04 Corporate Snapshot

17 Financial Highlights

23 Strategic Roadmap

Bridging the Supply Gap in Frontier Markets

Successful Produce, Stock, Sell Business Model

Markets	Established operations: Guatemala (Latin America), Dominican Republic (Caribbean) and Angola (Africa) New operations: Honduras, El Salvador, and Nicaragua	Expansion initiated: Ecuador, Chile (Latin America)
Products	Vast range of essential OTC medicines – with healthy mix of generics and branded generics	980 product registrations in Seven countries 200+ registrations submitted or in the pipeline
Supply Chain	Outsourced production from WHO GMP certified plants in India, China and Portugal	Established the Company's first pharmaceutical formulation facility in Hyderabad
Distribution	Deep presence through 38 warehouses and on-ground fleet support	Successful process being replicated in other frontier markets; expansion plans in other global markets over near to medium term
Transformation	New initiatives strengthening functionality in supply chain, regulatory affairs and customer service	Centralized digital procurement, regulatory management and customized CRM tools

Key Success Factors

Market Selection Methodology

- Focus on countries with high-potential economic growth framework
- Identify non-English speaking countries with similar characteristics
- Low competitive intensity and potential to establish top-2 position
- On-ground feedback mechanism allows deep understanding of demand dynamics
- As population crosses prosperity thresholds, healthcare spends expand exponentially

Human Capital Management

- Established unique ecosystem of 100+ Indian expatriates in operating geographies
- Financial security ecosystem for key personnel, creating a highly motivated leadership team
- Local language training and support from local staff improves on-ground effectiveness
- Home grown management systems have already proven successful in several countries
- Homogeneous target markets allow cross-movement of people and resources

Regulatory Affairs Systems

- Appreciation and full compliance of local regulatory framework
- Comprehensive, in-house capabilities backed by cross-functional coordination with business/tech teams
- Digitization of regulatory operations with end-to-end management and data security
- Typical 12-24 months regulatory process is monitored at every stage – supports corporate planning and creates strong local IP

Transition from “Asset Light” to “Asset Right”

As a part of its corporate evolution, Balaxi has moved its business model from ‘Asset Light’ to ‘Asset Right’. The company has set up its first pharmaceutical manufacturing facility in a Pharma SEZ located at Jadcherla, Hyderabad.

Investment in Manufacturing Facilities

Company's first pharmaceutical formulation manufacturing unit

General Oral Solid Dosage (OSD) formulations

Targeting demand for high-quality products in Latin American markets

Allows full backward integration of supply chain

Commercial production commenced

Historically, Balaxi has successfully executed on its “produce, stock and sell” model. The company has built a large and diversified portfolio of products and a leading position by bridging the supply gap in several countries, first in low-regulation markets in Africa and more recently in semi-regulated markets in Latin America. This outreach has been backed by outsourced, WHO GMP compliant, diversified supply chains developed by the company. As a part of its corporate evolution, Balaxi has now set up its first pharmaceutical formulation manufacturing unit to cater to the demand for high-quality products in existing as well as targeted markets.

Favorable ROI on Capital Expenditure

Immediate demand for new production from established markets

Higher efficacy, greater acceptance, enhanced profit margins

Strong control over manufacturing ecosystem

Improved regulatory processes, reduced time-to-market for new launches

Opens up several new market opportunities globally

The Commissioning of Company's first pharmaceutical formulation plant, located at a Pharma SEZ near Hyderabad, is now complete, focusing on General Oral Solid Dosage (OSD) formulations markets in Latin America and Africa. This will drive backward integration of the supply chain to these countries, currently outsourced through contract manufacturing relationships. This facility will produce higher efficacy products that enjoy greater acceptance and enhanced profit margins. From the operations standpoint, Balaxi is establishing a manufacturing ecosystem that affords better control, improves regulatory processes and reduces time to market for new product launches. Over the medium term, Balaxi sees several new market opportunities opening up for its product lines.

Glimpse of Company's first Formulation Facility:

Glimpse of Company's first Formulation Facility:

Glimpse of Company's first Formulation Facility:

Global Footprint

Existing/targeted markets have aggregate GDP of \$ 400 billion and pharma imports of \$ 6 billion

Key Milestones

Oversees the company's vision for Latin America

Paridhi Maheshwari

Head – Alternate Channels

MBA Graduate from London Business School.
Stickler for well-defined systems and processes
Initiated and leads the consumer products business

“

FINANCIAL HIGHLIGHTS

Management's Comments – Q1 FY27 Performance

"Q1 FY27 marked a positive start to the new financial year, with the Company delivering healthy revenue growth and improved profitability while continuing to execute its long-term strategic priorities. Our focused approach towards institutional business, portfolio expansion, and backward integration is beginning to translate into improved operating performance across key markets.

Consolidated revenue increased 14% YoY to ₹80.68 crore from ₹70.74 crore in Q1 FY26. Gross profit margin expanded by 241 basis points to 46.5%, reflecting an improved business mix, disciplined product selection, and the benefits of our market diversification strategy. Profit after tax increased to ₹1.29 crore from ₹0.29 crore in the corresponding quarter last year. While profitability has improved meaningfully, we believe it does not yet reflect the Company's full earnings potential and expect further improvement as operating leverage strengthens and strategic initiatives mature.

During the quarter, we secured 16 new product registrations, taking our total portfolio to 980 registered products across our key markets. We also achieved another significant milestone with the commencement of commercial production at our first pharmaceutical formulation facility at Jadcherla, Hyderabad. The facility now has approvals for 31 commercial products, with production being scaled up in line with market demand. In parallel, the Company is progressing towards WHO-GMP certification, which is expected to further strengthen our manufacturing credentials and unlock new growth opportunities.

Looking ahead, we remain focused on expanding our institutional business, strengthening our presence across Africa and Latin America, accelerating commercialization of our manufacturing facility, and continuing our portfolio expansion. Alongside the strategic exit from the Ancillary Building Hardware business, these initiatives are expected to improve working capital efficiency, enhance operational performance, and create sustainable long-term value for our stakeholders.

We sincerely thank our shareholders, employees, customers, partners, and all stakeholders for their continued trust and support as we advance into the next phase of Balaxi's growth journey."

Core Strategy: Enter, Expand & Excel

Balaxi in 2020: Business Consolidation

- Presence across Angola, Guatemala and Dominican Republic
- Effective and efficient supply chain model consisting of 38 warehouses and a fleet of owned vehicles

Balaxi in 2021-24: Expansion into New Geographies

- Aim to capture incremental market share in existing geographies by continuing to pursue various opportunities by leveraging physical assets
- Expanding presence in Honduras, El Salvador, Nicaragua, and Central African Republic
- Focus on offering a comprehensive product portfolio to fulfill consumer demand

Balaxi in 2025 & Beyond

- Foray into other Latin American countries, South-East-Asia and CIS markets, replicating the established and differentiated business model
- Backward integration of supply chain by setting up Company's first pharma formulation manufacturing facility
- Focus on ideal mix of branded and generic medicines, maximizing returns in key geographies
- Targeting strong global presence in potential frontier markets over the next five years
- Tapping into new channels for deeper penetration in existing markets
