ENFORCEMENT OF CIVIL LIABILITIES

The Company is a Public Limited (Listed) Company under the laws of India and all the Directors and all Executive Officers are residents of India. It may not be possible or may be difficult for investors to affect service of process upon the Company or these other persons outside India or to enforce against them in courts in India, judgments obtained in courts outside India. India is not a party to any international treaty in relation to the automatic recognition or enforcement of foreign judgments.

However, recognition and enforcement of foreign judgments is provided for under Sections 13, 14 and 44A of the Code of Civil Procedure, 1908, as amended (the "Civil Procedure Code"). Section 44A of the Civil Procedure Code provides that where a certified copy of a decree of any superior court (within the meaning of that section) in any country or territory outside India which the Government of India has by notification declared to be a reciprocating territory, is filed before a district court in India, such decree may be executed in India as if the decree has been rendered by a district court in India. Section 44A of the Civil Procedure Code is applicable only to monetary decrees or judgments not being in the nature of amounts payable in respect of taxes or other charges of a similar nature or in respect of fines or other penalties. Section 44A of the Civil Procedure Code does not apply to arbitration awards even if such awards are enforceable as a decree or judgment. Among others, the United Kingdom, Singapore, Hong Kong and the United Arab Emirates have been declared by the Government of India to be reciprocating territories within the meaning of Section 44A of the Civil Procedure Code.

The United States has not been declared by the Government of India to be a reciprocating territory for the purposes of Section 44A of the Civil Procedure Code. Under Section 14 of the Civil Procedure Code, an Indian court shall, on production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction unless the contrary appears on the record; but such presumption may be displaced by proving want of jurisdiction.

A judgment of a court in any non-reciprocating territory, such as the United States, may be enforced in India only by a suit upon the judgment subject to Section 13 of the Civil Procedure Code, and not by proceedings in execution. Section 13 of the Civil Procedure Code, which is the statutory basis for the recognition of foreign judgments (other than arbitration awards), states that a foreign judgment shall be conclusive as to any matter directly adjudicated upon between the same parties or between parties under whom they or any of them claim litigating under the same title except where:

- The judgment has not been pronounced by a court of competent jurisdiction.
- The judgment has not been given on the merits of the case.
- The judgment appears on the face of the proceedings to be founded on an incorrect view of international law or a refusal to recognize the law of India in cases where such law is applicable.
- The proceedings in which the judgment was obtained are opposed to natural justice.
- The judgment has been obtained by fraud; and/or
- The judgment sustains a claim founded on a breach of any law in force in India.

A suit to enforce a foreign judgment must be brought in India within three years from the date of the judgment in the same manner as any other suit filed to enforce a civil liability in India. It is unlikely that a court in India would award damages on the same basis as a foreign court if an action is brought in India. In addition, it is unlikely that an Indian court would enforce foreign judgments if it considered the amount of damages awarded as excessive or inconsistent with public policy or if the judgments are in breach of or contrary to Indian law. A party seeking to enforce a foreign judgment in India is required to obtain prior approval from the Reserve Bank of India to repatriate any amount recovered pursuant to execution of such judgment. Any judgment in a foreign currency would be converted into Rupees on the date of such judgment and not on the date of payment and any such amount may be subject to income tax in accordance with applicable laws. The Company cannot predict whether a suit brought in an Indian court will be disposed of in a timely manner or be subject to considerable delays.

Similarly, statements that describe our objectives, plans or goals are also forward-looking statements. However, these are not the exclusive means of identifying forward-looking statements. All statements regarding our Company’s expected financial conditions, results of operations, business plans and prospects are forward-looking statements. These forward-looking statements may include planned projects, revenue and profitability (including, without limitation, any financial or operating projections or forecasts) and other matters discussed in this Draft Letter of Offer that are not historical facts.

These forward-looking statements contained in this Draft Letter of Offer (whether made by our Company or any third party), are predictions and involve known and unknown risks, uncertainties, assumptions and other factors that may cause the actual results, performance or achievements of our Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements or other projections. All forward-looking statements are subject to risks, uncertainties and assumptions about our Company that could cause actual results to differ materially from those contemplated by the relevant forward - looking statement. Important factors that could cause our actual results, performances and achievements to differ materially from any of the forward-looking statements include, among others:

1. We have, in the past, have been subjected to a Corporate Insolvency Resolution Plan. SRA, Sri Mukesh Goel is required to adhere to compliances with the various requirements as mandated under the Resolution Plan approved by the NCLT. Further, there can be no assurance that SRA would be in a position to comply with the requirements of the Resolution Plan or that the implementation of the Resolution Plan will successfully address our cash flow and liquidity concerns.
2. Our Company was admitted into corporate insolvency resolution process as per the Insolvency and Bankruptcy Code, 2016 and a resolution plan was submitted and approved. Pursuant to the Approved Resolution Plan, all litigation against our Company, stands extinguished and the debts have been restructured. If SRA default in compliance with the material provisions of the Approved Resolution Plan, we may have to undergo liquidation process as per the provisions of IBC, 2016.
3. Certain proceedings/applications relating to implementation of the approved Resolution Plan are pending before the Hon’ble NCLT and any adverse order or outcome may adversely affect the Company.
4. We primarily operate on a purchase order-based model and do not have long-term contractual arrangements with our customers, which may adversely affect the stability and predictability of our revenues.
5. Our Company is dependent on external suppliers for our raw material requirements.
6. Our business is dependent on our manufacturing facility, and any disruption in manufacturing operations could adversely affect our business, results of operations and financial condition.
7. Our revenue from operations is substantially concentrated in the State of West Bengal and any adverse developments affecting our operations in this region may have a material adverse effect on our business, financial condition and results of operations.
8. The steel industry is exposed to significant fluctuations in raw material and finished goods prices, which may adversely affect our business, results of operations, cash flows and financial condition.
9. Our business is working capital intensive and requires substantial financing for our day-to-day operations. Any inability to obtain adequate working capital in a timely manner may adversely affect our business, results of operations and financial condition.
10. We face intense competition in our businesses, which may limit our growth and prospects.

For further discussion of factors that could cause the actual results to differ from the expectations, see the sections “Risk Factors” on pages, 23. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated.

Forward-looking statements reflect the current views of our Company as at the date of this Draft Letter of Offer and are not a guarantee or assurance of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Accordingly, we cannot assure investors that the expectations reflected in these forward-looking statements will

prove to be correct and given the uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements. If any of these risks and uncertainties materialize, or if any of our Company's underlying assumptions prove to be incorrect, the actual results of operations or financial condition of our Company could differ materially from that described herein as anticipated, believed, estimated or expected. All subsequent forward-looking statements attributable to our Company are expressly qualified in their entirety by reference to these cautionary statements. None of our Company, our directors nor any of their respective affiliates has any obligation to update or otherwise revise any statements reflecting circumstances arising after the date of this Draft Letter of Offer or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

In accordance with the SEBI (ICDR) Regulations, our Company will ensure that investors are informed of material developments from the date of this Draft Letter of Offer until the time of receipt of the listing and trading permission.

This summary should be read in conjunction with and is qualified by, the more detailed information appearing in this Draft Letter of Offer, including the sections titled “*Risk Factors*”, “*Objects of the Issue*” and “*Outstanding Litigations, Defaults and Material Developments*” beginning on pages 23, 55, and 69 of this Draft Letter of Offer, respectively.

SUMMARY OF OUR BUSINESS

Our Company was originally incorporated as a private limited company in the name of Vinita Projects Private Limited (“Company”) in the year 1996 and is engaged in the manufacturing of mild steel structural products and concrete reinforcement steel, primarily catering to the infrastructure, construction and engineering sectors. Subsequently, the name of the Company was changed to ‘Aanchal Ispat Private Limited’ in the year 2012. Thereafter, the Company was converted into a public limited company in the year 2014 and renamed as ‘Aanchal Ispat Limited’. Following the conversion, the equity shares of the Company were listed on the BSE SME Platform in 2014 and subsequently migrated to the BSE Main Board in 2017.

We manufacture a wide range of structural steel products, including mild steel angles, channels, flats, rounds, and squares, which are widely used in construction, fabrication, and various industrial applications. Our angles and channels are primarily used in construction of buildings, bridges, industrial sheds and pre-engineered structures, while our rounds, flats and squares cater to fabrication, engineering components and general industrial usage. These steel products are marketed under our brand “Relicon” conforming to IS:2062 standard of Bureau of Indian Standards (BIS).

In addition to the manufacturing and sale of structural steel products, our Company is also engaged in the trading of TMT bars, which are widely used in residential, commercial and infrastructure construction projects. Also, we undertake job work activities for processing and rolling of steel products for third-party customers based on their specific requirements. Further, as part of the manufacturing process, by-products such as mild steel scrap and mill scale are generated, which are sold in the market. The sale of these by-products helps the Company generate additional revenue and ensures effective utilization of resources arising from manufacturing operations.

Our company manufacture its products in a wide range of sizes and specifications, including customized lengths, to meet diverse and project-specific requirements. Our business operates on a hybrid model, through which we serve customers via both direct project-based sales and a well-established dealer network. We supply our products to EPC contractors, infrastructure companies, fabricators, and also provide value-added technical support by assisting them in selecting the most appropriate steel products based on their specific application needs.

