**SOFTTECH ENGINEERS LIMITED**

**Launched of CivitTWIN — India's First AI-Powered Digital Approval TWIN**

*Developed in Collaboration with Brihanmumbai Municipal Corporation (BMC)*

---

Dear Stakeholders,

We are pleased to inform our esteemed investors and stakeholders that SoftTech Engineers Limited has successfully collaborated with the Brihanmumbai Municipal Corporation (BMC) in developing and launching CivitTWIN – India's first AI-powered Digital Approval Twin for building permits. The platform was officially launched by the Hon. Chief Minister of Maharashtra, Shri Devendra Fadnavis ji, in the presence of the Mayor of Mumbai, Smt. Ritu Tawade ji, and Municipal Commissioner of Mumbai Municipal Corporation, Smt. Ashwini Bhide at the Tech Week event held in Mumbai.

**About CivitTWIN**

The BMC evaluates over 8,000 complex building proposals annually, covering more than 40 lakh square meters of approved built-up area. The existing approval process required applicants to complete 450+ manual form inputs, coordinate across 25+ independent NOC departments, and validate over 60 distinct documents – a process that was time-intensive and prone to errors.

CivitTWIN transforms this process by providing a digital rehearsal of the entire regulatory journey. Architects and applicants can Upload, Simulate, Find Gaps, and Rectify their building plans in real time – before formally submitting them on AutoDCR SWC. The platform is powered by 12 specialized AI Agents across Creation, Review, and Submission workflows, which read and process unstructured data from documents, drawings, GIS-based city maps, and historical data patterns.

### **Key Benefits & Impact**

- 70% improvement in data consistency of submissions
- 60% reduction in proposal rejections
- 24x7 AI-guided chatbot assistance for applicants
- Real-time preparedness scores to guide error-free submissions

### **Strategic Significance**

This initiative positions Soft Tech Engineers Limited at the forefront of AI-powered GovTech solutions in India. CivitTWIN represents a paradigm shift – moving from a model of 'finding errors after submission' to one of 'verifying success before submission.' The Company views this as a significant milestone in its broader vision of delivering intelligent, scalable solutions for civic infrastructure and urban governance across India.

We will continue to keep our stakeholders informed of further developments. This announcement is being made in the spirit of transparency and timely disclosure. For any queries, stakeholders may reach out to our Investor Relations team.

### **About SoftTech Engineers Limited:**

SoftTech Engineers Limited (SEL) is a technology company focused on developing digital solutions for the Architecture, Engineering, Construction and Operations (AECO), and infrastructure sectors. The Company provides enterprise platforms that help government bodies and infrastructure organizations digitize planning, approvals, and project monitoring processes. Its key products, including CivitPLAN & CivitPERMIT (AutoDCR®), CivitINFRA (PWIMS) and CivitBUILD (Opticon) enable building plan approvals, urban governance, and infrastructure project management, supporting greater efficiency, transparency, and real-time oversight in public infrastructure and urban development.
