The margin for this quarter was impacted by upfront investments of ~ ₹18 crore incurred towards the implementation of multiple prestigious RFP-led mandates. In addition, margins were also affected by cost inflation driven by ongoing geopolitical tensions resulting in higher procurement costs for technology hardware, white goods and other key inputs required for these projects. Excluding these investments, EBITDA for the quarter stood at ₹46 crore, with an EBITDA margin of 17.2%. PAT excluding these investments stood at ₹20 crore with PAT margin of 7%.