Our manufacturing facilities are located at National Highway-6, Mouza-Chamrail, Howrah, West Bengal, and comprise two hot re-rolling units with an aggregate installed production capacity of 89,000 MT per annum. INTERNAL RISK FACTORS

- 1. We have, in the past, have been subjected to a Corporate Insolvency Resolution Plan. SRA, Sri Mukesh Goel is required to adhere to compliances with the various requirements as mandated under the Resolution Plan approved by the NCLT. Further, there can be no assurance that SRA would be in a position to comply with the requirements of the Resolution Plan or that the implementation of the Resolution Plan will successfully address our cash flow and liquidity concerns.***

M/s Aldous Commodities Private Limited, operational creditor had filed a Company Petition for initiation of Corporate Insolvency Resolution Process against our Company under the provisions of The Insolvency and Bankruptcy Code, 2016 before the Hon'ble National Company Law Tribunal, Special Bench (Court II), Kolkata. After due process of CIRP, the Hon'ble National Company Law Tribunal, Kolkata vide Order No. IA(IBC) (PLAN) No. 9/(KB)/2024 in CP(IB) No. 1518/(KB)/2020 dated March 27, 2025 approved the Resolution Plan submitted by Mr. Mukesh Goel on him being an MSME Promotor permissible to submit a resolution plan under section 240A of IBC. The Resolution Plan inter alia, stipulates the settlement amount and schedule of payment to various categories of creditors including statutory liabilities.

There is no assurance that SRA will be able to adhere to the schedule of payment to various categories of creditors or comply with other requirements stipulated in the Resolution Plan or that the Resolution Plan would be fully successfully implemented. Further, there can be no assurance that the implementation of the Resolution Plan will result in our Company being able to raise required finance to meet its operational requirements or turn its operations profitable. There is also no assurance that these measures would enable us to meet our cash flow and liquidity requirements in future.

2. ***Our Company was admitted into corporate insolvency resolution process as per the Insolvency and Bankruptcy Code, 2016 and a resolution plan was submitted and approved. Pursuant to the Approved Resolution Plan, all litigation against our Company, have been withdrawn and the debts have been restructured. If SRA default in compliance with the material provisions of the Approved Resolution Plan, we may have to undergo liquidation process as per the provisions of IBC, 2016.***

Our Company was admitted into corporate insolvency resolution process (“CIRP”) as per the Insolvency and Bankruptcy Code, 2016 (“Code”) pursuant to an order dated September 12, 2023 passed by the National Company Law Tribunal, Special Bench (Court II), Kolkata (“NCLT”). Further to the CIRP, a resolution plan was submitted to and approved by the members of the committee of creditors (“Approved Resolution Plan”) and subsequently approved by the NCLT on March 27, 2025. As per the approved resolution plan, the management and control of the Company were handed over to the resolution applicant with effect from March 27, 2025. While we have been in compliance with the provisions of the Approved Resolution Plan, any material non-compliance with the Approved Resolution Plan may subject us to new litigation proceedings, which may include delay in implementation of the Approved Resolution Plan or liquidation proceedings may be initiated against our Company.

3. ***Certain proceedings/applications relating to implementation of the approved Resolution Plan are pending before the Hon’ble NCLT and any adverse order or outcome may adversely affect the Company.***

The Resolution Plan of our Company was approved by the Hon’ble National Company Law Tribunal, Kolkata Bench (“NCLT” or “Tribunal”) vide order dated March 27, 2025 (“Approval Order”) passed in IA (IBC) (Plan) No. 9/KB/2024 in CP (IB) No. 1518/KB/2020. The Approval Order contained certain directions at Paragraphs 28 and 39 thereof, directing, inter alia, that personal guarantees furnished by the personal guarantors of the Corporate Debtor be invoked and appropriate action be initiated against them in accordance with law. However, the said directions were inconsistent with, and contrary to, the express terms of the Resolution Plan, which had been unanimously approved by the Committee of Creditors with 100% (one hundred percent) voting share, and which stipulated that all personal guarantees of the Applicant would stand released upon full and complete implementation of the Resolution Plan. Accordingly, no occasion arose or exist for invocation of such personal guarantees under the terms of the Resolution Plan as approved.

In view of the aforesaid inconsistency, SRA’s Application (AT)(Ins) No. 1192 of 2025 before the Hon’ble National Company Law Appellate Tribunal (“NCLAT”) challenging the said directions of the hon’ble NCLT Kolkata Bench-II. During the course of hearing before the Hon’ble NCLAT on August 11, 2025, the Committee of Creditors confirmed that the observations contained in Paragraphs 28 and 39 of the Approval Order were unwarranted, without jurisdiction, and inconsistent with the terms of the Resolution Plan as approved by the COC. The Hon’ble NCLAT accordingly deleted the said Paragraphs 28 and 39 from the Approval Order vide its order dated August 11, 2025, thereby resolving the uncertainty created by such directions in the resolution plan approval order.

Subsequent to the aforesaid order of the Hon’ble NCLAT dated August 11, 2025, SRA placed the relevant facts before the Monitoring Committee, seeking recognition of August 11, 2025 as the effective commencement date of the Resolution Plan (“X” Date) in terms of Clause (oo) thereof, which provides that in the event implementation of the Resolution Plan is affected due to pendency of appellate proceedings, the date of approval of the Tribunal shall automatically stand shifted to the date on which such impediment is removed. Subsequently, the Chairmen of monitoring Committee issued a communication alleging failure on the part of SRA to honour the upfront payment obligations stipulated under the Resolution Plan and left the decision to consider the “X” date as 11.08.2025 on the monitoring committee and finally to be considered by the Hon’ble NCLT Kolkata Bench-II, however the monitoring committee member and sole financial creditor acknowledge the prayer of the SRA to consider “X” date as 11.08.2025 subject to certain terms and final approval by the Hon’ble NCLT Kolkata Bench-II.

In view of the foregoing, SRA has filed the present Application before the Hon’ble NCLT seeking, inter alia, the following reliefs: (i) a declaration that the effective commencement date of the Resolution Plan be treated as August 11, 2025 (i.e., the date on which the impediment created by the NCLAT proceedings was removed) in lieu of March 27, 2025 (being the original date of the Approval Order), in accordance with Clause (oo) of the Resolution Plan; and (ii) a direction to the monitoring committee to recalculate and communicate the revised implementation timelines to all stakeholders accordingly.

The aforesaid Application is presently pending adjudication before the Hon’ble NCLT and the next date of

hearing is scheduled on July 15, 2026. We are unable to predict the outcome of such proceedings or the time within which the same may be finally disposed off. Any adverse order passed by the Hon'ble NCLT, or any delay in the disposal of such proceedings, may adversely impact the implementation of the Resolution Plan and, consequently, our business, results of operations, financial condition and prospects.

There can be no assurance that the pending proceedings before the Hon'ble NCLT will be decided in favour of our Company or that the implementation of the Resolution Plan will not be delayed or otherwise adversely affected. Investors are accordingly advised to carefully consider this risk factor prior to making any investment decision.

4. Our Company was classified as a non performing asset in the past, which may adversely affect our reputation, financial condition and ability to raise future financing.

In the past, our Company had defaulted in repayment obligations towards lending bank and was accordingly classified as a non performing assets (NPA) during & post COVID-19 by such lender in accordance with the applicable regulatory framework issued by the Reserve Bank of India. Such classification was made in connection with financial obligations.

There can be no assurance that such classification may not continue to adversely affect our reputation, relationships with stakeholders, and our ability to obtain additional financing or enter into future business arrangements. Any adverse perception arising from such classification may adversely affect our business operations, financial condition and results of operations.

5. Our Company and our Promoters are party to certain legal proceedings. Any adverse decision in such proceedings may have a material adverse effect on our business, results of operations and financial condition.

Our Company and our Promoter are party to certain legal proceedings. These legal proceedings are pending at different levels of adjudication before various legal forums. A summary of outstanding litigation proceedings involving our Company and Promoters, as on the date of this Draft Letter of Offer as disclosed in terms of the SEBI ICDR Regulations is provided below:

Particulars	Outstandin g crimi nal proce edings	Outstanding actions (including notices received) by regulatory and/ or statutory authorities alleging material violations of Applicable Law	Economic offences where proceedings have been initiated against our Company	Mate rial civil litiga tions	Tax Pro ceed ings	Aggregate amount involved (₹ in lakhs)
Against our Company	Nil	Nil	Nil	1	1	85.00
By our Company	Nil	Nil	Nil	Nil	Nil	Nil
Against our Directors and Promoters	Nil	N.A.	N.A.	Nil	N.A.	Nil
By our Directors and Promoters	Nil	N.A.	N.A.	1	N.A.	Not Ascertaina ble

Involvement in such proceedings could consume financial resources and divert time and attention from the management of our Company. We cannot assure you that any of the outstanding litigation matters will be settled in favor of our Company, or that no additional liability will arise out of these proceedings. An adverse outcome in any of these proceedings may affect our credit ratings, reputation, business, which could have an adverse effect on our financial condition, results of operations and cash flows.

Additionally, there may be proceedings/ matters involving our Company before various legal/ judicial bodies

including those that may be criminal, civil or tax matters in nature in relation to which our Company has not received any notice or summons or any other form of communication, or such proceedings may not have been admitted before the respective courts or adjudicating authority and accordingly such matters have not been disclosed in this Draft Letter of Offer. Furthermore, there may be certain outstanding matters, in the future, for which the aforementioned parties may not have been served with summons or relevant case documents, which may result in adverse findings against us. An adverse outcome in any of these proceedings, either individually or in aggregate, may affect our reputation, business operations, cash flows, financial condition, results of operations and prospects.

6. *The Company has undergone substantial restructuring of its liabilities and capital structure pursuant to the approved Resolution Plan and has incurred accumulated losses resulting in erosion of equity, and our Statutory Auditors have included emphasis of matter paragraphs in their reports on our Financial Statements.*

Pursuant to the approved Resolution Plan under the Insolvency and Bankruptcy Code, 2016 (“IBC”), the Company has undergone significant restructuring and reorganisation of its liabilities and capital structure, including settlement/restructuring of liabilities, reorganisation/reduction of equity share capital and implementation of various restructuring measures contemplated under the approved Resolution Plan.

