Management Commentary

Dr. Raghavendra Rao Bondada

CHAIRMAN & MANAGING DIRECTOR

We thank all our stakeholders for their continued trust and support. This is a landmark year for Bondada, with NSE and BSE approving the migration of our equity shares from the BSE SME platform to their Main Boards. This will enhance our market visibility and broaden investor participation.

H1 FY27 has been a period of steady, profitable growth. Revenue from operations grew 16% year-on-year to ₹14,153.6 Mn, EBITDA grew 12% to ₹1,622.2 Mn, and net profit rose 18% to ₹1,114.0 Mn, with net profit margin improving to 7.9%.

Our order momentum remains strong, with orders worth approximately ₹46,636 Mn secured since April 2026 across solar EPC, BESS, telecom, smart metering and defence. Our order book stood at approximately ₹104,458 Mn as on October 31, 2026, providing strong revenue visibility.

We continue to diversify through strategic investments, including our entry into renewable energy asset ownership through Onix IPP, defence and aerospace through KCS Engineering Solutions, and electric mobility through BTM Mobility. Our expansion into BESS asset ownership and fibre infrastructure strengthens our long-term recurring revenue opportunities, while Bondada International FZ-LLC in the UAE gives us a platform for international growth. The upgrade to CRISIL A+/Stable and the enhancement of our rated bank facilities from ₹8,000 Mn to ₹20,000 Mn reflect our strengthening financial position.

We remain focused on our FY27 commissioning target of 1.5 GWp and our long-term goal of 25 GW of cumulative renewable energy capacity by 2030.

Integrated Infrastructure Solutions Across Core & Emerging Sectors

Offers Comprehensive EPC And O&M Solutions Across High-growth Sectors

Renewable Energy

Solar IPP & EPC: site survey, land preparation, system design, installation, maintenance, performance monitoring, electrical works

BESS

Battery Energy Storage Systems: eco-friendly storage solutions on IPP model with technology partners for batteries

Defence & Aerospace

Design, development, manufacture and maintenance via Bondada Dynamics and KCS Engineering. Multiple orders from BEL, DRDO, DRDL, SHAR and AVNL

Telecom

EPC: tower erection, cell site construction, fibre laying, civil/electromechanical works. O&M: power, security and environmental systems, testing and analysis

Data Centres

Recently started O&M services to ensure uptime, performance, preventive and predictive maintenance

Railways

Kavach Infra: ground infrastructure (pile foundations) for telecom towers supporting Kavach and 4G LTE-R. Signalling**:** comprehensive solutions

Products Manufacturing

Green building construction material; uPVC & aluminum profiles, windows and doors; telecom towers; solar module mounting structures (MMS); industrial LED lighting; BLDC motors and controllers

Assets	Dark fiber, ducts, data center and AI connectivity
Customers	Hyperscale's, AI cos, DC operators, telcos
Model	Long-term contracted, recurring revenue
Status	Pre-operative; starts after telecom licenses

Why it matters

Recurring Annuity Income
25-yr solar PPA, BESS tariff and fiber contracts add steady cash flows

EPC to ownership
In-house solar, BESS and telecom execution now builds Bondada's own assets

New growth avenues
Adds energy storage and AI / data center connectivity to the portfolio

Competitive Strengths

Eight pillars that underpin execution, growth and resilience

Diversified Portfolio

Comprehensive EPC and O&M services across Telecom, Renewable Energy, Railways, Data Centers, and Defense, reducing sector-specific risks

In-House Manufacturing

Integrated production of telecom towers, solar MMS, AAC Blocks, LED lighting, & BLDC motors ensures cost efficiency, quality control, & supply chain reliability

Technology-Driven Innovation

Strategic partnerships for eco-friendly BESS and adoption of advanced technologies (e.g., CNC lines, galvanizing plants) for operational excellence

Strong Client Relationships

Trusted by industry leaders like Reliance Jio, Airtel, BSNL, MAHAGENCO, and BHEL, with a track record of delivering 11,000+ telecom towers

Proven Execution Excellence

14+ years of delivering complex projects on time, backed by ISO 9001:2015 certification and a skilled workforce of 2500+ employees

PAN-India Presence

Extensive reach with manufacturing facilities in Andhra Pradesh and Telangana, enabling scalability and rapid project execution

Sustainability Focus

Leadership in green solutions (Solar IPP, BESS, AAC Blocks) aligns with global & national sustainability goals

Robust Order Book

Strong and diversified order book across business units and geographies, ensuring sustained revenue growth
