PRESS RELEASE

GACL reports Highest-Ever Quarterly Revenue in Q1 FY 2026-27. EBITDA Rises by 83%.

Strong operating performance, higher renewable energy integration and strategic growth projects reinforce the Company's long-term value creation roadmap.

The Board of Directors, at its meeting held on 23rd July, 2026 at Ahmedabad approved the Unaudited Financial Results for the 1st quarter ended on 30th June, 2026 on standalone as well as consolidated basis.

Smt. Avantika Singh, IAS, Managing Director of the Company said "GACL delivered a strong start to FY 2026-27, achieving its highest ever Quarterly Sales revenue for the 1st Quarter of Financial Year 2026-27 has increased by Rs.151.39 Crores (i.e. by 14%) to Rs.1,224.84 Crores as compared to Rs.1,073.45 Crores of the corresponding quarter of Previous year. She further shared that during this quarter; the Company could achieve highest ever quarterly revenue on account of product mix optimization to increase realization and expanding product footprint through new export markets. EBITDA for the quarter increased by Rs.104 Crores (i.e. by 83%) to Rs.229 Crores as compared to EBITDA of Rs.125 Crores for the corresponding quarter of previous year. Profit Before Tax for the quarter has increased by Rs.100 Crores (i.e. by 1000%) to Rs.110 Crores as compared to Profit Before Tax of Rs.10 Crores for the corresponding quarter of previous year. Energy is continued focus area for the Company and during the first quarter of FY 2026-27, the Company could reduce energy costs as compared to corresponding quarter of previous year on account of increased share of renewable power. During the first quarter of FY 2026-27, the share of renewable energy has increased to 59% from 39%. This aligns with the Board's directive to expand renewable power usage and supports India's net-zero carbon commitments."

She further said "*The Board of Directors also granted in-principle approval for one more HCL synthesis Unit at Dahej with approximate project cost of Rs.55 Crores. This HCL synthesis Unit will further enhance better chlorine utilization and thus would enable the Company to optimize production of Caustic Soda at Dahej. Further, the Board has already approved to establish Phosphoric Acid plant at Dahej and therefore, the additional HCL to be generated from this HCL synthesis Unit would be utilized in the said Phosphoric Acid Plant. Further, the Board has also approved Vision 2047 document in line with the Hon'ble Prime Minister's national vision of Viksit Bharat @2047.*"

The Company continues to drive efficiency through **Project Ahvaan**, focusing on enhancing operating efficiency, cost cutting across various functional areas, optimum capacity utilization of various plants, enhancement of green energy in overall power basket of the Company, working on organization structure including talent management, capability enhancement, digitization & usage of AI, etc. These initiatives are expected to contribute to improved operational efficiencies in the short to long term.

About Gujarat Alkalies and Chemicals Limited

Gujarat Alkalies and Chemicals Limited (GACL) was established in 1973 in Vadodara, Gujarat, to manufacture Caustic Soda and allied products. Promoted by the Government of Gujarat, GACL has emerged as one of the largest manufacturers of caustic soda, employing cutting-edge technology, groundbreaking research and development, and strategic diversification. From an initial capacity of 37,425 TPA caustic soda, the organization has enhanced its capacity to 8,52,400 TPA, with manufacturing facilities spread over four complexes, two in Vadodara and two in Dahej. GACL now offers more than 35 products used as raw materials in various industries. By providing quality raw materials used in numerous applications, GACL contributes to the growth of the chemical industry in the country.