The operations of the Company were adversely affected due to the Corporate Insolvency Resolution Process (“CIRP”) initiated against the Company and although business operations of the Company have gradually resumed subsequent to approval of the Resolution Plan by the Hon’ble National Company Law Tribunal (“NCLT”) in March 2025, there can be no assurance regarding successful revival of operations, improvement in financial performance or long-term sustainability of the business of the Company. The long-term impact of the restructuring measures, accumulated losses and CIRP proceedings on the business operations, financial condition, cash flows and profitability of the Company remains uncertain and may adversely affect the Company.

Further, our Statutory Auditors have included emphasis of matter paragraphs in their reports on our Audited Financial Statements in relation to certain matters concerning the financial position and operations of the Company. For further details, see “Financial Statements” beginning on page 63 of this Draft Letter of Offer.

7. *We primarily operate on a purchase order-based model and do not have long-term contractual arrangements with our customers, which may adversely affect the stability and predictability of our revenues.*

Our business is largely dependent on purchase orders received from our customers, and we generally do not enter into long-term or exclusive supply agreements with them. Accordingly, our revenue is generated on an order-to-order basis, and there is no assurance regarding the volume, value, frequency, or continuity of future orders from our existing customers.

In the absence of long-term contractual commitments, our customers retain the flexibility to modify, reduce, defer or discontinue their purchase orders at any point in time, subject to prevailing market conditions, pricing dynamics, and their internal procurement strategies. We are also exposed to the risk that customers may shift their procurement requirements to other suppliers based on factors such as pricing, availability, quality, delivery performance or changes in their vendor approval policies.

Further, certain customers may choose to reduce their dependence on external suppliers by increasing in-house procurement or by diversifying their vendor base, which may impact the continuity of orders placed with us. There can be no assurance that we will be able to secure repeat orders from our existing customers or successfully replace any lost business with orders from new customers in a timely manner or at similar margins.

As a result, our revenues are subject to significant fluctuations from period to period, and we may face challenges in accurately forecasting demand, planning production schedules, optimising capacity utilisation, and managing working capital requirements. Any significant reduction or discontinuation of orders from key customers could have a material adverse effect on our business, financial condition, cash flows and results of operations.

8. *Our Company is dependent on external suppliers for our raw material requirements.*

Our Company is dependent on third-party suppliers for the procurement of raw materials required for our manufacturing operations. We do not manufacture such raw materials in-house and rely on external suppliers for their timely availability, quality, and pricing.

Any disruption in the supply of raw materials - whether due to supplier related constraints, delays in delivery, price volatility, transportation bottlenecks, regulatory changes, or force majeure events—could adversely affect our changes in commercial terms production schedules and operational efficiency. Further, our suppliers may be unable or unwilling to continue supplying such raw materials on acceptable commercial terms, or at all.

We may not always be able to identify or qualify alternative suppliers within a short period or on comparable terms. Any delay in procurement, inability to replace suppliers, or increase in procurement costs may lead to interruptions in manufacturing, increased operating expenses, and reduced margins. In addition, dependence on a limited number of suppliers for certain raw materials may increase our exposure to supply-side risks.

9. Our business is dependent on our manufacturing facility, and any disruption in manufacturing operations could adversely affect our business, results of operations and financial condition.

Our manufacturing operations are currently concentrated at our single manufacturing facility situated at Howrah, West Bengal. As a result, our ability to manufacture and supply structural steel products is significantly dependent on the smooth and uninterrupted operations of this facility. Any disruption, slowdown or shutdown at this facility may adversely impact our ability to fulfil customer orders within stipulated timelines and maintain continuity of supply.

Our manufacturing operations are subject to a variety of operational, technical, environmental and external risks. These include, but are not limited to, breakdown or failure of plant and machinery, obsolescence of equipment, fire incidents, industrial accidents, labour unrest or strikes, shortage or non-availability of skilled labour, power outages or fluctuations, and interruptions in the supply of essential utilities such as electricity, fuel and water. In addition, delays or disruptions in the procurement of raw materials or transportation logistics may adversely affect production schedules and delivery timelines.

We are also exposed to risks arising from natural calamities such as floods, cyclones, earthquakes or other adverse weather conditions, which may cause physical damage to our facility or result in temporary suspension of operations. Further, any changes in government regulations, environmental laws, or delays in obtaining, renewing or complying with statutory approvals, licences and consents required for our operations may adversely impact our manufacturing activities.

Since our operations are concentrated at a single location, any prolonged disruption at our manufacturing facility may not be immediately or easily mitigated by shifting production to alternative sites. Such disruptions may result in loss of production output, delay or cancellation of orders, increased operating costs, contractual penalties, loss of customers and deterioration of our reputation. Consequently, any such events could have a material adverse effect on our business, financial condition, cash flows and results of operations.

10. Our revenue from operations is substantially concentrated in the State of West Bengal and any adverse developments affecting our operations in this region may have a material adverse effect on our business, financial condition and results of operations.

Our revenue from operations is substantially concentrated in the State of West Bengal. During Fiscal 2026, Fiscal 2025 and Fiscal 2024, revenue generated from West Bengal contributed approximately 98.41%, 99.93% and 100.00%, respectively, of our total revenue from operations. Accordingly, our business operations and profitability are substantially dependent on the economic conditions, regulatory environment, infrastructure development, political stability and overall market conditions prevailing in West Bengal.

The following table sets forth the geographical bifurcation of our revenue from operations for the periods indicated:

(Amount in Lakhs)

Locations	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Amount	In % from Revenue from operations	Amount	In % from Revenue from operations	Amount	In % from Revenue from operations
West Bengal	9,718.84	98.41%	15,102.40	99.93%	10,934.70	100.00%
Odisha	147.80	1.50%	-	-	-	-
Punjab	9.68	0.10%	-	-	-	-
Jharkhand	-	-	2.46	0.02%	-	-
Maharashtra	-	-	5.59	0.04%	-	-
Jammu & Kashmir	-	-	2.59	0.02%	-	-
Total	9,876.32	100.00%	15,113.04	100.00%	10,934.70	100.00%

Any adverse change in the business environment in West Bengal, including slowdown in industrial activity, changes in government policies and regulations, local competition, labour unrest, disruption in transportation and logistics, natural calamities, changes in taxation policies, or any other region-specific developments may adversely affect our ability to continue operations and generate revenues from such region. Further, any inability to diversify our geographical presence and customer base may increase our exposure to risks associated with concentration of operations in a single state.

In the event that demand for our products and services declines in West Bengal or our operations in such state are disrupted for any reason, our business, cash flows, financial condition and results of operations could be materially and adversely affected.

11. The steel industry is exposed to significant fluctuations in raw material and finished goods prices, which may adversely affect our business, results of operations, cash flows and financial condition.

Our business is dependent on the procurement of key raw materials used in the manufacture of structural steel products, including mild steel billets, mild steel ingot and coal. The prices and availability of these raw materials, as well as the selling prices of finished steel products, are subject to significant volatility due to various factors, including fluctuations in domestic and international demand-supply conditions, cyclical nature of the steel industry, global commodity price trends, inflationary pressures, changes in transportation and logistics costs, variation in power and fuel costs, exchange rate fluctuations, import-export policies, trade restrictions, geopolitical developments and changes in applicable government regulations.

The steel industry is inherently cyclical in nature, and any downturn in the industry cycle or reduction in demand for steel products may adversely impact realizations and margins. In periods of rising raw material prices, we may face pressure on our operating margins if we are unable to pass on such increases to our customers in a timely manner or at all. Conversely, in periods of declining steel prices, we may experience inventory losses or write-downs on raw materials or finished goods already procured or manufactured at higher costs.

Further, there is no assurance that we will be able to pass on increases in input costs to our customers immediately or fully, as pricing is influenced by competitive market conditions, customer negotiations, order volumes and prevailing demand trends. Any delay or inability to adjust selling prices in line with input cost increases may adversely affect our profitability.

In addition, our operations are exposed to risks relating to supply chain disruptions, including delay, shortage or non-availability of raw materials, as well as failure of suppliers to meet required quality specifications or delivery timelines. Any such disruptions may result in production delays, increased procurement costs, inability to meet customer orders on time and loss of business opportunities.

Any adverse movement in raw material costs or finished steel prices, or sustained inability to maintain appropriate pricing margins, could have a material adverse effect on our business, financial condition, cash flows and results of operations.

12. The entire Net Proceeds from the Issue are proposed to be utilised towards implementation funding

requirements and settlement/payment obligations under the NCLT approved Resolution Plan and any inability to utilise the Net Proceeds in the manner contemplated may adversely affect the Company.

The Company proposes to utilise the entire Net Proceeds from the Issue towards implementation funding requirements and settlement/payment obligations contemplated under the Resolution Plan approved by the Hon'ble National Company Law Tribunal, Kolkata Bench ("NCLT") under the provisions of the Insolvency and Bankruptcy Code, 2016 ("IBC"), including payment obligations towards secured financial creditors and other stakeholders. Accordingly, the successful implementation of the approved Resolution Plan is substantially dependent upon the Company's ability to successfully complete the Issue and utilise the Net Proceeds in the manner currently contemplated.

Any inability or delay in completion of the Issue, receipt of the Net Proceeds, deployment of funds, implementation of the approved Resolution Plan or fulfilment of payment obligations contemplated thereunder may adversely affect the business, operations, financial condition, cash flows and prospects of the Company.

Further, the aggregate implementation funding requirements contemplated under the approved Resolution Plan are substantially higher than the proposed Issue size and accordingly the Company may require additional funding arrangements through debt, equity and/or other financing modes for implementation of the approved Resolution Plan and revival of business operations. There can be no assurance that such funding will be available on commercially acceptable terms or at all.

