HCLTech named OpenAI Advanced Partner

NEW YORK and NOIDA, India, Aug 6, 2026—[HCLTech](#), a leading global technology company, today announced that it has achieved OpenAI Advanced Partner status within the OpenAI Partner Network.

The OpenAI Partner Network is a global program for partners to build, sell, and deliver AI solutions with OpenAI. It brings together partners with deep industry expertise, delivery capabilities and customer relationships while equipping them with resources, enablement and support to help enterprises adopt OpenAI frontier models and products and turn them into measurable impact.

As an OpenAI Advanced Partner, HCLTech will continue working with OpenAI to help organizations build, deploy and scale AI-native Solutions responsibly, securely and at enterprise scale. HCLTech brings deep AI expertise across industries through its portfolio of sector-specific [Industry AI Solutions](#), helping enterprises use GPT-5.6 and ChatGPT Work to accelerate adoption and drive measurable business value.

HCLTech's AI-powered service transformation platform, [AI Force](#), is also integrated with OpenAI models to help enterprises accelerate productivity, enhance service experiences and drive greater value from their AI investments.

As one of the Global Systems Integrators selected by OpenAI as a partner, HCLTech continues to collaborate closely with OpenAI to help enterprises accelerate adoption and maximize business value from their AI investments.

"We're pleased to welcome HCLTech as an OpenAI Advanced Partner. The HCLTech team brings practical enterprise AI delivery experience across strategy, implementation and adoption," said Colleen Kapase, Vice President of Strategic Global Partnerships and Ecosystems, OpenAI. "Through the OpenAI Partner Network, HCLTech can help more enterprises move from AI pilots to measurable business impact."

"Being recognized as an OpenAI Advanced Partner reflects the strength of our strategic collaboration with OpenAI. Together, we are helping clients transition into new Agentic Operating model across values streams by building, deploying and scaling industrialized Enterprise AI operating systems and control towers to unlock measurable business value with AI," said Raghu Kidambi, Corporate Vice President, AI Partnerships.

Building on its collaboration with OpenAI, HCLTech is expanding its OpenAI Agentic Transformation Studio to help enterprises build, govern and scale AI across business functions and industry workflows. The offering combines AI Governance, Agentic Engineering, AgentOps and optimization capabilities to accelerate AI adoption and deliver measurable business value.

About HCLTech
