentiality:** The identity of the complainant is protected and maintained on a confidential basis, to the extent possible, in line with legal requirements and the needs of the investigation.
- **Protection against Retaliation:** The Company follows a strict zero tolerance approach towards retaliation. Any form of threat, intimidation, adverse employment action (including demotion, suspension, or denial of promotion), or victimization arising from the reporting of a concern is strictly prohibited.
- **Support during Investigation:** Whistleblowers and individuals supporting investigations are provided appropriate protection and support throughout the grievance redressal process.
- **Access to Guidance:** Where necessary, the Company facilitates access to legal or procedural guidance for individuals involved in complaints or associated proceedings.
- **Escalation Mechanism:** Any breach of these protections can be escalated directly to the Chairman of the Audit Committee, who is empowered to review such matters and recommend appropriate corrective actions.

These mechanisms ensure that concerns can be raised in a safe, secure, and supportive environment, thereby reinforcing the Company's commitment to ethical conduct, accountability, and the protection of human rights. ## 11. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 10 above

No significant human rights risks have been identified through formal assessments. However, the Company has established robust preventive and corrective mechanisms to uphold a respectful, inclusive, and rights compliant workplace.

Key measures include:

- **Mandatory Reporting:** Employees are required and encouraged to report any instances of discrimination, harassment, or retaliation, irrespective of the role or level of the individual involved.
- **Investigations:** All complaints are addressed promptly through structured processes that ensure fair, independent, and confidential investigation.
- **Zero Tolerance for Misconduct:** The Company maintains a strict zero tolerance policy towards harassment and human rights violations. Any substantiated misconduct attracts appropriate disciplinary action, with individuals held accountable for non compliance.
- **Protection Against Retaliation:** The Company strictly prohibits retaliation against complainants, witnesses, or individuals participating in investigations, thereby ensuring a safe and secure environment for raising concerns in good faith.

These measures reflect the Company's proactive approach to safeguarding human rights and fostering a workplace culture grounded in dignity, fairness, accountability, and respect.

## LEADERSHIP INDICATORS

### 1. Details of a business process being modified / introduced as a result of addressing human rights grievances/complaints.

Not applicable. During the reporting period, the Company has not received any complaints or grievances pertaining to human rights issues. Accordingly, no modifications or introduction of new business processes were required in response to such concerns.

Nevertheless, the Company remains committed to proactively safeguarding human rights across its operations. It has established preventive frameworks, including defined policies, employee awareness and training programmes, supplier assessments, and grievance mechanisms, to identify, mitigate, and manage potential human rights risks.

### 2. Details of the scope and coverage of any Human rights due diligence conducted.

The Company has not undertaken a formal, standalone human rights specific due diligence exercise, as of the current reporting year. However, it recognizes the importance of human rights in responsible business conduct and is committed to progressively integrating human rights considerations into its broader risk management and governance frameworks.

Existing policies and operational practices incorporate key human rights principles, including fair labor practices, non discrimination, workplace safety, and respect for individual dignity across its operations and value chain. The Company continues to strengthen these mechanisms as part of its ongoing ESG journey.

### 3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Yes. The majority of the Company's premises are accessible to differently abled visitors, reflecting its commitment to inclusivity and alignment with the requirements of the Rights of Persons with Disabilities Act, 2016.

The Company is actively working to further enhance accessibility across all its facilities through a structured implementation plan. This initiative forms part of its broader commitment to creating an inclusive and equitable environment, where individuals of all abilities can access, participate, and engage with dignity and independence.

### 5. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 4 above.

During the financial year FY 2025–26, no significant human rights risks or concerns were identified through the Company's assessments. Accordingly, no corrective actions were required during the reporting period.

The Company remains committed to upholding and promoting human rights throughout all its operations. It continues to actively monitor its activities and stakeholder feedback to identify any emerging risks. In the event of any concerns, appropriate preventive and corrective measures will be initiated promptly to address and mitigate such issues.

## PRINCIPLE 6:

**Businesses should respect and make efforts to protect and restore the environment**

ASAL recognizes the environmental impact of its manufacturing activities and is committed to minimizing its ecological footprint through responsible and sustainable practices. The Company's approach to environmental stewardship is guided by the belief that industrial growth must be balanced with the protection and restoration of natural ecosystems.

Environmentally responsible practices are embedded across the Company's manufacturing operations, with a strong focus on resource efficiency, energy conservation, and waste minimization. Through the adoption of lean manufacturing practices, precision tooling, and process optimization, ASAL actively reduces material wastage and enhances resource utilization. Its facilities are equipped with energy-efficient machinery and emission control systems, ensuring compliance with applicable environmental regulations and contributing to the reduction of its carbon footprint.

Water stewardship and effective waste management are key priorities for the Company. ASAL has implemented initiatives such as rainwater harvesting, water recycling systems, and robust waste segregation and disposal mechanisms to promote circularity and reduce dependency on landfills. In addition, the Company undertakes green belt development and afforestation activities around its facilities, supporting biodiversity conservation and ecological balance.

ASAL remains committed to continuously strengthening its environmental performance through alignment with recognized sustainability frameworks and active engagement with stakeholders across the value chain. The Company views environmental responsibility not merely as a compliance obligation, but as a strategic imperative that drives innovation, resilience, and long-term sustainable value creation.

**5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.**

The Company has implemented a Zero Liquid Discharge (ZLD) system across all its manufacturing facilities, reinforcing its commitment to sustainable water management. All domestic sewage generated at these sites is treated through on site Sewage Treatment Plants (STPs), and the treated water is fully reused within the premises for non potable applications such as gardening, floor cleaning, and utility operations.

This closed loop approach ensures that no wastewater is discharged outside the facilities, thereby minimizing environmental impact and supporting the Company’s focus on resource efficiency, regulatory compliance, and environmental stewardship.

**8. Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details.**

Yes. The Company has implemented multiple initiatives to reduce greenhouse gas (GHG) emissions as part of its broader commitment to environmental sustainability and climate responsibility. Key initiatives include:

- **Solar Energy Deployment:** The Company has installed solar panels across facility rooftops to harness renewable energy. This transition to clean energy reduces dependence on grid electricity derived from fossil fuels, thereby lowering Scope 2 emissions.
- **Water Recycling and Reuse:** Systems have been established to recycle and reuse treated water within the premises. This reduces the energy intensity associated with freshwater extraction, treatment, and distribution, indirectly contributing to lower GHG emissions.
- **Waste Recycling and Resource Recovery:** Robust waste management practices are in place to maximize recycling and minimize landfill disposal. By diverting waste from landfills, the Company helps reduce methane emissions generated from the decomposition of organic waste.

These integrated efforts not only reduce the Company's carbon footprint but also promote resource efficiency and long-term environmental stewardship.

**10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.**

The Company has implemented robust waste management practices across all its manufacturing facilities, ensuring compliance with environmental standards prescribed by the Central Pollution Control Board (CPCB) and relevant State Pollution Control Boards (SPCBs). All plants operate within the stipulated regulatory limits for air emissions, effluent discharge, and hazardous waste management.

A key element of the Company's waste management approach is the responsible recycling and disposal of materials. Steel scrap, used oils, and other process residues are systematically recycled through authorized and certified agencies. Hazardous waste is managed with strict controls and is disposed of or recycled only through government approved vendors, ensuring full legal compliance and environmental safety.

To further reduce the use of hazardous and toxic substances in its products and processes, the Company adopts a proactive and prevention-focused approach, which includes:

- **Process Optimization:** Enhancing operational efficiency to maximize productivity while minimizing energy consumption and resource use.
- **Substitution of Hazardous Materials:** Replacing hazardous substances with safer and environmentally friendly alternatives wherever technically feasible.
- **Implementation of Environment-Friendly Initiatives:** Undertaking projects such as renewable energy generation and installation of energy efficient equipment to reduce environmental impact.

These initiatives collectively mitigate environmental risks, improve resource efficiency, and enhance workplace safety, reinforcing the Company's commitment to sustainable and responsible manufacturing practices.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details

2.	Zero liquid discharge	24667.74 KL of water 100% utilization, implemented Zero liquid discharge across all facilities of Company	4.96T of Co2 green house gas emission reduction

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

The Company has established a comprehensive Business Continuity and Disaster Management Plan to ensure operational resilience and safeguard its workforce, assets, and customer commitments. The plan addresses potential disruptions such as natural disasters, industrial incidents, supply chain interruptions, cyber threats, and utility failures. Facilities are equipped with fire protection systems, backup power, and secure IT infrastructure with regular data backups. Emergency Response Teams (ERTs), defined evacuation procedures, and real-time communication protocols ensure effective incident management. Business continuity is further supported through alternate suppliers, contingency production arrangements, and remote system access. Regular training, mock drills, and periodic reviews by a dedicated Committee ensure ongoing preparedness and alignment with evolving risks.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard?