Additionally, the proposed deployment schedule of the Net Proceeds is based on current estimates and assumptions of the management of the Company and may vary due to business requirements, legal proceedings, regulatory developments, implementation requirements under the approved Resolution Plan and other factors beyond the control of the Company. Any delay or inability in utilisation of the Net Proceeds towards the proposed objects may adversely affect the Company and the implementation of the approved Resolution Plan.

13. The implementation timelines and payment obligations contemplated under the approved Resolution Plan are subject to proceedings/applications pending before the Hon'ble NCLT and any adverse outcome may adversely affect utilisation of the Net Proceeds and implementation of the approved Resolution Plan.

Subsequent to approval of the Resolution Plan by the Hon'ble NCLT, the Successful Resolution Applicant had preferred an appeal before the Hon'ble National Company Law Appellate Tribunal ("NCLAT") in relation to certain observations/directions contained in paragraphs 28 and 39 of the Hon'ble NCLT order pertaining to invocation of personal guarantees. The Hon'ble NCLAT, vide its order dated August 11, 2025, allowed the appeal and deleted the aforesaid observations/directions from the NCLT order.

Further, pursuant to the aforesaid NCLAT order and in accordance with the terms of the approved Resolution Plan, the Successful Resolution Applicant has filed an application before the Hon'ble NCLT seeking, inter alia, recognition/recalculation of the implementation timelines under the approved Resolution Plan considering the period during which the implementation of the Resolution Plan remained impacted on account of pendency of proceedings before the Hon'ble NCLAT. The said application is presently pending adjudication before the Hon'ble NCLT.

The implementation of the approved Resolution Plan, including settlement/payment obligations contemplated thereunder, may be affected by the outcome of such proceedings/applications and any consequential orders, directions, clarifications, modifications or conditions imposed by the Hon'ble NCLT. There can be no assurance that the pending proceedings/applications will be decided in favour of the Company or within the timelines currently anticipated by the Company.

Any adverse order, modification, clarification, delay or additional condition imposed in relation to implementation of the approved Resolution Plan may adversely affect the Company's ability to implement the approved Resolution Plan in the manner presently contemplated and may also adversely affect the timing and manner of deployment/utilisation of the Net Proceeds from the Issue.

14. Our business is working capital intensive and requires substantial financing for our day-to-day operations. Any inability to obtain adequate working capital in a timely manner may adversely affect our business, results of operations and financial condition.

Our Company is engaged in the manufacturing of structural steel products, which is inherently working capital intensive in nature. Our operations require significant deployment of funds towards procurement and maintenance of inventory, including raw materials such as billets and other inputs, as well as work-in-progress and finished goods inventory to ensure timely execution of customer orders. In addition, we are required to extend credit periods to certain customers in the ordinary course of business, resulting in substantial blockage of funds in trade receivables.

Our working capital requirements are further influenced by the cyclical and volatile nature of the steel industry, where fluctuations in raw material prices and supply-demand conditions may necessitate higher inventory levels to ensure uninterrupted production and timely fulfilment of customer commitments. As a result, our cash conversion cycle may vary significantly depending on procurement conditions, production schedules, customer credit terms, and overall market demand.

Any delay in realisation of trade receivables, extension of customer credit periods, increase in inventory holding period, or adverse movement in raw material prices may result in higher working capital requirements and increased reliance on external borrowings. There is no assurance that adequate working capital facilities will continue to be available to us on commercially acceptable terms, or at all, in the future.

We are also dependent on banking and financial institutions for meeting a significant portion of our working capital requirements. Any reduction, restriction, withdrawal or non-renewal of existing working capital limits by lenders, or any deterioration in our credit profile, may adversely affect our liquidity position and ability to fund day-to-day operations.

Further, any tightening of liquidity in the financial markets, increase in interest rates, or changes in lending policies of financial institutions may increase our borrowing costs and further strain our cash flows. Any such events may adversely impact our ability to procure raw materials, maintain inventory levels, meet operational expenses, fulfil customer orders on time and implement our growth plans.

Consequently, any inability to effectively manage our working capital cycle or obtain adequate financing in a timely manner could have a material adverse effect on our business, results of operations, cash flows and financial condition.

15. We face intense competition in our businesses, which may limit our growth and prospects.

Our Company faces significant competition from other players in the iron and steel industry. In particular, we compete with other brands present in the markets in which we are present. We compete on the basis of a number of factors, including execution, quality and depth of product offerings, innovation, reputation and price. Our competitors may have advantages over us, including, but not limited to:

- Substantially greater financial resources;
- Longer operating history than in certain of our businesses;
- Greater brand recognition among consumers;
- Larger customer bases in and outside India; or
- More diversified operations which allow profits from certain operations to support others with lower profitability.

These competitive pressures may affect our business, and our growth will largely depend on our ability to respond in an effective and timely manner to these competitive pressures.

16. We require certain approvals and licenses in the ordinary course of business and the failure to successfully obtain/renew such registrations would adversely affect our operations, results of operations and financial condition.

We are governed by various laws and regulations for our business and operations. We are required, and will continue to be required, to obtain and hold relevant licenses, approvals and permits at state and central government levels for doing our business. The approvals, licenses, registrations and permits obtained by us may contain conditions, some of which could be onerous.

These laws and regulations governing us are increasingly becoming stringent and may in the future create substantial compliance or liabilities and costs. While we endeavour to comply with applicable regulatory

requirements, it is possible that such compliance measures may restrict our business and operations, result in increased cost and onerous compliance measures, and an inability to comply with such regulatory requirements may attract penalty.

Furthermore, we cannot assure you that the approvals, licenses, registrations and permits issued to us will not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any suspension or revocation of any of the approvals, licenses, registrations and permits that has been or may be issued to us may affect our business and results of operations.

17. We do not own any intellectual property and may be unable to obtain, maintain, protect, or enforce our brand identity and other proprietary rights.

As on the date of this Draft Letter of Offer, we do not have any registered intellectual property and have not filed any applications for registration of any intellectual property. Our business operations are therefore not supported or protected by any registered intellectual property rights and we rely entirely on unregistered rights, contractual confidentiality obligations and the know-how of our key personnel as the primary means of protecting any proprietary information and competitive advantage we may possess.

Further, our efforts to protect our intellectual property in India and abroad may not be adequate and any third-party claim on any of our unprotected intellectual property may lead to erosion of our business value and our reputation, which could adversely affect our operations. Third parties may also infringe or copy our registered brand name in India and abroad which has been registered by us in India. We may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our trademarks in India and abroad.

Further, if we do not maintain our brand name and identity, which we believe is one of the factors that differentiates us from our competitors, we may not be able to maintain our competitive edge in India and abroad. If we are unable to compete successfully, we could lose our customers, which would negatively affect our financial performance and profitability. Moreover, our ability to protect, enforce or utilize our brand name is subject to risks, including general litigation risks. Furthermore, we cannot assure you that such brand name will not be adversely affected in the future by actions that are beyond our control, including customer complaints or adverse publicity from any other source in India and abroad. Any damage to our brand name, if not immediately and sufficiently remedied, could have an adverse effect on our business and competitive position in India and abroad.

18. We rely on third-party transportation providers for all of our input materials and finished product distribution. Failure by any of our transportation providers to deliver our input materials and products on time or at all, could result in loss in sales.

We depend on third-party transportation to receive input materials required for our products and to deliver our finished products to our customers. We do not own any trucks or commercial vehicles and typically use third-party logistics providers for our product distribution and input materials procurement. This makes us dependent on such third-party transportation providers. Weather-related problems, strikes, or other events which affects third-party transportation could impair our ability to receive the raw materials and/or deliver the requisite quantities of products in time to our customers, which may result in cancellation or non-renewal of purchase orders, and could adversely affect the performance of our business, results of operations and cash flows. However, during the last three Financial Years, we have not experienced any material loss of sales on account of failure by any of our transportation providers to deliver input materials or finished products. Further, as we have not entered into any long-term or exclusive agreements with our transportation providers, if we lose one or more of our existing service providers or are required to engage alternative logistics providers, we may not be able to obtain transportation services on terms as favourable as those currently available to us. Any increase in transportation or logistics costs, or reduced availability of such services, could adversely affect our margins, operating results and financial condition.

19. Rapid technological changes and advancements in manufacturing processes may render our existing technologies obsolete or require us to incur significant capital expenditure to remain competitive.

Our business operations are dependent on the effective functioning and continuous modernization of our manufacturing technologies and equipment. Ongoing technological advancements in the industry may result in existing machinery, processes or production methods becoming obsolete or less competitive over time. In

order to maintain operational efficiency, product quality and cost competitiveness, we may be required to upgrade, replace or invest in new technologies, machinery and equipment on a periodic basis.

The adoption of new technologies or modernization of existing facilities may involve substantial capital expenditure, increased operating costs, temporary disruptions to production and additional training requirements for our workforce. There can be no assurance that such investments will result in commensurate improvements in productivity, cost efficiency or profitability. Further, any delay or inability to adopt new technologies in a timely manner may adversely affect our operational efficiency, product quality and competitive position.

If we are unable to anticipate or respond effectively to technological developments or if the cost of upgrading our manufacturing capabilities is higher than anticipated, our business operations, financial condition, results of operations and future prospects may be materially and adversely affected.

20. The price, at which we are able to obtain the raw material for manufacture of our finished products depend largely on prevailing market prices. Increase in costs of our raw materials could have a material adverse effect on our Company's business, profitability and results of operations and cash flows.

