## Coforge Celebrates 20 Years in Peru, Reinforces Commitment to Move Enterprises from AI Ambition to Execution

### Lima to serve as regional hub for expansion in Latin America

**Princeton, NJ & Lima, Peru | August 27, 2026** — Coforge Limited (NSE: COFORGE), a global AI-native engineering services leader, is marking its 20th year of operations in Peru and announcing the country's expanded role as the foundation of the company's AI-led engineering expansion in Latin America. Building on two decades of local presence, Lima will serve as Coforge's principal delivery, innovation, and client engagement hub for the region.

The firm's Peru operations began two decades ago as a local engineering unit, since evolving into a strategic growth hub employing more than 1,300 employees and serving banking, financial services, retail, and consumer clients. Coforge's delivery model for Latin American enterprises is built around execution intensity, expertise in AI, digital engineering, cloud, and data, and deep industry and regional market knowledge.

As Coforge continues to strengthen its presence in Latin America, this milestone underscores the company's long-term commitment to the region and marks an important step in its growth and expansion strategy. The strengthened Latin America operations will help local, regional and global clients move faster from technology ambition to execution with greater proximity, agility, and access to specialized engineering and AI talent.

In advance of a celebratory event in Lima for Coforge's Latin American clients, partners, and employees, **Sudhir Singh, Chief Executive Officer and Executive Director, Coforge**, said, "We are delighted to celebrate 20 years of business in Peru, and to demonstrate our ongoing commitment to deliver AI-led engineering services to enterprises, and contribute to the region's technological and economic advancement."

"Peru is among Latin America's leaders in AI adoption, and we believe that Coforge's ability to operationalize AI and embed intelligence into enterprise decisions, workflows, and operating models, will help our clients move from AI adoption to enterprise autonomy."

**Alvaro Lang, Executive Vice President, Banking & Financial Services and Head of Latin America, Coforge**, said, "This milestone is a testament to the trust our customers place in us, the strength of our partnerships, and the remarkable talent of our teams across Latin America. Together, we have built a thriving business that is now a key contributor to Coforge's growth. Peru has been a cornerstone of our engineering excellence, and it will continue to be a strategic hub as we accelerate our expansion across the region."

### About Coforge

Coforge is an AI-native engineering services leader, where AI is the very foundation of how we design, build, and deliver intelligent solutions for our clients. We use AI and hyperspecialized industry expertise to engineer autonomous enterprises. We combine AI agents with our AI-enabled workforce,

including specialized FDEs in hybrid pod-based delivery units. With a deep focus on trusted AI, our solutions are secure, governed, and enterprise-grade. We are outcome-led by design. Moving beyond AI experimentation, we deliver measurable business outcomes—lower operating costs, faster cycle times, higher conversion rates, and sustained margin growth.