There have been no significant adverse environmental impacts identified arising from the Company's value chain during the financial year 2025-26.

### PRINCIPLE 7:

**Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent**

ASAL engages with policymakers, industry associations, and regulatory authorities in a responsible, transparent, and ethical manner. The Company participates in policy consultations and industry forums primarily through recognized industry bodies, with the objective of contributing constructively to policy development. Its inputs are fact-based, balanced, and aimed at supporting sustainable, inclusive, and responsible industrial growth.

All such engagements are governed by strong internal governance frameworks and ethical standards. The Company does not engage in any form of advocacy or lobbying that conflicts with its values or the broader public interest. Its policy positions and representations are guided by principles of integrity, accountability, and transparency.

Through responsible advocacy and constructive dialogue, ASAL seeks to support the development of fair, progressive, and inclusive public policies that strengthen the automotive ecosystem while benefiting the communities and environments in which it operates.

### ESSENTIAL INDICATORS

1.
  - a. **Number of affiliations with trade and industry chambers / associations:**  
 The Company is affiliated with two trade and industry associations. These affiliations enable active participation in industry dialogue, policy advocacy, and the promotion of best practices within the automotive manufacturing sector.

### PRINCIPLE 8:

Businesses should promote inclusive growth and equitable development

ASAL is committed to promoting inclusive growth and contributing to equitable socio economic development. The Company recognizes its responsibility to generate meaningful employment, support community development, and create opportunities for skill enhancement, particularly in regions where it operates.

ASAL emphasizes local hiring, fair labor practices, and equal opportunity across all levels of the organization. Non discrimination and inclusive workplace practices are integral to its people strategy, ensuring equitable access to employment, growth, and development opportunities.

To support long-term community development, the Company invests in vocational training, upskilling, and capacity building initiatives, with a focus on youth and underrepresented groups. Its community development programmes are designed to improve access to education, healthcare, and basic infrastructure, thereby enhancing social well being in areas surrounding its manufacturing facilities.

## PRINCIPLE 9:

**Businesses should engage with and provide value to their consumers in a responsible manner**

As a key supplier within the automotive value chain, ASAL is committed to delivering high quality products and services in a responsible, ethical, and customer centric manner. The Company focuses on building long term partnerships with original equipment manufacturers (OEMs) and Tier 1 suppliers by ensuring consistent performance, reliability, safety, and compliance in every component it manufactures.

ASAL engages closely with its customers to understand evolving technical requirements, co develop solutions, and ensure timely delivery through efficient, transparent, and collaborative processes. Quality assurance is embedded across all stages of production and is supported by robust testing protocols, traceability systems, and continuous improvement initiatives to ensure product integrity and customer satisfaction.

Responsibility towards customers also extends to maintaining strict data confidentiality, ethical business conduct, and full compliance with applicable industry standards and regulatory requirements. The Company strives to create value not only through product excellence, but also through responsive service, innovation, and a strong commitment to sustainability.

### ESSENTIAL INDICATORS

#### 1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback

The Company has implemented a structured and responsive grievance redressal mechanism to ensure timely and effective resolution of consumer complaints. This system is aligned with our commitment to delivering high-quality products and services that meet global standards and regulatory requirements.

A dedicated Quality Assurance team is responsible for managing customer complaints. This team continuously monitors all incoming grievances, ensures prompt investigation, and facilitates timely resolution. To maintain transparency and accountability, a customer complaint log is maintained and reviewed periodically by the Senior Management Team.

For unresolved or escalated issues, a formal escalation mechanism is in place, allowing such matters to be directed to Senior Management for further review and action. This ensures that critical concerns receive appropriate attention at the highest level.

In addition to complaint handling, the Company actively encourages customers to share feedback on products and services. This feedback is treated as a valuable input for continuous improvement and customer satisfaction enhancement.

### 5. Does the entity have a framework / policy on cyber security and risks related to data privacy? (Yes/ No) If available, provide a web-link of the policy.

Yes. The Company has established a robust Information and Cyber Security framework to effectively manage cybersecurity and data privacy risks. It has implemented an Information Security Management System (ISMS) aligned with ISO/IEC 27001:2022 and is ISO 27001 certified, reflecting its commitment to safeguarding information assets and maintaining high standards of data protection.

### 6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services

During the reporting period, no incidents or regulatory actions were reported in relation to advertising practices, delivery of essential services, cybersecurity and data privacy, product recalls, or product/service safety. Accordingly, no corrective actions were required or undertaken.

The Company continues to strengthen its governance and compliance mechanisms to proactively manage these aspects, ensuring responsible business conduct, data security, product integrity, and sustained stakeholder confidence.

## LEADERSHIP INDICATORS

### 1. Channels / platforms where information on products and services of the entity can be accessed (provide web link, if available).

Information about the Company's automotive stampings and assemblies offerings is available through the following platforms:

- **Official Website:** Comprehensive details on product capabilities, technical specifications, and service offerings are available on the Company's website: <https://autostampings.com/products/>
- **Customer Support & Sales Teams:** Dedicated sales and technical teams provide personalized assistance, product clarification, and application support.
- **Corporate Brochures & Catalogues:** Product information is shared through structured brochures and catalogues distributed via customer service channels.
- **Industry Events & Trade Exhibitions:** The Company regularly participates in automotive and manufacturing exhibitions, enabling stakeholders to engage with its offerings.

### 2. Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.

As a manufacturer primarily serving OEMs and Tier-1 customers, the Company adopts structured measures to promote safe and responsible usage of its products by downstream customers and end-users:

#### Key initiatives include:

- **Technical Documentation:** Detailed product specifications, application guidelines, and handling and safety instructions are provided to support proper integration into vehicle systems.
- **Quality Assurance Communication:** Updates relating to product safety, performance, or handling are promptly communicated through formal customer channels.
- **Continuous Feedback Loop:** Customer feedback is actively encouraged to identify potential risks and areas of improvement, enabling continuous enhancement of product safety and usability.

### 3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

ASAL provides automotive sheet metal stampings, welded assemblies, sub-assemblies and structural components used in passenger vehicles, commercial vehicles and other automotive applications, and does not provide any essential services such as electricity, water, healthcare, banking etc.

Nevertheless, the Company has established structured communication and contingency mechanisms to effectively manage and communicate potential service disruptions:

- **Proactive Risk Communication:** Customers are informed in advance of foreseeable risks such as supply chain constraints or operational challenges through formal channels.
- **Business Continuity Measures:** Contingency plans, including alternate sourcing, backup production, and logistics arrangements, are implemented and communicated as required.
- **Dedicated Customer Interface:** Account managers and technical teams act as single points of contact, providing real-time updates and ensuring prompt issue resolution.
- **Collaborative Planning:** Regular engagement with customers supports demand forecasting, production alignment, and risk mitigation.
- **Escalation Framework:** A structured escalation matrix ensures timely intervention and visibility of critical issues at appropriate levels.

## **OTHER SHAREHOLDERS RELATED INFORMATION:**

Regulation 39(4) & Schedule VI of Listing Regulations w.r.t. Unclaimed Shares

As per the Scheme of Arrangement (demerger) of 2001 between the Company and JBM Auto Limited (formerly known as JBM Auto Components Limited), the Shareholders of the Company were required to surrender the original share certificates of the Company for exchange of new share certificates of both the Companies. The Company had pending share certificates of those shareholders who had not submitted their share certificates in terms of the scheme of arrangement for exchange and also of those shareholders in whose case new share certificates remained undelivered.

In compliance with the amendment to Clause 5A of Listing Agreement, the Company has opened a demat account in the name of Automotive Stampings and Assemblies Limited - Unclaimed Securities Suspense Account for the purpose of transferring the unclaimed shares. The shares which remained unclaimed even after three reminders, were dematerialized and transferred to the above said demat account in FY 2015-16.

As and when any shareholder approaches the Company or the Registrar and Transfer Agent (RTA) to claim the above said shares, after proper verification, the shares lying in the Unclaimed suspense account shall either be credited to the demat account of the shareholder or the physical certificates shall be delivered after re-materializing the same, depending on what has been opted by the shareholder.

## Automotive Stampings and Assemblies Limited

### Disclosure with respect to shares lying in suspense account:

Particulars	Shareholders	Shares
Aggregate number of shareholders and the outstanding shares in the suspense account lying as on April 1, 2025	123	16,638
Number of shareholders who approached the Company for transfer of shares from suspense account during the period.	-	-
Number of shareholders to whom the shares were transferred from the suspense account during the period.	-	-
Aggregate number of shareholders and the outstanding shares in the suspense account lying as on March 31, 2026	123	16,638

The voting rights on such shares shall remain frozen till the rightful owner claims the shares. Procedure for dematerialization of shares:

Shareholders seeking demat of their shares need to approach their Depository Participants (DP) with whom they maintain a demat account. The DP will generate an electronic request and will send the physical share certificate to Registrar and Share Transfer Agent (“the Registrar”) of the Company. Upon receipt of the request and share certificate, the Registrar will verify the same. Upon verification, the Registrar will request National Securities Depository Ltd. (NSDL)/Central Depository Services (India) Ltd. (CDSL) to confirm the demat request. The demat account of the respective shareholder will be credited with equivalent number of shares. In case of rejection of the request, the same shall be communicated to the shareholder.