The table below shows the cost of materials consumed during the past three financial years:

(₹ in lakhs)

Particulars	Fiscal Year 2026		Fiscal Year 2025		Fiscal Year 2024	
	Amount	As a % of Total Expense	Amount	As a % of Total Expense	Amount	As a % of Total Expense
Total cost of materials consumed	8,206.04	83.25	14,347.88	91.59	9,641.62	82.58

Our inability to procure raw materials on terms more favourable, or at all, may constrain our production capabilities, may adverse effect on our business, financial condition and results of operations. Any increase in price of cost of inputs as well as limitations and/ or disruptions in the supply of such inputs, will adversely affect our business and financial condition. We cannot assure you that we will be able to timely or adequately implement price increases to offset any escalation in input costs.

Further, any substantial delay in supply or non-conformance to quality requirements by our suppliers can impact our ability to meet our customer requirements and thus impact our business and results of operations. We generally procure raw materials based on orders in hand and anticipated price trends.

In addition, the availability and price of our raw materials may be subject to a number of factors beyond our control, including economic factors, environmental factors and changes in government policies and regulations. There can be no assurance that we will always be able to procure required raw materials at acceptable prices or quantities, or that we will be able to pass on any increase in raw material costs to our customers.

While historically, we have not experienced a shortfall or limited availability of raw materials that has affected our operations, there can be no assurance that significant or prolonged supply interruptions or shortages will not occur in the future. Any inability on our part to procure sufficient quantities of raw materials, on commercially acceptable terms, may lead to a decline in our sales volumes and profit margins and adversely affect our results of operations. Further, the absence of long-term supply contracts may expose us to price volatility and supply risks, which could adversely impact our ability to meet customer demand in both the short and long term.

21. Our statutory auditors have included an emphasis in their report which may impact the accuracy and comparability of our financial statements.

Our statutory auditors have included an emphasis in their audit reports concerning several significant matters that may impact the accuracy, reliability, and comparability of our financial statements. These matters include delays in payments under approved resolution plans, and uncertainties around recoverability of certain advances, tradereceivables. For detailed please see – “Financial Statements” included in this Offer Document. Additionally, certain assessments related to asset impairment and recognition of income from recovery of bad debts involve management judgment and carry inherent uncertainty.

These issues, as detailed in the Audited Financial Statements could materially affect the Company's reported financial position and operational results. Investors should carefully evaluate these factors and the potential risks associated before making investment decisions.

22. We are subject to strict quality requirements and are consequently required to incur significant expenses to maintain our product quality. Any failure to comply with such quality standards may lead to cancellation of existing and future orders which may adversely affect our reputation, financial conditions, cash flows and results of operations.

Our Company is engaged in the business of manufacturing and supplying structural steel products. Given the nature of our products and the industry in which we operate, our customers maintain stringent quality standards and delivery timelines. Adherence to prescribed quality specifications and technical requirements is critical to our manufacturing process, and any deviation or defect in our products may result in rejection or cancellation of orders by our customers.

Further, any failure to deliver products within the agreed timelines or in the required quantities may adversely affect customer relationships and may result in order cancellations. Such events may also adversely impact our reputation, goodwill and future business prospects. In addition, our customers may seek price reductions, set-offs against outstanding payments, indemnification, or may modify their procurement strategies by insourcing production or substituting our products with alternative materials. Any such actions could have an adverse effect on our business operations, cash flows, results of operations and financial condition.

23. We derive a significant portion of our revenues from a limited number of clients. The loss of any significant clients may have an adverse effect on our business, financial condition, results of operations, and prospect.

Set out in the table below is the contribution of our top 10 customers to our revenue from operations for the financial year ended 2026, 2025 and 2024.

(₹ in Lakhs)

Concentrated Customers	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Amount (₹ in Lakhs)	In %	Amount (₹ in Lakhs)	In %	Amount (₹ in Lakhs)	In %
Top 1 customer	3,218.65	32.59%	11,285.90	74.68%	7,834.29	71.65%
Top 3 customers	4,207.06	42.60%	11,616.50	76.86%	8,732.20	79.86%
Top 5 customers	4,884.72	49.46%	11,913.83	78.83%	8,995.68	82.27%
Top 10 customers	5,577.37	56.47%	12,492.56	82.66%	9,187.73	84.02%
Total Revenue	9,876.32	100.00%	15,113.04	100.00%	10,934.70	100.00%

Our business heavily relies on our customer base, and the potential loss of any of our customers could have a negative impact on our sales and, consequently, our overall business and financial performance. If we were to lose one or more of our significant or key customers or experience a reduction in the volume of business they provide, it could result in adverse consequences for our business, financial health, and cash flow. We do not enter into long-term or binding contracts with our customers, and our business relationships are primarily based on purchase orders or ongoing commercial arrangements, which exposes us to the risk of sudden reduction or discontinuation of business without prior notice. As a result, we cannot guarantee that we will be able to maintain the same levels of business as we have historically or secure continued business from our major customers on mutually beneficial terms.

Additionally, reducing our dependence on a few key customers may pose challenges in the future. Furthermore, factors such as a decline in our product or service quality, increased competition, or shifts in market demand could jeopardize our ability to retain these valuable customers. There is no assurance that we will continue to generate the same amount of business, or any business at all, from these customers, and any loss of their business could significantly impact our revenue and overall financial performance. While our customer mix may naturally evolve with the addition of new clients in the ordinary course of operations, we maintain confidence in our ability to sustain existing business relationships and attract new customers.

24. We depend on a limited number of suppliers for raw materials. Any interruption in the availability of raw materials could adversely impact our operations. Further, any failure by our suppliers to provide raw materials to us on time or at all, or as per our specifications and quality standards could have an adverse impact on our ability to meet our manufacturing and delivery schedules.

The table below sets forth the contribution of our top 10 suppliers to the total Cost of Raw Materials Consumed for the Financial Years ended March 31, 2026, 2025 and 2024.

(₹ in Lakhs)

Concentrated suppliers	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Amount	In % of Total Purchases	Amount	In % of Total Purchases	Amount	In % of Total Purchases
Top 1 suppliers	2,899.74	33.45%	10,883.52	76.08%	7,315.51	76.91%
Top 3 suppliers	4,692.53	54.13%	12,021.49	84.03%	8,145.25	85.63%
Top 5 suppliers	5,754.53	66.38%	12,709.20	88.84%	8,738.81	91.87%
Top 10 suppliers	7,352.35	84.81%	13,808.59	96.52%	9,405.33	98.88%

We cannot assure that we will be able to get the same quantum and quality of supplies, or any supplies at all, and the loss of supplies from one or more of them may adversely affect our purchases of stock and ultimately our revenue and results of operations. However, the composition and amount of purchase from these suppliers might change as we continue seeking new suppliers for our product for better quality and price in the normal course of business. Though we believe that we will not face substantial challenges in maintaining our business relationship with them or finding new suppliers, there can be no assurance that we will be able to maintain long term relationships with such suppliers or find new suppliers in time.

We do not have long-term contracts with our suppliers for such raw materials. If we fail to (i) receive the quality of raw materials that we require; (ii) negotiate appropriate financial terms; (iii) obtain adequate supply of raw materials in a timely manner, or if our principal suppliers discontinue the supply of such raw materials, or were to experience business disruptions, we cannot assure you that we will be able to find alternate sources for the procurement of raw materials in a timely manner. Moreover, in the event that either our demand increases, or our suppliers experience a scarcity of resources, our suppliers may be unable to meet our demand for raw materials.

While other than in the ordinary course of business, there has not been any reduction or interruption in the supply of raw materials to our Company for the Financial year ended 2026, 2025 and 2024, any reductions, or interruptions in the supply of raw materials, and any inability on our part to find alternate sources in a timely manner for the procurement of such raw materials, may have an adverse effect on our ability to manufacture our products in a timely or cost-effective manner. The occurrence of any such event may adversely affect our business, results of operations, cash flows and financial condition.

25. We may not be successful in effectively implementing our business and growth strategies, which could adversely affect our business and financial performance.

The success of our business is dependent, in significant part, on our ability to effectively implement our business plans and growth strategies in a timely and cost-efficient manner. While we have historically executed our strategies successfully, there can be no assurance that we will be able to do so in the future or that such strategies will achieve the intended results. Our ability to implement these strategies may be affected by various factors, including changes in market conditions, customer demand, competitive dynamics, regulatory requirements, and macroeconomic developments.

Further, the execution of our growth strategies may require substantial investments in infrastructure, technology, manpower and working capital, and may place additional demands on our management, operational systems and internal controls. Any inability to scale our operations, integrate new processes, or enhance our systems and controls in line with our growth objectives could adversely affect our efficiency and performance.

Additionally, changes in applicable laws, regulations or government policies may increase compliance requirements or restrict our operations, thereby impacting our ability to execute our strategic initiatives as planned. Failure to successfully implement our business and growth strategies could have a material adverse effect on our business operations, financial condition, results of operations and future prospects.

26. Under-utilization of our manufacturing capacities and an inability to effectively utilize our expanded manufacturing capacities could have an adverse effect on our business, future prospects and future financial performance.

Our ability to effectively utilize our manufacturing capacity is dependent on several factors, including uninterrupted operations at our manufacturing facility, availability of raw materials, consistency of power and coal/fuel supply, efficiency of machinery and equipment, labour availability, market demand, and the procurement patterns and requirements of our customers. As on the date of this Offer Document, we operate one manufacturing facility located at Howrah, West Bengal.

The table below presents details of the capacity utilization of our manufacturing facility located at National Highway, Mouza-Chamrail, Howrah, West Bengal, calculated based on the total installed production capacity and actual production for Fiscal 2026:

Particulars	Installed Capacity	Actual Capacity	Capacity Utilization (%)
Unit – 1	65,000	17,883	27.51
Unit – 2	24,000	13,831	57.63
Total	89,000	31,714	35.63

**As certified by Asim Maity, Chartered Engineer by their certificate dated May 19, 2026.*

The capacity utilization of our manufacturing facility during Fiscal 2026 was lower primarily on account of the commencement of Corporate Insolvency Resolution Process (“CIRP”) proceedings against our Company under the provisions of the Insolvency and Bankruptcy Code, 2016, which had an adverse impact on the operations and production levels of our manufacturing facility during the relevant period.

