Dear Sir/Madam,

Subject: Clarification regarding transaction undertaken by Promoter Entity

Capillary Technologies India Limited (the "Company"), in relation to the intimation made on August 11, 2026 under Regulation 29 (2) of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 and Regulation 7 (2) of the SEBI (Prohibition of Insider Trading) Regulations, 2015, the Company wishes to provide the following clarification to its Stakeholders regarding the transaction undertaken by its Promoter, Capillary Technologies International Pte. Ltd. ("CTIPL").

The transaction involving approximately 4 (Four) % of the equity share capital of the Company, executed on August 10, 2026, was undertaken by CTIPL, the Singapore-based promoter entity of the Company, as part of a Secondary market transaction facilitating the exit of Peak XV Partners, an early-stage institutional private equity investor in CTIPL.

It is important to clarify that the transaction should not be construed as an exit or divestment by the operational founders or as a reduction in their commitment or alignment with the Company. The transaction was undertaken in the context of the liquidity event of an institutional investor at the promoter entity level and forms part of the normal lifecycle of institutional private equity investments.

Under the existing corporate structure, certain institutional investors hold their investment in the Company through CTIPL rather than directly in the Company. Accordingly, transactions undertaken pursuant to such investment and liquidity arrangements may be effected through CTIPL, being the promoter entity, and the corresponding regulatory disclosures are made in accordance with applicable requirements.

The transaction therefore does not represent any change in the core promoter commitment towards the Company or its business, nor does it indicate any change in the operational founders' continued involvement and alignment with the Company.

Following the transaction, other institutional private equity investors continue to hold an aggregate equity holding of over 30 (Thirty) % in CTIPL. Any future liquidity events or structural exits undertaken by such investors may similarly be effected through CTIPL as part of the liquidity arrangement undertaken by such investors in respect of their investments, and reported in accordance with applicable regulatory requirements.

The Company is making this clarification to ensure that shareholders and market participants have the appropriate context while evaluating the transaction and do not interpret the same as an exit or divestment by the operational founders or a change in the promoter group's commitment towards the Company.