### DIVIDEND INFORMATION

- The amount of the dividend remaining unpaid or unclaimed for a period of 7 (Seven) years from the date of transfer to unpaid dividend account of the Company shall be transferred to the Investor Education and Protection Fund (the “Fund”) set up by the Government of India.
- Accordingly, the dividend upto the financial year ended March 31, 2012 which remained unpaid or unclaimed over a period of 7 (Seven) years had been transferred by the Company to Investor Education and Protection Fund (IEPF) in the FY 2019-20. Now, Company has no dividend amount which remains unpaid or unclaimed.
- Further in accordance with Section 124(6) of the Act read with Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 as amended from time to time, amongst other matters, all shares in respect of which dividend has remained unclaimed or unpaid for seven consecutive years or more are required to be transferred to the Demat Account of the IEPF Authority. Accordingly, all the shares in respect of which dividends were declared upto the financial years ended March 31, 2012 and remained unpaid or unclaimed were transferred to the IEPF Demat Account. The Company has sent notices to all such members in this regard and thereafter transferred the shares to the IEPF during financial year 2019-20. The details of unpaid / unclaimed dividend and number of shares liable to be transferred are available on website: [www.autostampings.com](http://www.autostampings.com).
- Members are requested to note that no claim shall lie against the Company in respect of any amount of dividend remaining unclaimed / unpaid for a period of seven years from the dates they became first due for payment. However, Shareholders may claim from IEPF Authority both unclaimed dividend amount and the shares transferred to IEPF Demat Account as per the applicable provisions of Companies Act, 2013 and Rules made thereunder. The Member/Claimant is required to make an online application to the IEPF Authority in Form IEPF-5 (available on [www.iepf.gov.in](http://www.iepf.gov.in)) along with requisite fees as decided by the IEPF Authority from time to time. The Member/Claimant can file only one consolidated claim in a financial year as per the IEPF Rules.
- In order to help Members to ascertain the status of Unclaimed Dividends, the Company has uploaded the information in respect of Unclaimed Dividends on the website of Investor Education and Protection Fund: [www.iepf.gov.in](http://www.iepf.gov.in) and on the website of the Company: [www.autostampings.com](http://www.autostampings.com).

While the Registrar and Share Transfer Agents of the Company has already written to the shareholders informing them about the due dates of transfer to IEPF for these payments, attention of the shareholders is again drawn to this matter through Annual Report.

**INDEPENDENT AUDITOR’S REPORT**

TO THE MEMBERS OF AUTOMOTIVE STAMPINGS AND ASSEMBLIES LIMITED

Report on the Audit of the Financial Statements

**Opinion**

We have audited the financial statements of Automotive Stampings and Assemblies Limited (the “Company”) which comprise the balance sheet as at 31 March 2026, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (“Act”) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2026, and its profit and other comprehensive loss, changes in equity and its cash flows for the year ended on that date.

**Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

**Revenue Recognition**

See Note 2.2 to financial statements

The Key Audit Matter	How the matter was addressed in our audit
<p>The Company’s revenue is derived from the sale of sheet metal stampings, welded assemblies, and modes for the automotive industry. The Company recognises revenue when the control is transferred to the customer.</p> <p>We identified the recognition of revenue as a key audit matter because revenue is one of the key performance indicators of the Company. Therefore, it is subject to risk of misstatement to meet the targets and expectations.</p>	<p>Our audit procedures to assess the recognition of revenue included the following:</p> <ul style="list-style-type: none"> <li>• Obtained an understanding of the systems, processes and controls implemented by the Company for measurement and recognition of Revenue.</li> <li>• Evaluated the Company’s revenue recognition accounting policies by comparing with applicable accounting standards.</li> <li>• Evaluating the design, implementation, and operating effectiveness of key internal controls over the existence, accuracy, and timing of revenue recognition.</li> <li>• Performed substantive testing by selecting samples (using statistical sampling) of revenue transactions recorded during the year by testing the underlying documents which included sales invoice, shipping documents and proof of deliveries, to assess whether these are recognised in the appropriate period in which control is transferred.</li> <li>• Tested on a sample basis, revenue transactions</li> </ul>

## Automotive Stampings and Assemblies Limited

### Revenue Recognition

See Note 2.2 to financial statements

The Key Audit Matter	How the matter was addressed in our audit
	<p>recorded before and after the financial year end date to assess whether revenue is recognised in the financial period in which control is transferred.</p> <ul style="list-style-type: none"> <li>• Tested journal entries on revenue recognised during the year, by considering specified risk based criteria, to identify unusual or irregular items.</li> <li>• Assessed the adequacy of disclosure made in the financial statements with respect to revenue recognised during the year as required by applicable Ind AS.</li> </ul>

### Other information

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and auditor's report thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations.

### Management's and Board of Directors' Responsibilities for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/ loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except for the matter stated in the paragraph 2(B)(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
  - c. The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.
  - d. In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
  - e. On the basis of the written representations received from the directors as on 1 April 2026 to 8 April 2026 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2026 from being appointed as a director in terms of Section 164(2) of the Act.
  - f. the modifications relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 2A(b) above on reporting under Section 143(3)(b) of the Act and paragraph 2B(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
  - g. With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - a. The Company has disclosed the impact of pending litigations as at 31 March 2026 on its financial position in its financial statements - Refer Note 37 to the financial statements.
  - b. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
  - c. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
  - d. (i) The management has represented that, to the best of its knowledge and belief, as disclosed in the Note 48(e) to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide

any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (ii) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the Note 48(f) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Parties ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
  - (iii) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (i) and (ii) above, contain any material misstatement.
- e. The Company has neither declared nor paid any dividend during the year.
  - f. Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which have a feature of recording audit trail (edit log) facility except for direct changes done to the data when using certain privilege access and that audit trail was not enabled at the database level for accounting software to log any direct data changes for the period 1 April 2025 to 9 July 2025. For accounting software for which audit trail feature is enabled, the audit trail facility has been operating throughout the year for all relevant transactions recorded in the software and we did not come across any instance of audit trail feature being tampered with during the course of our audit. Additionally, where audit trail (edit log) facility was enabled and operated in the previous year, the audit trail has been preserved by the Company as per the statutory requirements for record retention.
- C. With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:
- In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

## Automotive Stampings and Assemblies Limited

### Annexure A to the Independent Auditor's Report on the Financial Statements of Automotive Stampings and Assemblies Limited for the year ended 31 March 2026

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.  
(B) The Company has maintained proper records showing full particulars of intangible assets.
- (i) (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all property, plant and equipment are verified every year. In accordance with this programme, all property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No discrepancies were noticed on such verification.
- (c) The Company does not have any immovable property (other than properties where the Company is the lessee and the leases agreements are duly executed in favour of the lessee). Accordingly, clause 3(i)(c) of the Order is not applicable.
- (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.
- (e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (ii) (a) The inventory, except goods-in-transit and stocks lying with third parties, has been physically verified by the management during the year. For stocks lying with third parties at the year-end, written confirmations have been obtained and for goods-in-transit subsequent evidence of receipts has been linked with inventory records. In our opinion, the frequency of such verification is reasonable and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records that were more than 10% in the aggregate of each class of inventory
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets. In our opinion, the quarterly returns or statements filed by the Company with such banks or financial institutions are in agreement with the books of account of the Company.
- (iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any investments, provided guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties during the year. Accordingly, provisions of clauses 3(iii)(a) to 3(iii)(f) of the Order are not applicable to the Company.
- (iv) According to the information and explanations given to us and on the basis of our examination of records of the Company, the Company has neither made any investments nor has it given loans or provided guarantee or security and therefore the relevant provisions of Sections 185 and 186 of the Companies Act, 2013 ("the Act") are not applicable to the Company. Accordingly, clause 3(iv) of the Order is not applicable.
- (v) The Company has not accepted any deposits or amounts which are deemed to be deposits from the public. Accordingly, clause 3(v) of the Order is not applicable.
- (vi) We have broadly reviewed the books of accounts maintained by the Company pursuant to the rules prescribed by the Central Government for maintenance of cost records under Section 148(1) of the Act in respect of its manufactured goods and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not carried out a detailed examination of the

records with a view to determine whether these are accurate or complete.

