Subject: General Update – Availability of "Shanmuga 360" Mobile Application for Pilot Public Testing:

Dear Sir/Madam,

We wish to inform you that the Company has initiated a pilot public testing phase of its mobile application, "**Shanmuga 360**".

Shanmuga 360 is a digital healthcare mobile application intended to provide patients with convenient access to various healthcare services through a single digital platform.

As part of this pilot rollout, the application has been made available on the Google Play Store and Apple App Store for the limited purpose of operational testing, performance validation and collection of user feedback. During this phase, certain features and services has been enabled in a controlled and phased manner, and the application may be accessible only during specified testing periods.

The Company wishes to clarify that the present availability of the application does not constitute its official commercial launch. The application is presently undergoing testing and validation to ensure operational stability, user experience, security and service efficiency.

The official commercial launch of the Shanmuga 360 mobile application shall be undertaken only upon successful completion of the testing process and after all intended features and services are fully operational. The Company shall make a separate announcement to the Stock Exchange regarding the official commercial launch at the appropriate time.

This disclosure is being made in the interest of transparency, as the application has been made available in the public domain for pilot testing purposes.

Kindly take the above information on record

Thanking you,

For Shanmuga Hospital Limited