Our manufacturing operations may be adversely affected by factors such as equipment breakdowns, scheduled or unscheduled maintenance shutdowns, disruption in supply of utilities, labour-related issues, regulatory or environmental compliances, or constraints in sourcing adequate raw materials. Any such disruptions may lead to partial or complete shutdowns of our manufacturing operations, thereby resulting in under-utilization of our installed capacity. Further, fluctuations in demand for our products, changes in customer preferences, competitive pressures, adverse industry conditions, or lack of demand may result in lower order volumes, which could negatively impact our capacity utilization levels. Persistent under-utilization of manufacturing capacity may lead to higher per-unit fixed costs, reduced operating efficiencies and margins, and may adversely affect our profitability, cash flows, and financial condition.

Any future expansion or capital investment undertaken by us to enhance manufacturing capacity may not yield the expected returns if we are unable to achieve optimal utilization levels. There can be no assurance that we will be able to operate our manufacturing facilities at or near optimal capacity levels on a sustained basis, which could have a material adverse effect on our business, results of operations, financial condition, and future prospects.

27. Our success is dependent on our Promoter, management team and skilled manpower. Our inability to attract and retain key personnel or the loss of services of our Directors may have an adverse effect on our business prospects.

Our performance and its success largely depend on the efforts and abilities of our Promoters. Our Promoters play key role in our functioning and we heavily rely on their knowledge and experience in operating our business. We believe that our relation with our promoters, who has experience in the steel industry sector, managing customers and handling overall businesses, has enabled us to experience growth and profitability. Our Promoters and directors have been actively involved in the day-to-day operations and management of the Company. Our procurement of business orders also has high dependence on our Promoters relationship with customers and industry experiences of our Promoters. We believe that the inputs and experience of our Promoter are valuable for the development of business and operations and the strategic directions taken by our Company. We also depend significantly on the expertise, experience and continued efforts of our employees; hence, our performance and success substantially depend on the ability to attract and retain our key employees, including our experienced personnel. There can be no assurance that any member of our management or other experienced personnel will not leave us in the future. The lack of or loss of the services of such persons in the organization could impair our ability to manage and expand our business.

28. *Delays or defaults in client payments could affect our operations.*

Our business operations are exposed to working capital risks arising from delays or defaults in payments by our customers. We may experience delays in receiving payments for products supplied, which could adversely affect our ability to meet our financial obligations, including procurement of raw materials, payment to suppliers, employees and statutory authorities.

Further, any delay or failure on our part to deliver products in the required quantity, quality or within agreed timelines may result in payment delays, deductions, disputes or refusal of payment by customers. Prolonged delays or defaults in customer payments could adversely impact our liquidity, cash flows, operational efficiency and overall financial condition. However, we have not experienced any material instances of delay or default in customer payments during the last three fiscal years.

29. *If the price of energy sources increases, our operating expenses could increase significantly and our results of operations and cash flows could be materially and adversely affected.*

Our manufacturing operations are energy intensive and depend significantly on the uninterrupted availability of electricity and other fuel and energy sources for the operation of plant and machinery, processing activities and transportation requirements. Electrical power constitutes a significant component of our manufacturing costs, and any increase in electricity tariffs, fuel prices or other energy-related costs may materially increase our operating expenses and adversely affect our profitability.

The availability and pricing of power and fuel are influenced by several factors beyond our control, including changes in government policies and regulations, fuel shortages, inflationary pressures, supply-demand imbalances, transmission constraints, geopolitical developments and fluctuations in global energy markets. Any shortage or disruption in the supply of electricity, coal, gas, diesel or other energy sources may adversely affect our production schedules and operational efficiency.

Further, increases in crude oil and fuel prices may also lead to higher transportation, freight and logistics costs for procurement of raw materials and delivery of finished products to customers. Such increases may adversely impact our overall cost structure and operating margins.

There can be no assurance that we will be able to procure adequate energy supplies at commercially acceptable prices or successfully pass on increased energy and fuel costs to our customers in a timely manner or at all. Any inability to recover such increased costs through product pricing may adversely affect our margins and competitiveness.

In addition, sustained increases in energy costs may adversely impact overall industrial activity, capital expenditure and infrastructure development, which could reduce demand for steel and structural steel products. Any slowdown in economic activity or reduction in customer demand arising from increased energy prices may adversely affect our business operations, cash flows, financial condition and results of operations.

30. *We may be adversely affected by employee misconduct, errors or omissions, which could expose us to operational, financial and reputational risks.*

Our business operations are subject to various risks arising from potential misconduct, negligence or errors committed by our employees, consultants or agents. Such acts or omissions may result in operational inefficiencies, financial losses, regulatory actions, litigation, or reputational harm. Despite the implementation of internal controls, policies and procedures designed to prevent and detect such misconduct or errors, there can be no assurance that these measures will be effective in all circumstances.

Employee misconduct or errors may include, among others, non-compliance with internal policies or regulatory requirements, operational lapses, data mishandling, or failure to adhere to safety and quality standards. Any such incidents could expose us to claims, penalties or regulatory scrutiny, and may adversely affect our business operations, financial condition, results of operations and reputation. However, we have not experienced any material instances of employee misconduct, errors or omissions having a material adverse effect on our business, operations or financial condition during the last three fiscal years.

31. *Our insurance coverage may not adequately protect us against all material hazards, which may adversely affect our business, results of operations and financial condition.*

We believe that the insurance coverage maintained, would reasonably cover normal risks associated with the operation of our business, however, there can be no assurance that any claim under the insurance policies maintained by us will be met fully, in part or on time. In the event, we suffer loss or damage that is not covered by insurance or exceeds our insurance coverage, our results of operations and cash flow may be adversely affected.

Further, our Company is required to renew these insurance policies from time to time and in the event, we fail to renew the insurance policies within the time period prescribed in the respective insurance policies or not obtain at all, our Company may face significant uninsured losses. If our Company suffers a large uninsured loss or if any insured loss suffered, significantly exceeds our insurance coverage, our business, financial condition and results of operations may be adversely affected.

32. We have in the past entered into related party transactions and may continue to do so in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our Company's financial condition and results of operations.

We have entered into several related party transactions with our Promoter and entities forming a part of our promoter group in the ordinary course of our business. Although all related-party transactions that we may enter into in the future are subject to approval by our Audit Committee, Board or shareholders, as required under the Companies Act, we cannot assure you that such future transactions or any other future transactions, individually or in aggregate, will not have an adverse effect on our financial condition and results of operations or that we could not have achieved more favourable terms if such transactions are not entered into with related parties. Furthermore, it is likely that we may enter into related party transactions in the future. Any future transactions with our related parties could potentially involve conflicts of interest. Accordingly, there can be no assurance that such transactions, individually or in the aggregate, will not have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

33. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value.

34. Success is dependent on our people. Our ability to attract and maintain people qualified technical personnel, will affect the results of operations and financial condition.

As on April 30, 2026, we had 54 employees. Our business operations are dependent on skilled and experienced personnel, including engineers, technical staff, plant operators and senior management personnel involved in our manufacturing operations. Due to the limited availability of skilled personnel in the manufacturing industry, we face competition in recruiting and retaining qualified employees.

Our continued success depends upon our ability to attract and retain experienced personnel. Any inability to recruit or retain skilled employees, technical staff or key managerial personnel may adversely affect our manufacturing operations, productivity and growth plans. Further, we cannot assure you that our remuneration and incentive policies will be sufficient to retain such personnel. Any loss of key employees or inability to replace them in a timely manner may have a material adverse effect on our business, results of operations and financial condition.

35. Our Company has experienced negative cash flow in the past and may continue to do so in the future, which could have a material adverse effect on our business, prospects, financial condition, cash flows and results of operations.

Our Company has experienced negative net cash flow in operating, investing and financing activities in the

past. Following are the details of our cash flow position during the last three financial years;

(₹ in lakhs)

Particulars	March 31, 2026	March 31, 2025	March 31, 2024
Net cash flow from/ (used in) operating activities (A)	(177.91)	(267.70)	629.67
Net cash flow from/ (used in) investing activities (B)	(3.17)	16.74	(6.63)
Net cash flow from/ (used in) financing activities (C)	441.41	(18.55)	(29.80)

We may incur negative cash flows in the future which may have a material adverse effect on our business, prospects, results of operations and financial condition. For further details please refer to "**Financial Information**" beginning on page 63 of this Draft Letter of Offer.

36. Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and have not been independently appraised and may be subject to change based on factors, some of which may be beyond our control.

The proposed schedule for deployment of the Net Proceeds is based on current estimates and assumptions of the management of the Company and has not been appraised by any bank, financial institution or independent agency. Such estimates and timelines may change due to regulatory requirements, legal proceedings, business conditions, implementation requirements under the approved Resolution Plan and other factors beyond the control of the Company.

Although, the deployment of the Net Proceeds will be monitored by the Audit Committee, there can be no assurance that the allocation of funds for different objects proposed in the issue would serve the best interests of the Company or that the Company will be able to achieve the results it aims to achieve through the deployment of funds being raised in the issue

37. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule

The proposed fund requirement for meeting payment obligations under the NCLT approved Resolution Plan, including settlement/payment of dues of secured financial creditors and other stakeholders as detailed in the section titled "Objects of the Issue" is to be funded from the proceeds of this issue of Rights Issue. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute our future plans/strategy within the given timeframe. For details, please refer to the Chapter titled "**Objects of the Issue**" beginning on page 55.