- (vii) (a) The Company does not have liability in respect of Service tax, Duty of excise, Sales tax and Value added tax during the year since effective 1 July 2017, these statutory dues has been subsumed into GST.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion, the undisputed statutory dues including Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or Cess or other statutory dues have generally been regularly deposited by the Company with the appropriate authorities, though there have been slight delays in a few cases of Profession tax.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, no undisputed amounts payable in respect of Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or Cess or other statutory dues except for the dues in relation to provident fund related matters referred to in note 37(b) to the financial statements were in arrears as at 31 March 2026 for a period of more than six months from the date they became payable.

- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, statutory dues relating to Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or Cess or other statutory dues which have not been deposited on account of any dispute are as follows:

- (d) According to the information and explanations given to us and on an overall examination of the balance sheet of the Company, as at 31 March 2026 we report that the funds raised on short term basis of INR 2,334.97 lakhs have been used for long term investment.
- (e) The Company does not hold any investment in any subsidiaries, associates or joint ventures (as defined under the Act) during the year ended 31 March 2026. Accordingly, clause 3(ix)(e) is not applicable.
- (f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies (as defined under the Act).
- (x) (a) The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments). Accordingly, clause 3(x)(a) of the Order is not applicable.
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, clause 3(x)(b) of the Order is not applicable.
- (xi) (a) During the course of our examination of the books and records of the Company and according to the information and explanations given to us, no fraud by the Company or on the Company has been noticed or reported during the year.
- (b) According to the information and explanations given to us, no report under sub-section (12) of Section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- (c) We have taken into consideration the whistle blower complaints received by the Company during the year while determining the nature, timing and extent of our audit procedures.
- (xii) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii) of the Order is not applicable.
- (xiii) In our opinion and according to the information and explanations given to us, the transactions with related parties are in compliance with Section 177 and 188 of the Act, where applicable, and the details of the related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- (xiv) (a) Based on information and explanations provided to us and our audit procedures, in our opinion, the Company has an internal audit system commensurate with the size and nature of its business.

- (b) We have considered the internal audit reports of the Company issued till date for the period under audit.
- (xv) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence, provisions of Section 192 of the Act are not applicable to the Company.

## **Automotive Stampings and Assemblies Limited**

### **Annexure B to the Independent Auditor's Report on the financial statements of Automotive Stampings and Assemblies Limited for the year ended 31 March 2026**

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

#### **Opinion**

We have audited the internal financial controls with reference to financial statements of Automotive Stampings and Assemblies Limited ("the Company") as of 31 March 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2026, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

#### **Management's and Board of Directors' Responsibilities for Internal Financial Controls**

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

## **Meaning of Internal Financial Controls with Reference to Financial Statements**

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

## **Inherent Limitations of Internal Financial Controls with Reference to Financial Statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## **Notes forming part of financial statements for the year ended March 31, 2026**

(All figures in INR Lakhs, unless otherwise stated)

### **Note 1 : Company overview**

Automotive Stampings and Assemblies Limited ('the Company') is engaged in the business of manufacturing sheet metal stampings, welded assemblies and modules for the automotive industry. The Company primarily operates in India. The equity shares of the Company are listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE). The Company's Registered office is at - TACO House, Plot No- 20/B FPN085, V. G. Damle Path, Off Law College Road, Erandwane, Pune: 411004, Maharashtra, India.

### **Note 2 : Material accounting policies**

This note provides a list of the material accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### **2.1 Basis of preparation of financial statements**

##### **(i) Statement of Compliance**

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act

The financial statements are approved for issue by the Company's Board of Directors on April 25, 2026.

Details of the Company's accounting policies, including changes thereto, are included in Note 2 and Note 4.

##### **(ii) Basis of measurement**

The financial statements have been prepared on a historical cost basis, except for the following items:

- certain financial assets and liabilities (including derivative financial instruments) that are measured at fair value;
- net defined benefit (asset)/ liability – fair value of plan assets less present value of defined benefit obligations

##### **(iii) Functional and presentation currency**

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded off to the nearest Lakh except share data, unless otherwise indicated.

##### **(iv) Current versus non-current classification**

Based on the time involved between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has identified twelve months as its operating cycle for determining current and non-current classification of assets and liabilities in the balance sheet.

##### **(v) Operating cycle**

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Company's normal operating cycle is less than twelve months.

##### **(v) Measurement of fair values**

A number of the Company's accounting policies and disclosures require the measurement of fair values for both financial and non financial assets and liabilities. In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market

## Notes forming part of financial statements for the year ended March 31, 2026

(All figures in INR Lakhs, unless otherwise stated)

conditions and risks existing at each reporting date and has an established control framework with respect to measurement of fair values. The Chief Financial Officer and persons entrusted have overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values and assessments that these valuations meet the requirements of Ind AS. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realised.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified. When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. Further information about the assumptions made in measuring fair values is included in note 43- Financial risk management.

### 2.2 Revenue recognition

The Company recognizes revenue when 'control' of the promised goods underlying the particular performance obligation is transferred to the customer in an amount that reflects the consideration it expects to receive in exchange for those goods. Control of products passes to the customers, at a point in time which is usually upon delivery of goods to the customer / carrier appointed by the customer. Invoices are usually payable within 30 – 90 days. Revenue excludes taxes collected from customers on behalf of the government.

#### (i) Sale of goods including scrap sales:

For contracts that permit the customer to return an item, under Ind AS 115 revenue is recognised to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognised will not occur. Therefore, the amount of revenue recognised is adjusted for expected returns, which are estimated based on the historical data. Returned goods are exchanged only for new goods – i.e. no cash refunds are offered. In such circumstances, a refund liability and a right to recover returned goods asset are recognised. The amount disclosed as revenue is net of Goods and Services Tax collected on behalf of third parties.

#### (ii) Sale of tools:

Tooling contracts are the fixed price contracts to build a specific tool (asset). Under these contracts a performance obligation is satisfied when control of such assets underlying the particular performance obligation is transferred to the customer. Hence, revenue from tooling contracts is recognized when

## **Notes forming part of financial statements for the year ended March 31, 2026**

(All figures in INR Lakhs, unless otherwise stated)

such tools are transferred to the customers since the customer receives and consumes the benefits at the end of the contract.

Generally, the Company receives short-term tooling advances from its customers which are utilised for providing advance to supplier of the tool. Using the practical expedient in Ind AS 115, the Company does not adjust the promised amount of consideration for the effects of any significant financing component.

### **(iii) Sale of services:**

In contracts involving the rendering of services related to refurbishment, revenue is measured using the proportionate completion method and are recognized net of goods and service tax as applicable.

### **(iv) Other Income:**

Interest Income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable and dividend income from investments in shares is recognised when the owner's right to receive the payment is established.

### **(v) Contract liabilities:**

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs as per the contract obligation.

## **2.3 Foreign currency transactions and translation**

Transactions in foreign currencies are translated into the respective functional currencies of the Company at the exchange rates at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency exchange differences are generally recognised in profit or loss on net basis within other income / other expenses.

## **2.4 Property, plant and equipment**

The cost of an item of property, plant and equipment shall be recognised as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Items of property, plant and equipment (including capital-work-in progress) are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and any accumulated impairment losses. Freehold land is carried at historical cost less any accumulated impairment losses. Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located. The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components)

## Notes forming part of financial statements for the year ended March 31, 2026

(All figures in INR Lakhs, unless otherwise stated)

of property, plant and equipment. Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for provision are met.

### Depreciation methods, estimated useful lives and residual value:

Depreciation is calculated on the cost of items of property, plant and equipment less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognised in the statement of profit and loss. Freehold land is not depreciated

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets. Estimates in respect of certain items of plant and equipment were revised in the year ended 31 March 2025. Depreciation on additions/(disposals) is provided on a pro-rata basis i.e. from/ (upto) the date on which asset is ready for use/ (disposed off).

Class of Asset	Useful life as prescribed in Schedule II of Companies Act, 2013 (in years)	Useful life as followed by the Company (in years)
Factory Building	30	30
Office building	60	60
<b>Plant and machinery</b>		
- Press Machines	15 (on a single shift basis)	20
- Other plant and equipment	15 (on a single shift basis)	10 to 18
Tools, jigs and fixture	15 (on a single shift basis)	15
Furniture and fittings	10	10
Office equipment	5	5
Vehicles	8	4

- Improvements to leased premises are depreciated over the balance tenure of leasehold land.

- Leasehold land is amortized on a straight line basis over the period of the lease.

The assets' residual values, useful lives and method of depreciation are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized as income or expense in the statement of profit and loss.

## **Notes forming part of financial statements for the year ended March 31, 2026**

(All figures in INR Lakhs, unless otherwise stated)

### **2.5 Other Intangible asset**

Intangible assets that are acquired by the Company are measured on initial recognition at cost. An intangible asset is recognised only if it is probable that future economic benefits attributable to the asset will flow to the Company and the cost of the asset can be measured reliably. After initial recognition, an intangible asset is carried at its cost less any accumulated amortization and any accumulated impairment loss. Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates and the cost of the asset can be measured reliably. Intangible assets are amortized on a straight line basis over their estimated useful lives ranging from 3-5 years. The amortization period and amortization method are reviewed as at each Balance Sheet date. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly and the effects are given prospectively. Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognized as income or expense in the Statement of Profit and Loss.

