With live bank-linked pricing, the offering is designed to provide customers with greater transparency and convenience while accessing foreign exchange digitally. Customers can also benefit from same-day fulfilment, subject to applicable regulatory requirements and service conditions.

Commenting on the expansion, **Bipin Preet Singh, Co-founder, MD & CEO, MobiKwik**, said, *"At MobiKwik, our goal is to use technology to simplify everyday financial experiences. As more Indians travel, study and transact overseas, their foreign exchange requirements are becoming increasingly diverse. With our multi-currency offering, we are addressing these needs through a simple, seamless experience on the MobiKwik app. By bringing multiple currencies together with transparent, bank-linked pricing, we are making foreign exchange more accessible, convenient and easy to manage for customers."*

The current offering is available to **resident individuals,** subject to PAN and primary-account-holder validation. Customers can transact up to **USD 3,000 equivalent per transaction for currency notes and USD 10,000 equivalent per transaction for card and remittance service**s, with equivalent limits applicable across the supported currencies.