38. Our growth will depend on our ability to build our brand and failure to do so will negatively impact our ability to effectively compete in this industry.

We believe that we need to continue to build our brand, "**Relicon**", which will be critical for achieving widespread recognition of our services. Promoting and positioning our brand will depend largely on the success of our marketing efforts and our ability to provide high quality services. The brand promotion activities that we may undertake may not yield increased revenues, and even if they do, any increased revenues may not offset the expenses we incur in building our brand. If we are unable to promote and maintain our brand, our business, financial condition and results of operations could be adversely affected.

39. Our Promoter, Directors and Key Managerial Personnel have interests in our Company other than reimbursement of expenses incurred or normal remuneration or benefits.

Our Promoter, Directors and Key Managerial Personnel, may be deemed to be interested in our Company, in addition to the regular remuneration or benefits, reimbursements of expenses, Equity Shares held by them or their relatives, their dividend or bonus entitlement, benefits arising from their directorship in our Company. For further details please refer to "**Financial Information**" beginning on page 63 of this Draft Letter of Offer.

There can be no assurance that our Promoter, Directors, Key Management Personnel will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoter and members of our Promoter Group will continue to exercise significant control over our Company, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of

shareholders, and our other shareholders may be unable to affect the outcome of such voting. Our Directors and our Key Management Personnel may take or block actions with respect to our business, which may conflict with the best interests of our Company or that of minority shareholders.

40. If we are unable to establish and maintain an effective internal controls and compliance system, our business and reputation could be adversely affected.

Effective internal controls are necessary for us to prepare reliable financial statements, safeguard our assets, ensure compliance with applicable laws and regulations and effectively prevent and detect fraud, errors or irregularities in our operations. Our internal control framework includes policies and procedures relating to financial reporting, authorization processes, operational monitoring, statutory and regulatory compliance and risk management. However, any failure or weakness in our internal control systems may result in misstatements in financial records, non-compliance with applicable laws and regulations, operational inefficiencies, fraud, data inaccuracies or delays in reporting obligations.

Further, our internal controls and compliance systems may become inadequate or ineffective due to evolving business operations, growth in scale, changes in regulatory requirements, technological disruptions, human error or intentional misconduct by employees or third parties. There can be no assurance that our existing controls will continue to operate effectively at all times or that additional deficiencies or material weaknesses will not be identified in the future. If such weaknesses are identified, the corrective measures undertaken by us may not be adequate to address or mitigate the same in a timely manner.

Any failure to maintain adequate internal controls and compliance systems may expose us to regulatory actions, penalties, litigation, financial losses, reputational damage and adverse observations by statutory auditors or regulatory authorities, which could adversely affect investor confidence, our business operations, cash flows, results of operations and financial condition. However, we have not experienced any material instances relating to failure or inadequacy of internal controls or compliance systems having a material adverse effect on our business, operations or financial condition during the last three fiscal years.

RISKS RELATING TO THE EQUITY SHARES AND THIS ISSUE

41. The equity shares of the Company are presently subject to surveillance measures and/or trading restrictions imposed by the Stock Exchanges in connection with the CIRP proceedings and implementation of the approved Resolution Plan, which may adversely affect liquidity and market price of the equity shares of the Company.

Pursuant to the CIRP proceedings of the Company and implementation of the approved Resolution Plan under the Insolvency and Bankruptcy Code, 2016 (“IBC”), the equity shares of the Company are presently subject to surveillance measures and/or restricted trading framework imposed by the Stock Exchanges in accordance with applicable surveillance and risk management frameworks/circulars issued by the Stock Exchanges and/or SEBI from time to time.

In terms of the applicable surveillance framework presently applicable to the Company, trading in the equity shares of the Company is restricted and permitted only on specified trading days determined by the Stock Exchanges. Accordingly, the equity shares of the Company presently do not trade on a daily basis and are subject to periodic trading restrictions.

Such surveillance measures and trading restrictions may adversely affect the liquidity, trading volumes, price discovery mechanism, volatility and market price of the equity shares of the Company and may also impact the ability of investors to purchase or sell equity shares at desired prices and volumes. Further, such surveillance actions and trading restrictions may adversely affect investor perception in relation to the Company and the Issue and may also affect future fund-raising activities of the Company. There can be no assurance regarding continuation, modification or withdrawal of such surveillance measures by the Stock Exchanges, future trading frequency of the equity shares of the Company or improvement in liquidity and trading activity in the equity shares of the Company. Any continuation, enhancement or modification of such surveillance actions and/or restricted trading framework by the Stock Exchanges may adversely affect the market price, liquidity and tradability of the equity shares of the Company.

42. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares

Under Current Indian tax laws, capital gains arising from the sale of equity shares within 12 months in an Indian company are classified as short-term capital gains and generally taxable. Any gain realized on the sale of listed equity shares on a stock exchange that are held for more than 12 months is considered as long-term capital gains and is taxable at 12.5% in excess of Rs.1,25,000. Any long-term gain realized on the sale of equity shares, which are sold other than on a recognized stock exchange and on which no STT has been paid, is also subject to tax in India. Capital gains arising from the sale of equity shares are exempt from taxation in India where an exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares.

43. Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of our Equity Shares, independent of our operating results

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchange. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by Equity Shareholders.

For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

44. Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in other parts of the world, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

45. Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position

Under the Companies Act, any company incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the equity shares who have voted on such resolution. However, if the law of the jurisdiction that you are in, does not permit the exercise of such pre-emptive rights, without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise, available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

46. Investors will be subject to market risks until the Equity Shares credited to the investor's demat account is listed and permitted to trade. There is no guarantee that the Equity Shares will be listed, or continue to be listed, on the Indian stock exchanges in a timely manner, or at all, and prospective investors will not be able to immediately sell the Equity Shares held by them on the Stock Exchange.

Investors can start trading the Equity Shares allotted to them only after they have been credited to an investor's demat account, are listed and permitted to trade. In accordance with Indian law and practice, final approval for listing and trading of our Equity Shares will not be granted until after the Equity Shares have been issued and

allotted. Such approval will require the submission of all other relevant documents authorizing the issuance of the Equity Shares. Accordingly, there could be a failure or delay in listing the Equity Shares on BSE, which would adversely affect your ability to sell the Equity Shares. Since the Equity Shares are currently traded on the BSE, investors will be subject to market risk from the date they pay for the Equity Shares to the date when trading approval is granted for the same. Further, there can be no assurance that the Equity Shares allocated to an investor will be credited to the investor's demat account in a timely manner or that trading in the Equity Shares will commence in a timely manner.

47. Any future issuance of Equity Shares, or convertible securities or other equity linked securities by us may dilute your shareholding and any sale of Equity Shares by shareholders with significant shareholding may adversely affect the trading price of the Equity Shares.

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by us, may dilute your shareholding in our Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by shareholders with significant shareholding or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. There can be no assurance that we will not issue Equity Shares or securities linked to Equity Shares or that our Shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

48. After this Issue, our Equity Shares may experience price and volume fluctuations.

The Issue Price has been determined by the Board of the Company, based on the Bids received in compliance with Chapter VI of the SEBI ICDR Regulations, and may not necessarily be indicative of the market price of the Equity Shares after this Issue is complete. The trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets in general experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors, among others, could adversely affect the price of our Equity Shares.

49. An investment in the Equity Shares is subject to general risks related to investments in Indian Companies

Our Company is incorporated in India and almost all of our assets and employees are located in India. Consequently, our business, results of operations, financial condition and the market price of the Equity Shares will be affected by changes in interest rates in India, policies of the Government of India, including taxation policies along with policies relating to industry, political, social and economic developments affecting India.

50. Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

EXTERNAL RISK FACTORS

51. Political, economic or other factors that are beyond our control may have adversely affect our business and results of operations.

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors' reactions to developments in one country may have adverse

effects on the market price of securities of companies located elsewhere, including India. Adverse economic developments, such as rising fiscal or trade deficit, in other emerging market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general. Any of these factors could depress economic activity and restrict our access to capital, which could have an adverse effect on our business, financial condition and results of operations and reduce the price of our Equity Shares. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of our Equity Shares.

The war in Ukraine, Israel-Palestine conflict and escalating tension among countries in the Middle East have contributed to rising rates of inflation, including in India. In response to the rising rates of inflation, various central banks, including the RBI has increased interest rates, resulting in increased cost of credit. Further deterioration in the global economy because of the Russia-Ukraine conflict, Israel-Palestine conflict, any significant escalation of an existing or new pandemic or otherwise, or the perception that such deterioration or escalation could occur, may continue to adversely affect global economic conditions and the stability of global financial markets, and may significantly reduce global market liquidity and restrict the ability of key market participants to operate in certain financial markets.

We are dependent on domestic, regional and global economic and market conditions particularly North America and Europe, where most of our revenue from operations is generated. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our solutions may be adversely affected by an economic downturn in domestic, regional and global economies. Economic growth in the countries in which we operate is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production. Consequently, any future slowdown in the Indian economy could harm our business, results of operations and financial condition. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

52. Recent global economic conditions have been challenging and continue to affect the Indian market.

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors' reactions to developments in one country may have adverse effects on the market price of securities of companies located in other countries, including India. The COVID-19 pandemic has caused an economic downturn in several major economies and generated volatility in, and general adverse impact on, the global securities markets, including in India; further, it is not possible for us to predict the extent and duration of this volatility and adverse impact on the global or Indian securities markets, including any possible impact on our Equity Shares. Negative economic developments, such as rising fiscal or trade deficits, or a default on national debt, in other emerging market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India and could then adversely affect our business, financial performance and the price of our Equity Shares.