### **2.6 Non-current assets classified as held for sale**

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less cost to sell. An impairment loss is recognised for any initial or subsequent write down of the asset to fair value less cost to sell. A gain is recognised for any subsequent increase in fair value less cost to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of sale of the non-current asset is recognised at the date of de-recognition. Non-current assets are not depreciated or amortized while they are classified as held for sale. Non-current assets classified as held for sale are presented separately from the other assets in the balance sheet.

### **2.7 Borrowings**

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses). Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

## Notes forming part of financial statements for the year ended March 31, 2026

(All figures in INR Lakhs, unless otherwise stated)

### 2.8 Borrowing cost

Borrowing cost are interest and other cost (including exchange differences relating to foreign currency borrowings), to the extent that, they are regarded as an adjustment to the interest cost

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowing pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. Other borrowing costs are expensed in the period in which they are incurred.

### 2.9 Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- the contract involves the use of an identified asset – this may be specified explicitly or implicitly and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the Company has the right to direct the use of the asset. The Company has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Company has the right to direct the use of the asset if either:
- the Company has the right to operate the asset; or
- the Company designed the asset in a way that predetermines how and for what purpose it will be used. This policy is applied to contracts entered into, or changed, on or after April 01, 2019.

#### Company as a lessee

At inception or on reassessment of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative standalone prices. However, for the leases of land and buildings in which it is a lessee, the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

Ind AS 116 requires lessee to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on expected lease term on lease by lease basis and thereby assesses whether it is reasonably certain that any option to extend or terminate the contract will be exercised. The Company has considered all relevant facts and circumstances to determine whether the option to extend the lease shall be exercised. This includes but is not limited to the fact that certain assets have been leased to us by related parties for operations directly linked to them. The Company recognises a Right-Of-Use (ROU) asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the

## **Notes forming part of financial statements for the year ended March 31, 2026**

(All figures in INR Lakhs, unless otherwise stated)

lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate. The Company determines its incremental borrowing rates by obtaining interest rates from various external financing sources and makes certain adjustment to reflect the terms of lease and type of the assets leased.

### **Lease payments included in the measurement of the lease liability comprise the following:**

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revision in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Lease liability and ROU asset have been separately presented in the balance sheet and lease payments have been classified as financing cash flows.

The Company has applied a single discounting rate to a portfolio of leases of similar assets.

### **Sale and leaseback of Assets**

Ind As 116 requires, The Company shall apply Ind AS 116 which says the requirements for determining when a performance obligation is satisfied in Ind AS 115 to determine whether the transfer of an asset is accounted for as a sale of that asset.

- (a) the seller-lessee shall measure the right-of-use asset arising from the leaseback at the proportion of the previous carrying amount of the asset that relates to the right of use retained by the seller-lessee. Accordingly, the seller-lessee shall recognise only the amount of any gain or loss that relates to the rights transferred to the buyer-lessor.

## Notes forming part of financial statements for the year ended March 31, 2026

(All figures in INR Lakhs, unless otherwise stated)

- (b) the buyer-lessor shall account for the purchase of the asset applying applicable Standards, and for the lease applying the lessor accounting requirements in this Standard.

If the fair value of the consideration for the sale of an asset does not equal the fair value of the asset, or if the payments for the lease are not at market rates, an entity shall make the following adjustments to measure the sale proceeds at fair value:

- (a) any below-market terms shall be accounted for as a prepayment of lease payments; and
- (b) any above-market terms shall be accounted for as additional financing provided by the buyer-lessor to the seller-lessee.

### Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of twelve months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

### 2.10 Inventories

Raw materials and stores, work-in-progress, finished goods are stated at the lower of cost and net realizable value. Cost of raw materials comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the price of weighted average basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. The net realisable value of work-in-progress is determined with reference to the selling prices of related finished goods. Raw materials, components and other supplies held for use in the production of finished products are not written down below cost except in cases when a decline in the price of materials indicates that the cost of the finished products shall exceed the net realisable value. The comparison of cost and net realisable value is made on an item-by-item basis.

### 2.11 Employee benefits

#### (i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are measured on an undiscounted basis, expensed as the related service is provided and presented as current portion of Other financial liabilities in the balance sheet. Liabilities are recognized for present legal or constructive obligation arising as a result of past service provided by the employee where the obligation can be estimated reliably.

#### (ii) Other long-term employee benefit obligations

The liabilities for accumulated absences are not expected to be settled wholly within twelve months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit

## **Notes forming part of financial statements for the year ended March 31, 2026**

(All figures in INR Lakhs, unless otherwise stated)

credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

### **(iii) Post-employment obligations**

The Company operates the following post-employment schemes:

(A) defined benefit plans such as gratuity; and

(B) defined contribution plans

#### **(A) Defined benefit plans**

(i) Gratuity obligations

#### **(A) Defined benefit plans**

**(i) Gratuity obligations**

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate determined by reference to market yields at the end of the reporting period on government bonds. This rate is applied on the net defined benefit liability (asset), both as determined at the start of the annual reporting period, taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain' or the gain or loss on curtailment) is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs

## Notes forming part of financial statements for the year ended March 31, 2026

(All figures in INR Lakhs, unless otherwise stated)

### (ii) Other long-term employee benefits - compensated absences

Accumulated absences expected to be carried forward beyond twelve months is treated as long-term employee benefit for measurement purposes. The Company's net obligation in respect of other long-term employee benefit of accumulating compensated absences is the amount of future benefit that employees have accumulated at the end of the year. That benefit is discounted to determine its present value. The obligation is measured annually by a qualified actuary using the projected unit credit method. Remeasurements are recognised in profit or loss in the period in which they arise.

### (B) Defined contribution plans

A defined contribution plan is a post-employment benefit plan where the Company's legal or constructive obligation is limited to the amount that it contributes. The Company makes specified monthly contributions towards Government administered provident fund scheme, Labour Welfare fund, Employees' State Insurance and Superannuation Fund. Obligations for contributions to defined contribution plan are expensed as an employee benefits expense in the statement of profit and loss in period in which the related service is provided by the employee.

### (iv) Termination benefits

Termination benefits in the nature of voluntary retirement benefits are recognized as an expense when as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If benefits are not expected to be settled wholly within twelve months of reporting date then they are discounted.

The Company recognises compensation expense relating to share based payments in accordance with Ind AS 102 Share-based Payment. Stock options granted by the Company to its employees are accounted as equity settled options.

#### Equity settled share-based plan:

Employee stock options granted are measured at fair value of stock options at the grant date using the Black and Scholes options pricing model. The shares have been provided by the Holding Company to the KMP of the subsidiary and the same is recognised as employee compensation expense, using such grant date fair value, on a straight line basis over the vesting period, with a corresponding obligation recognised as a financial liability and measured at the fair value of the consideration payable to the holding company.

The Company records share based compensation expense for options that are expected to vest. As a result, judgment is required in estimating the amount of share based options that are expected to be forfeited. At the end of each reporting period, any revision to original estimates, if any, is recognized in the Statement of Profit and Loss, with a corresponding adjustment to liability.

## 2.12 Financial instruments

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments and are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or liabilities on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

## **Notes forming part of financial statements for the year ended March 31, 2026**

(All figures in INR Lakhs, unless otherwise stated)

### **(i) Classification**

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss) (FVTOCI / FVTPL), and
- those measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held- for- trading, or it is a derivative or it is designated as such on initial recognition.

### **A) Measurement**

#### **(i) Recognition and initial measurement**

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus or minus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

#### **(ii) Classification and subsequent measurement**

Financial assets: - On initial recognition, a financial asset is classified as measured at:

- amortised cost;
- FVOCI – debt investment;
- FVOCI – equity investment; or
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model. A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely

## Notes forming part of financial statements for the year ended March 31, 2026

(All figures in INR Lakhs, unless otherwise stated)

payments of principal and interest on the principal amount outstanding. A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise

Financial assets – Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin. In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable-rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

### (iii) Financial assets – Subsequent measurement and gains and losses

Financial assets at FVTPL:- These assets are subsequently measured at fair value. Net gains and

## **Notes forming part of financial statements for the year ended March 31, 2026**

(All figures in INR Lakhs, unless otherwise stated)

losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets at amortised cost:- These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Financial asset at fair value through Other Comprehensive Income(OCI) - Financial asset are measured at fair value through OCI, if these financial assets are held within a business whose objective is achieved by both collecting contractual cashflows on specified date that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

### **(iv) Impairment of financial assets**

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost and debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 44 (C) details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

An impairment loss for financial assets is reversed if the reversal can be related objectively to an event occurring after the impairment loss has been recognized.

