Gross and EBITDA margins expand year-on-year; EPS rises to ₹3.15

Hyderabad, August 13, 2026: Uday Jewellery Industries Limited (BSE: UDAY) ("UJIL" or "the Company"), one of Telangana's established jewellery manufacturing and retail groups, today announced its unaudited standalone financial results for the first quarter of FY2026-27 ("Q1 FY27"), for the period ended June 30, 2026. The results were reviewed by the Audit Committee and approved by the Board of Directors at its meeting held on August 13, 2026.

The Company delivered a steady year-on-year improvement across all key financial metrics, reflecting sustained consumer demand, disciplined cost management, and the continuing benefits of scale following the integration of the erstwhile Narbada Gems and Jewellery Limited business pursuant to the NCLT-approved merger.

COMMENTARY

Commenting on the results, Mr. Sanjay Kumar Sanghi, Chairman & Managing Director, said:

"We are pleased to have started FY2026-27 on a positive note, with growth across revenue, EBITDA and profit after tax on a year-on-year basis. Our gross and operating margins have both expanded, underscoring the continued strength of our product mix and cost discipline. The successful integration of the Narbada Gems and Jewellery business has further strengthened our standalone scale and operating base. As always, our fourth quarter remains our strongest on account of the traditional wedding and festive buying season in India, and Q1 performance should be read in that seasonal context. We remain focused on strengthening our balance sheet, deepening our presence across Telangana and adjoining markets, and creating sustainable long-term value for all our stakeholders, including as we progress our listing application on the National Stock Exchange."

BUSINESS & CORPORATE DEVELOPMENTS

- Revenue growth was supported by steady footfalls and continued demand for gold jewellery, with the Company maintaining its focus on studded and branded product categories to drive margin improvement.
- Gross margin expansion of ~249 basis points year-on-year reflects a favourable product mix and continued sourcing efficiencies.
- As is characteristic of the jewellery industry, the fourth quarter (January–March) — which captures the peak wedding and festive season — remains seasonally the strongest quarter of the year; the sequential moderation from Q4 FY26 to Q1 FY27 is consistent with this well-established industry seasonality and is not indicative of any change in underlying demand trends.
- The Company's paid-up equity capital increased to ₹34.05 Crore as on June 30, 2026 (from ₹33.60 Crore as on March 31, 2026), following allotment of equity shares on 01.05.2026 pursuant to conversion of the final tranche of warrants.
- The Company continues to pursue its application for listing of its equity shares on the National Stock Exchange of India (NSE), in addition to its existing listing on the BSE.
