Key Highlights

- The Company delivered another record quarter, with its highest-ever quarterly income of ~Rs.1,714 crores, up 57% on a YoY basis. H1 income stood at ~Rs.3,225 crores, up 53% on a YoY basis.
- On a sequential quarter basis Transformer Oils, White Oils and Export volumes all registered healthy double-digit growth. The Lubricant division also registered double digit growth in H1.
- Volatility in crude oil and refined product prices, coupled with tighter supply, led to an increase in input feedstock costs and prices across the Company's product portfolio during the quarter.
- The Company remains cautiously optimistic amid significant daily volatility in key feedstock supplies.
- The Savsol Ester5 automotive lubricant range continues to outperform with sales growth 4X of the industry growth, reinforcing the strategy to pivot towards a more premium product portfolio by leveraging its advanced ester technology.

Commenting on the performance Mr. Gautam N. Mehra, Chairman and Managing Director, said
"*We are pleased to report a robust performance with Year-on-Year (YoY) growth in total income of 57% for the quarter and 53% for H1'27. Furthermore, Profit Before Tax (PBT) growth was 410% for the quarter and 424% for the first half of fiscal year 2026-27. We delivered healthy double-digit volume growth in Export and Lubricating Oil Divisions in H1'27.*

Savsol Ester5 range of Automotive Lubricants launched last year has met with a very positive response from the market and is growing at 4X of the industry growth rate for Automotive Lubricants. Given the continuing double-digit growth in Lubricants, the Company is now planning to embark on a project to increase capacity by 50% for Lubricants and to double capacity for Diesel Exhaust Fluids. In terms of new product developments, the Ester based fluids for refrigeration compressors continue to win approvals from existing and new OEMs.

Ester based immersion coolants for EV batteries for mobility as well as stationery EV batteries for Battery Energy Storage Systems (BESS) is an area with tremendous potential and the Company's R&D is focused on tailor making products for various OEMs in this space. The Company remains very optimistic about the large volumes these new age fluids can deliver.