### **(v) Derecognition**

A financial asset is derecognised only when

#### Financial assets

The Company derecognises a financial asset when:

- the contractual rights to the cash flows from the financial asset expire; or
- it transfers the rights to receive the contractual cash flows in a transaction in which either:
  - substantially all of the risks and rewards of ownership of the financial asset are transferred; or
  - the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset. The Company enters into transactions whereby it transfers assets recognised on its balance sheet but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

#### Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or

## Notes forming part of financial statements for the year ended March 31, 2026

(All figures in INR Lakhs, unless otherwise stated)

cancelled or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value. On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

### (vi) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

### 2.13 Impairment of non-financial assets

The Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash inflows are grouped together into cash generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs. The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset). An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognized in the Statement of Profit and Loss. Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at each reporting date. In respect of non-financial assets, an impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. The carrying value of an asset other than goodwill is increased to its revised recoverable amount, provided that this amount does not exceed the carrying value that would have been determined (net of any accumulated depreciation or amortization) had no impairment loss been recognized for the said asset in previous years. The reversal of impairment loss is recognized in the Statement of profit and loss.

### 2.14 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

### 2.15 Earnings/(loss) per share

- (i) Basic earnings/ (loss) per share calculated by dividing the profit attributable to owners of the Company by the weighted average number of equity shares outstanding during the financial year.
- (ii) Diluted earnings / (loss) per share adjusts the figures used in the determination of basic earnings per share to take into account:
  - the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
  - the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

### 2.16 Income tax

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent

## **Notes forming part of financial statements for the year ended March 31, 2026**

(All figures in INR Lakhs, unless otherwise stated)

that it relates to a business combination, or items recognised directly in equity or in Other comprehensive income. The Company has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets.

### **(i) Current Tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

### **(ii) Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for the Company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. For this purpose, the carrying amount of investment property is presumed to be recovered through sale. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

## Notes forming part of financial statements for the year ended March 31, 2026

(All figures in INR Lakhs, unless otherwise stated)

### 2.17 Provisions (other than for employee benefits)

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions for restructuring are recognized by the Company when it has developed a detailed formal plan for restructuring and has raised a valid expectation in those affected that the Company will carry out the restructuring by starting to implement the plan or announcing its main features to those affected by it. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense. The measurement of provision for restructuring includes only direct expenditures arising from the restructuring, which are both necessarily entailed by the restructuring and not associated with the ongoing activities of the Company.

### 2.18 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. Ind AS 108 Operating Segments requires Management to determine the reportable segments for the purpose of disclosure in financial statements based on the internal reporting reviewed by Chief Operating Decision Maker (CODM) to assess performance and allocate resources. Operating segments are defined as 'Business Units' of the Company about which separate financial information is available that is evaluated regularly by the chief operating decision-maker, or decision-making group, in deciding how to allocate resources and in assessing performance. The Company operates in the automotive segment. The automotive segment includes all activities relating to development, design, manufacture, assembly and sale of auto component parts from which the Company derives its revenues. The management considers that these business units have similar economic characteristics like the nature of the products and services, the nature of the production processes and nature of the regulatory environment etc.

Based on the management analysis, the Company has only one operating segment, so no separate segment report is given. The principal geographical areas in which the Company operates is India.

### 2.19 Government grants

The Company recognises an unconditional government grant related to other government grants related to assets, including non-monetary grants, are initially recognised as deferred income at fair value if there is reasonable assurance that they will be received, and the Company will comply with the conditions associated with the grant. Grants related to the acquisition of assets are recognised in profit or loss as other income on a systematic basis over the useful life of the asset. Grants that compensate the Company for expenses incurred are recognised in profit or loss as other income on a systematic basis in the periods in which the expenses are recognised, unless the conditions for receiving the grant are met after the related expenses have been recognised. In this case, the grant is recognised when it becomes receivable.

## **Notes forming part of financial statements for the year ended March 31, 2026**

(All figures in INR Lakhs, unless otherwise stated)

### **2.20 Derivatives**

The Company holds derivative financial instruments to hedge its foreign currency and interest rate risk exposures. Embedded derivatives are separated from the host contract and accounted for separately if the host contract is not a financial asset and certain criteria are met. Derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognised in profit or loss. The Company designates certain derivatives as hedging instruments to hedge the variability in cash flows associated with highly probable forecast transactions arising from changes in foreign exchange rates and interest rates. At inception of designated hedging relationships, the Company documents the risk management objective and strategy for undertaking the hedge. The Company also documents the economic relationship between the hedged item and the hedging instrument, including whether the changes in cash flows of the hedged item and hedging instrument are expected to offset each other.

### **2.21 Cash flow statement**

Cash flows are reported using the indirect method, where by profit for the period is adjusted for the effect of transaction of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payment and item of income and expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

### **2.22 Contingent liability and asset**

Contingent liability is a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability. The Company does not recognize a contingent liability but discloses its existence in the consolidated financial statements.

Contingent asset is not recognised in consolidated financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognized. Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

### **Note 3 : Use of judgements and estimates**

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of income, expenses, assets, liabilities and the accompanying disclosures. Actual results may differ from these estimates.

These judgments, estimates and assumptions are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

This note provides an overview of the areas that involve a higher degree of judgments or complexities and of items which are more likely to be materially adjusted due to estimates and assumptions to be different than those originally assessed. Detailed information about each of these judgments, estimates and assumptions is mentioned below. These Judgments, estimates and assumptions are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

## Notes forming part of financial statements for the year ended March 31, 2026

(All figures in INR Lakhs, unless otherwise stated)

### Significant judgments

#### **3.1 Contingent liabilities**

The Company has received various orders and notices from tax and other judicial authorities in respect of direct taxes, indirect taxes and labour matters. The outcome of these matters may have a material effect on the financial position, results of operations or cash flows. The filing of a suit or formal assertion of a claim against the Company or the disclosure of any such suit or assertions, does not automatically indicate that a provision of a loss may be appropriate. Management regularly analyzes current information about these matters and makes provisions for probable losses including the estimate of legal expense to resolve the matters. In their assessments management considers the degree of probability of an unfavourable outcome and the ability to make a sufficiently reliable estimate of the amount of loss.

### Estimates

#### **3.2 Determination of cash generating unit (CGU) for Impairment analysis**

As part of its impairment assessment for non-financial assets (i.e. property, plant and equipment), the management needs to identify Cash Generating Units i.e. lowest group of assets that generate cash flows which are independent of those from other assets. Considering the nature of its assets, operations and administrative structure, the management has defined all assets put together as a single Cash Generating Unit.

#### **3.3 Impairment of Property, plant and equipment :**

The management has assessed current and forecasted financial performance of the Company and the current market value of the assets to determine whether carrying value of property, plant and equipment has suffered any impairment. Impairment assessment is based on estimates of future financial performance or opinions that may represent reasonable expectations at a particular point of time. Such information, estimates or opinions are not offered as predictions or as assurances that a particular level of income or profit will be achieved, that events will occur, or that a particular price will be offered or accepted. Actual results achieved may vary and the variations may be material.

#### **3.4 Claims payables and receivable to customers**

Price increase or decrease due to change in major raw material cost, pending acknowledgement from major customers, is accrued on estimated basis. Also the Company has made accruals in respect of unsettled prices for some of its other material purchase contracts, finished goods and scrap sales contracts. These accruals are made considering the past settlement arrangements with the vendors and customers respectively and the applicable metal prices from published sources. Actual results of these considerations may vary and the variations may be material.

Further, the management has assessed and believes that the timing of cash outflow pertaining to this accruals are uncertain and hence considered the same as payable on demand and classified under current liabilities/assets

#### **3.5 Defined benefit plan**

The cost of the defined benefit gratuity plan, other retirement benefits, the present value of the gratuity obligation and other retirement benefit obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change is the discount rate. In determining the appropriate discount rate, the

## **Notes forming part of financial statements for the year ended March 31, 2026**

(All figures in INR Lakhs, unless otherwise stated)

management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on Indian Assured Lives Mortality (2006-08) Ultimate. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. Further details about gratuity obligations are given in Note 33 (A).

