# Strengthening Performance

## Commenting on the performance, Mr. Akshay Modi, Joint Managing Director, of Modi Naturals, said,

*"FY26 marks an important inflection point for us. Over the last few years, we have focused on building a stronger, more sustainable business platform, and we believe the foundations are now firmly in place across all our key verticals.*

*Reflecting this progress, we successfully achieved our FY26 guidance across Revenue, EBITDA, and PAT, demonstrating disciplined execution, operational resilience, and improved efficiencies despite the delayed ramp-up of the Phase II ethanol expansion.*

*Our Consumer Division is seeing improved brand recall, stronger product acceptance, and expanding distribution reach, while the Bulk Division continues to provide stability through steady cash flow generation and improved working capital efficiency. At the same time, our Ethanol business has emerged as a key growth engine, with capacity expanding from 130 KLPD in FY24 to 282 KLPD, representing a 117% increase over the last two years and significantly strengthening our long-term operating platform.*

*Having established these capabilities, our focus now shifts from building the platform to scaling it. We believe FY27 will be a year of accelerated growth, with all our business verticals contributing more meaningfully to revenue growth and profitability.*

*Regarding financial performance, we have achieved a historic profitability milestone. Consolidated revenue grew by 8.5% YoY to Rs 719.2 crore, EBITDA increased by 31.2% to Rs 73.5 crore, and PAT rose by 62.1% to Rs 50.3 crore. This performance was driven by stronger operational efficiencies, disciplined cost management, focused brand-building initiatives, and lower working capital intensity, resulting in a meaningful improvement in ROCE to 19.9%.*

*Additionally, we also took a conscious strategic decision to shut down the one of the solvent extraction plant at Pilibhit (UP), as the facility was not aligned with our long-term profitability and operational efficiency objectives.*

*Another encouraging development during the year was the upgrade in our credit ratings, with long-term facilities revised to IVR BBB/Stable and short-term facilities upgraded to IVR A3+.*

*We believe this reflects the improving quality of our balance sheet, stronger financial discipline, and the confidence in our long-term growth trajectory."*

**Mr. Akshay Modi**

# From Rice To Oil

# From Rice To Ethanol

\*Dried Distillers Grains Used for Animal Feed

**High Margin Product**

**Large Demand Supply gap**

**Government Incentives**

**Proximity to Petroleum Depot**

**Low Cost of Production**

**Environment Friendly**

- Received an approval for 310 KLD distillery
- 1<sup>st</sup> phase of 130 KLPD commenced in Q3FY24 with a capital expenditure of Rs 150 cr
- 2<sup>nd</sup> Phase of 180 KLPD is in progress with an estimated capital expenditure of Rs ~100 cr

**Ethanol made from surplus and damaged food grain such as broken or surplus rice instead of molasses.** Rice as a product is best understood due to the traditional rice bran oil business

**Husk is used as a fuel for the plant,** saving power and fuel cost

Plant is located in Chhattisgarh **which is the only state that gets 3 crops in a year**

**Close proximity to procurement of raw materials** saves transport costs and enhances margins

# Ethanol – a step Towards “Growth.....!”

Increasing Blending Rate

has led to

Increased Production Capacity

Molasses + Grain = Total  
(Cr Litre)

*Growth Opportunity for Modi Naturals*

The above requires grain capacity to treble over the next 3 years as molasses-based ethanol is relatively limited without large scale diversion of sugar which will hamper food security

## ADVANTAGES

01

Environment Friendly

02

Supports sugarcane, maize & rice farmers

03

Cuts Oil Import Bills

04

Increases investment & job creation in rural areas

**Storage Tank**

Commenting on the commercialisation of the plant, Mr. Akshay Modi, Managing Director of Modi Naturals Ltd., said,

*“The commissioning of our Ethanol Plant represents an important moment in India's drive for sustainable biofuels. Modi Biotech is committed to influencing the nation's energy future. Biofuel is certainly the key to India's automotive sector. Our Ethanol facility demonstrates our commitment to sustainability, energy security, environmental responsibility, and increasing farm income simultaneously at the same time. Furthermore, it has enabled us to diversify our company portfolios and build a green-field unit with significant growth potential.”*