### **3.6 Fair valuation of financial instruments**

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

### **3.7 Impairment of financial assets**

The impairment provisions for financial assets disclosed under Note 44 are based on assumptions about risk of default and expected loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

### **Note 4 : Recent Pronouncements**

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

In May 2025, MCA notified amendments to Ind AS 21 - The Effects of Changes in Foreign Exchange Rates, applicable w.e.f. April 1, 2025. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

In August 2025, MCA notified the following amendments to:

1. Ind AS 1, Presentation of Financial Statements, applicable w.e.f. April 1, 2025 – The amendment relates to classification of liabilities as current or non-current and non-current liabilities with covenants. In the context of classifying a liability as current, it removes the requirement of existence of a right to defer settlement for at least 12 months after the reporting date and instead requires that the said right should exist on the reporting date and have substance. The amendment also introduces guidance on classification of liabilities with covenants. The Company has no impact of these amendments in its classification criteria of current and non-current liabilities.
2. Ind AS 7, Statement of Cash Flows and Ind AS 107, Financial Instruments: Disclosures, applicable w.e.f. April 1, 2025 – The amendment in Ind AS 7 requires to inform users of financial statements of the existence of supplier finance arrangements and explain the nature of the arrangements, the carrying amount of liabilities and the range of payment due dates. Ind AS 107 has been amended to add supplier finance arrangements as a factor that may cause concentration of liquidity risk. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.
3. Ind AS 12, International Tax Reform – Pillar Two Model Rules applicable immediately - The amendments provide a temporary mandatory relief from deferred tax accounting for top-up tax and disclose that they have applied the relief. This relief is immediate and applies retrospectively.

### c) Performance obligations

There is no remaining performance obligation for any contract for which revenue has been recognised till period end. Further, the Company has not applied the practical expedient as specified in para 121 of Ind AS 115 as the Company do not have any performance obligations that has an original expected duration of one year or more or any revenue stream in which consideration from a customer corresponds directly with the value to the customer of the Company's performance completed to date. (refer note 2.2)

### d) Transaction Price

The Company satisfies its performance obligations pertaining to the sale of auto components at point in time when the control of goods is actually transferred to the customers. No significant judgment is involved in evaluating when a customer obtains control of promised goods. The contract is a fixed price contract and do not contain any financing component. The payment is generally due within 30-90 days. There are no other significant obligations attached in the contract with customer.

### e) Determining the timing of satisfaction of performance obligations

There is no significant judgements involved in ascertaining the timing of satisfaction of performance obligations, in evaluating when a customer obtains control of promised goods, transaction price and allocation of it to the performance obligations.

### f) Determining the transaction price and the amounts allocated to performance obligations

The transaction price ascertained for the only performance obligation of the Company (i.e. Sale of goods) is agreed in the contract with the customer. There is no variable consideration involved in the transaction price except for refund due to shortages which is adjusted with revenue.

### g) Cost to obtain contract or fulfil a contract

#### Tax Losses

The Company is subject to income tax in India on the basis of its financial statements. The Company can claim tax exemptions/ deductions under specific sections of the Income Tax Act, 1961 subject to fulfilment of prescribed conditions, as may be applicable. The Company had opted for the new tax regime under Section 115BAA of the Act, which provides a domestic Company with an option to pay tax at a rate of 22% (effective rate of 25.168%). The lower rate shall be applicable subject to certain conditions, including that the total income should be computed without claiming specific deduction or exemptions.

As per the tax laws, business loss can be carried forward for a maximum period of eight assessment years immediately succeeding the assessment year to which the loss pertains. Unabsorbed depreciation can be carried forward for an indefinite period.

	Year ended March 31, 2026	Year ended March 31, 2025

#### (A) Defined benefit plans

##### a) Gratuity

The Company provides for gratuity for employees in India as per the POGA 1972 and the Code of Social Security, 2020. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary and dearness allowance per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is a funded plan and the Company makes contributions to recognised funds in India. The Company does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments.

The amounts recognised in the balance sheet and the movements in the net defined benefit obligation over the year are as follows:

Reconciliation of net defined benefit (asset) liability	Present value of obligation	Fair value of plan assets	Net amount
<b>Opening defined benefit obligation as at April 1, 2024</b>	<b>930.11</b>	<b>(695.15)</b>	<b>234.96</b>

There is no effect of the asset ceiling either in current year or previous year.

**The net liability disclosed above relates to funded plan is as follows:**

	As at March 31, 2026	As at March 31, 2025
Present value of funded obligations	<b>1,323.80</b>	1,087.71
Fair value of plan assets	<b>829.70</b>	771.73
<b>Non - current liability recognised in Balance Sheet</b>	<b>494.10</b>	315.98

Valuation in respect of gratuity has been carried out by independent actuary, as at the balance sheet date, based on the following assumptions:

40	0.001803	65	0.017009

**Note 33 : Employee benefits (continued)**

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

	As at March 31, 2026	As at March 31, 2025
Increase/(decrease) in present value of defined benefit obligation as at the end of the year		
(i) 1% increase in discount rate	(87.06)	(77.48)
(ii) 1% decrease in discount rate	97.68	87.52
(iii) 1% increase in rate of salary escalation	93.58	84.69
(iv) 1% decrease in rate of salary escalation	(85.20)	(76.57)
(v) 1% increase in withdrawal rate	(12.60)	(11.50)
(vi) 1% decrease in withdrawal rate	13.72	12.59

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet. Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

**b) The following payments are expected contributions to defined benefit plan in future years.**

The weighted average duration of the defined benefit obligation is 8 years

	As at March 31, 2026	As at March 31, 2025
Defined benefit obligation (gratuity)		
Less than a year	115.64	94.96
Between 1 - 2 years	125.07	90.96
Between 2 - 5 years	449.51	314.77
Over 5 years	880.37	721.48
<b>Total</b>	<b>1,570.59</b>	<b>1,222.17</b>

## Notes forming part of financial statements for the year ended March 31, 2026

(All figures in INR Lakhs, unless otherwise stated)

Category of plan assets are as follows -

	As at March 31, 2026	As at March 31, 2025
Unquoted Insurer managed funds*	100%	100%

The Company maintains gratuity fund, which is being administered by LIC as at March 31, 2026 is considered to be the fair value.

The fund does/ does not have a quoted market price in an active market. These defined benefit plans expose the Company to actuarial risks, such as longevity risk, interest rate risk and market (investment) risk.

The plan assets of the defined benefit plan have been primarily invested in insurer managed funds and the asset allocation for plan assets is determined based on the investment criteria prescribed under the relevant regulations applicable to pension funds and the insurer managers. Insurer is responsible for the investment strategy and equity allocation considering the long-term investment horizon and the objective to provide a reasonable long-term return.

The Company makes contribution to the fund based on actuarial valuations, with the objective of maintaining adequate assets to meet the gratuity obligations as they fall due. Employees are not required to contribute to the plans.

Contribution expected to be paid to the plan during the next financial year INR 49.41 lakhs (Previous year INR 6.73 lakhs).

### (B) Defined Contribution Plans

The Company has recognised the following amounts in the Statement of Profit and Loss

	As at March 31, 2026	As at March 31, 2025
Contribution to Employees' Superannuation Fund	28.07	29.38
Contribution to Provident Fund	165.72	166.80
Contribution to Labour Welfare fund	0.85	0.78
Contribution to Employees' State Insurance	8.32	13.02

### (C) Risk exposure

Through its defined benefit obligations, the company is exposed to a number of risks, the most significant of which are detailed below:

1. Interest rate risk: The defined benefit obligation is calculated using a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.
2. Salary inflation risk: Higher than expected increases in salary will increase the defined benefit obligation.
3. Demographic risk: For example, as the plan is open to new entrants, an increase in membership will increase the defined benefit obligation. Also, the plan only provides benefits upon completion of a vesting criteria. Therefore, if turnover rates increase then the liability will tend to fall as fewer employees reach vesting period.

- d) As post employment obligations and other long-term employee benefits obligations are computed for all employees in aggregate, the amounts relating to key management personnel cannot be individually computed and hence are not included in the above.
- e) Other than the remuneration mentioned above, Provision has been considered for the ESOPs being issued by the Holding Company, refer note 34 for details.

**Note 37 : Contingent liabilities (to the extent not provided for)**  
**See Accounting Policy 2.22**

	As at March 31, 2026	As at March 31, 2025
Claims against the Company not acknowledged as debts		
Excise duty and VAT related matters (refer note (a) below)	83.83	83.83
Labour matter (refer note (c) below)	312.00	273.79
Goods and Services tax matters	7.66	7.66
Other matters (refer note (b) below)	52.43	52.43

**Note:**

In addition to the above, there are certain pending cases in respect of labour matters, the impact of which is not quantifiable and is not expected to be material.

- (a) The Company has received various demand/notices from the Excise and VAT/Sales Tax department on various matters. The Company has filed/is in the process of filing of appeal for these demand/notices and does not expect any significant outflows. Major demand is for mismatch between details as per the Company with that of filed by vendors and other matters such as for alleged evasion of Central Excise duty and alleged contravention of Central Excise Rules for which demand is raised and interest / penalty is charged. Further, the Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed as contingent liabilities where applicable, in the financial statements. The management believes that the ultimate outcome of above proceeding will not have a material adverse effect on the Company's financial position and results of operations.
- (b) There are numerous interpretative issues relating to the Supreme Court (SC) judgment dated 28th February, 2019, relating to components/allowances paid that need to be taken into account while computing an employer's contribution to provident fund under the Employees' Provident Funds and Miscellaneous Provident Act, 1952. The Company has also obtained a legal opinion on the matter and basis the same there is no material impact on the financial statements as at 31 March 2021. The Company would record any further effect on its financial statements, on receiving additional clarity on the subject. This represents remote liability pertaining to other employee related matters. The management believe that the chances of outflow of resources is remote.
- (c) The Company is contesting various demands relating to labour matters and the management believes that its position will likely be upheld in the appellate process. The management believes that the ultimate outcome of above proceeding will not have a material adverse effect on the Company's financial position and results of operations.

- a. This represents provisions made for probable liabilities / claims arising out of pending dispute / litigations with various regulatory authorities in respect of VAT and CST cases. These provisions are affected by numerous uncertainties and management has taken all efforts to make the best estimates. During the year, Management has carried out an assessment of potential liabilities and based on the evaluation, it was concluded that these provisions were no longer necessary. Consequently, the related amounts have been written back in the financial statements.
- b. The Company has made warranty provision on account of sale of products with warranty clause. These provisions are based on management's best estimate and past trends. Actual expenses for warranty are charged directly against the provision. Un-utilized provision is reversed on expiry of the warranty period.

#### i) Debt-Equity ratio:

The Company's debt-equity ratio improved significantly from 17.02 in the previous year to 3.44 during the current year, primarily due to substantial repayment of borrowings and retention of profits generated during the year.

#### ii) Return on Equity ratio:

The Return on Equity Ratio decreased from 24.58% to 1.23% during the year. While net profit after tax increased to INR 2,513.73, the ratio was impacted by a substantial rise in average shareholder's equity to INR 2,244.82, compared to INR 68.26 in the previous year.

#### iii) Trade Payable turnover ratio:

The Trade Payables Turnover Ratio improved as the cashflow improves and payment term reduced as comparison to previous year, indicating improvement in working capital management.

## Automotive Stampings and Assemblies Limited

(All figures in INR Lakhs, unless otherwise stated)

#### iv) Net Capital Turnover Ratio

The sharp movement in the ratio is primarily a mathematical outcome of the denominator (net working capital) converging towards zero, and does not indicate any deterioration in operational efficiency. The improvement in current assets during the year further corroborates the strengthening of the company's short-term financial position.

#### v) Net profit Margin

Net Profit Margin improved, the improvement is attributable to a combination of higher revenue volumes driven by increased market demand and process improvement achieved during the year. The increase in volumes enabled better absorption of fixed costs, while process rationalization contributed to reduction in per-unit operating cost.

### Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level is as follows:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
- Level 3 - If one or more of the significant inputs are not based on observable market data, the instrument is included in level 3.

### Note 43 : Fair Value Measurement (Contd.)

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as of March 31, 2026:

	As at March 31, 2026	Fair value measurement at end of the reporting year

	As at March 31, 2025	Fair value measurement at end of the reporting year		
		Level 1	Level 2	Level 3
<b>Liabilities</b>				
Derivative financial instruments - foreign currency forward contracts	(0.04)	-	(0.04)	-

- The carrying amount of trade receivables, cash and cash equivalent, bank balances other than cash and cash equivalent, other current financial assets, short term borrowings, trade payables and other financial liabilities are considered to be same as their fair values, due to their short term nature.

#### Valuation technique used to determine fair value:

Specific valuation technique used to value financial instruments include

- Fair value of forward foreign exchange contracts is determined using forward exchange rates as at the balance sheet date
- Fair value of the remaining financial instruments is determined using discounted cash flow analysis.

#### Valuation processes

The finance department of the company includes a team that performs the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. Discussions of valuation processes and results are held between the CFO, VP Finance and the valuation team.

### Note 44 : Financial risk management

In the course of its business, the Company is exposed primarily to market risk, liquidity risk and credit risk, which may adversely impact the fair value of its financial instruments. The Company has a risk management policy which not only covers the foreign exchange risks but also other risks associated with the financial assets and liabilities such as credit risks. The risk management policy is approved by the board of directors. The risk management framework aims to:

- Create a stable business planning environment by reducing the impact of currency fluctuations on the Company's business plan.
- Achieve greater predictability to earnings by determining the financial value of the expected earnings in advance.

#### (A) Market risk

Market risk is the risk of any loss in future earnings, in realizable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the, foreign currency exchange rates, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

##### (a) Foreign currency risk

The Company operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD, EUR and Others. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Company's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows. The Company's risk management policy is to hedge around 50% to 70% of forecasted foreign currency sales and purchases for the subsequent 6 months. The objective of the hedges is to minimise the volatility of the INR cash flows of highly probable forecast transactions.

The Company's exposure to foreign currency risk at the end of the reporting period expressed in INR, are as follows:

	As at March 31, 2026					As at March 31, 2025				
	USD	RMB	EUR	SEK	Others	USD	RMB	EUR	SEK	Others
Financial liabilities										
Trade payables	3.97	-		-	-	85.43	-	0.32	-	-
Trade receivables	0.35					5.62				
Exposure to foreign currency risk	4.32	-	-	-	-	85.43	-	0.32	-	-

## Notes forming part of financial statements for the year ended March 31, 2026

(All figures in INR Lakhs, unless otherwise stated)

### Sensitivity

The sensitivity of profit or loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments.

#### Forward contracts receivable

	As at March 31, 2026	As at March 31, 2025
Forward contracts Payable		
USD	2.64	3.13
EUR	-	-
<b>Total</b>	<b>2.64</b>	<b>3.13</b>

#### (b) Interest rate risk

The Company has fixed rate borrowings and variable rate borrowing. The Company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in In AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

#### (B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, the Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet this. The Company invests its surplus funds in bank fixed deposit and liquid mutual funds which carry no / low mark to market risk.

#### Maturities of financial liabilities

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for:

- all non-derivative financial liabilities, and
- net and gross settled derivative financial instruments for which the contractual maturities are essential for an understanding of the timing of the cash flows.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

### (C) Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses both the direct risk of default and the risk of deterioration of creditworthiness. For the Company, credit risk arises from cash and cash equivalents, other balances and deposits with bank and financial institutions and trade receivables.

#### *Credit risk management*

For banks and financial institutions, only high rated banks/institutions are accepted.

For other financial assets, the Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information. Especially the following indicators are incorporated:

- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the counterparty ability to meet its obligations
- actual or expected significant changes in the operating results of the counterparty
- significant increase in credit risk on other financial instruments of the same counterparty
- significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements

In general, it is presumed that credit risk has significantly increased since initial recognition if the payments are more than 90 days past due.

A default on a financial asset is when the counterparty fails to make contractual payments within 365 days of when they fall due. This definition of default is determined by considering the business environment in which entity operates and other macro-economic factors.

#### *Exposure to credit risk*

The carrying amount of financial assets represents the maximum credit exposure.

None of the Company's cash equivalents, including time deposits with banks, are past due or impaired. Regarding trade receivables and other receivables, and other financial assets that are neither impaired nor past due, there were no indications as at March 31, 2026, that defaults in payment obligations will occur.

#### **Financial assets that are neither past due nor impaired**

None of the Company's cash equivalents, including time deposits with banks, are past due or impaired. Regarding trade receivables and other receivables, and other financial assets that are neither impaired nor past due, there were no indications as at March 31, 2026, that defaults in payment obligations will occur.

The Company follows 12 months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date) model for recognition of impairment loss on financial assets measured at amortised cost or fair value through other comprehensive income other than trade receivables.

## Notes forming part of financial statements for the year ended March 31, 2026

Trade receivables consist of a large number of various types of customers, spread across geographical areas. Ongoing credit evaluation is performed on the financial condition of these trade receivables and where appropriate, allowance for losses are provided.

Trade receivables overdue more than six months include INR 70.38 lakhs as at March 31, 2026 (INR 317.42 Lakhs as at March 31, 2025), which are considered recoverable. The Company makes allowances for losses on its portfolio of finance receivable on the basis of expected future collection from receivables. The future collection are estimated on the basis of past collection trend which are adjusted for changes in current circumstances as well as expected changes in future collection based on expectations in future with respect to certain macro economic factor like GDP growth, fuel price and inflation.

The following table summarises the change in loss allowance measured using lifetime expected credit loss model:

	Amount
<b>Loss allowance on March 31, 2024</b>	<b>68.48</b>
Changes in loss allowance	31.53
<b>Loss allowance on March 31, 2025</b>	<b>100.01</b>

### Note 45 : Capital Management

The Company's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and Maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Company determines the amount of capital required on the basis of annual operating plans and long-term product and other strategic investment plans. The funding requirements are met through equity, long term borrowings and short-term borrowings. The Company's policy is aimed at combination of short-term and long-