Further deterioration in the global economy as a result of COVID-19 or the Russia-Ukraine conflict, Israel Palestine conflict or otherwise, or the perception that such deterioration could occur, may continue to adversely affect global economic conditions and the stability of global financial markets, and may significantly reduce global market liquidity and restrict the ability of key market participants to operate in certain financial markets. Any of these factors could depress economic activity and restrict our access to capital, which could adversely affect our business, financial condition, cash flows and results of operations and reduce the price of our Equity Shares. Any financial disruption could materially and adversely affect our business, results of operations, Shareholders' Equity and the price of our Equity Shares.

53. We are subject to changes in Indian taxation laws and their interpretation.

Any change in Indian tax laws could adversely affect our operations. The Finance Act, 2026 proposes various amendments to taxation laws in India. Any such and future amendments may affect certain benefits such as exemption for income earned by way of dividend from investments in other domestic companies and units of

mutual funds, exemption for interest received in respect of tax-free bonds, and long-term capital gains on equity shares if withdrawn by the statute in the future, and the same may no longer be available to us.

Furthermore, unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business, operations, and group structure could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs relating to compliance with such new requirements, which may also require management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent, may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

Similarly, the Finance Act, 2020, had notified changes and provided a number of amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime and exemption from 68 dividend distribution tax (“DDT”), in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020. We cannot predict whether any new tax laws or regulations impacting our operations will be enacted, what the nature and impact of the specific terms of any such laws or regulations will be or whether, if at all, any laws or regulations would have an adverse effect on our business.

54. Investors may not be able to enforce a judgment of a foreign court against us, our Directors or any of their directors and executive officers in India respectively, except by way of a law suit in India.

Our Company is a public limited company incorporated under the laws of India. Most of our Company’s Directors and executive officers named herein are residents of India and all or a substantial portion of the assets of our Company and such persons are located in India. As a result, it may not be possible for investors to effect service of process on our Company or such persons in jurisdictions outside of India, or to enforce against them judgments obtained in courts outside of India. In addition, India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. The manner of recognition and enforcement of foreign judgments in India is dependent on whether the country in which the foreign judgment has been pronounced is a reciprocating territory or not. For further information on recognition and enforcement of foreign judgments in India.

A party seeking to enforce a foreign judgment in India may be required to obtain approval from the RBI under the Foreign Exchange Management Act, 1999 to repatriate outside India any amount recovered pursuant to execution. Any judgment in a foreign currency would be converted into Indian Rupees on the date of the judgment and not on the date of the payment. The Company cannot predict whether a suit brought in an Indian court will be disposed of in a timely manner or be subject to considerable delays.

55. Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the GoI has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

56. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfers of shares between nonresidents and residents are freely permitted (subject to certain exceptions) if they comply with the requirements specified by the RBI. If the transfer of shares is not in compliance with such requirements or falls under any of the specified exceptions, then prior approval of RBI will be required. In addition, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no-objection or tax clearance certificate from the income tax authority. Additionally, the Indian government may impose foreign exchange restrictions in certain emergency situations, including situations where there are sudden fluctuations in interest rates or exchange rates, where the Indian government experiences extreme difficulty in stabilizing the balance of payments or where there are substantial disturbances in the financial and capital markets in India. These restrictions may require foreign investors to obtain the Indian government's approval before acquiring Indian securities or repatriating the interest or dividends from those securities or the proceeds from the sale of those securities. There can be no assurance that any approval required from RBI or any other government agency can be obtained on any particular terms or at all.

57. Any downgrading of India's debt rating by an independent agency may harm our ability to raise financing.

Any adverse revisions to India's credit ratings international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

58. We may be affected by competition laws in India, the adverse application or interpretation of which could adversely affect our business.

The Competition Act, 2002, of India, as amended ("Competition Act"), regulates practices having an appreciable adverse effect on competition in the relevant market in India ("AAEC"). Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an AAEC is considered void and may result in the imposition of substantial penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or the provision of services or shares the market or source of production or provision of services in any manner, including by way of allocation of geographical area or number of consumers in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an AAEC and is considered void. The Competition Act also prohibits abuse of a dominant position by any enterprise. If it is proved that the contravention committed by a company took place with the consent or connivance or is attributable to any neglect on the part of, any director, manager, secretary or other officer of such company, that person shall be also guilty of the contravention and may be punished.

Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside India if such agreement, conduct or combination has an AAEC in India. However, the impact of the provisions of the Competition Act on the agreements entered into by us cannot be predicted with certainty at this stage. In the event we pursue an acquisition in the future, we may be affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI or if any prohibition or substantial penalties are levied under the Competition Act, it would adversely affect our business, results of operations, cash flows and prospects. The manner in which the Competition Act and the CCI affect the business environment in India may also adversely affect our business, results of operations, financial condition and cash flows.

The Competition (Amendment) Act, 2023 ("Competition Amendment Act") was recently notified. The Competition Amendment Act amends the Competition Act and give the CCI additional powers to prevent practices that harm competition and the interests of consumers. The Competition Amendment Act, inter alia, modifies the scope of certain factors used to determine AAEC, reduces the overall time limit for the assessment of combinations by the CCI from 210 days to 150 days and empowers the CCI to impose penalties based on the global turnover of entities, for anti-competitive agreements and abuse of dominant position.

59. A third party could be prevented from acquiring control of our Company because of anti-takeover

provisions under Indian law.

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company. Under the SEBI Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to our shareholders, such a takeover may not be attempted or consummated because of SEBI Takeover Regulations.

60. Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business, prospects and results of operations.

Our business and financial performance could be materially adversely affected by changes in the laws, rules, regulations or directions applicable to us and our general and microfinance businesses, or the interpretations of such existing laws, rules and regulations, or the promulgation of new laws, rules and regulations. The Government of India has announced the union budget for the Fiscal 2027, pursuant to which the Finance Bill, 2026 (“Finance Bill”) has introduced various amendments. We have not fully determined the impact of these recent and proposed laws and regulations on our business. Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. The Government has recently introduced (a) the Code on Wages, 2019 (“Wages Code”); (b) the Code on Social Security, 2020 (“Social Security Code”); (c) the Occupational Safety, Health and Working Conditions Code, 2020; and (d) the Industrial Relations Code, 2020, which consolidate, subsume and replace numerous existing central labour legislations. While the rules for implementation under these codes have not been notified, we are yet to determine the impact of all or some such laws on our business and operations which may restrict our ability to grow our business in the future and increase our expenses. In another example, the GoI has made it mandatory for business establishments with turnover above a certain size to offer digital modes of payment from November 2019, with no charges being levied on the consumers or the merchants by banks and payment service providers. Such measures could adversely impact our income streams in the future and adversely affect its financial performance.

Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy in the jurisdictions in which we operate, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations, financial condition and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future. For instance, the Supreme Court of India has in a decision clarified the components of basic wages which need to be considered by companies while making provident fund payments, which resulted in an increase in the provident fund payments to be made by companies. Any such decisions in future or any further changes in interpretation of laws may have an impact on our results of operations.

61. The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. In addition, any deterioration in international relations, especially between India and its neighboring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business.

Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

62. We are subject to regulatory, economic, social and political uncertainties and other factors beyond our control.

We are incorporated in India and we conduct our corporate affairs and our business in India. Consequently, our business, operations, financial performance will be affected by interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

Factors that may adversely affect the Indian economy, and hence our results of operations may include:

- any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;
- any scarcity of credit or other financing in India, resulting in an adverse effect on economic conditions in India and scarcity of financing for our expansions;
- prevailing income conditions among Indian customers and Indian corporations;
- epidemic or any other public health in India or in countries in the region or globally, including in India's various neighboring countries;
- hostile or war like situations with the neighboring countries;
- macroeconomic factors and central bank regulation, including in relation to interest rates movements which may in turn adversely impact our access to capital and increase our borrowing costs;
- decline in India's foreign exchange reserves which may affect liquidity in the Indian economy;
- downgrading of India's sovereign debt rating by rating agencies; and
- difficulty in developing any necessary partnerships with local businesses on commercially acceptable terms and/or a timely basis.
- Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy or certain regions in India, could adversely affect our business, results of operations and financial condition and the price of the Equity Shares.

63. Financial instability in other countries may cause increased volatility in Indian financial markets.

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial turmoil in Asia, Russia and elsewhere in the world in recent years has adversely affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India.

Financial instability in other parts of the world could have a global influence and thereby negatively affect the Indian economy. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cash flows. Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy. Following the United Kingdom's exit from the European Union ("Brexit"), there remains significant uncertainty around the terms of their future relationship with the European Union including trade agreements between the United Kingdom and European Union and, more generally, as to the impact of Brexit on the general economic conditions in the United Kingdom and the European Union and any consequential impact on global financial markets. For example, Brexit could give rise to increased volatility in foreign exchange rate movements and the value of equity and debt investments.

In addition, China is one of India's major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations between the two countries. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term effect of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilising effects. Any significant financial disruption could have a material adverse effect on our

business, financial condition and results of operation. These developments, or the perception that any of them could occur, have had and may continue to have a material adverse effect on global economic conditions and the stability of global financial markets and may significantly reduce global market liquidity, restrict the ability of key market participants to operate in certain financial markets or restrict our access to capital. This could have a material adverse effect on our business, financial condition and results of operations and reduce the price of the Equity Shares.

Mukesh Goel ("Applicant") has filed an Interim Application (IBC) bearing number 1880 of 2025 ("Application") before the Hon'ble National Company Law Tribunal, Kolkata Bench ("Tribunal") against CA Santanu Brahma ("Respondent 1") and Committee of Creditors of Aanchal Ispat Limited ("Respondent 2") (collectively, "Respondents") under section 60(5) of the Insolvency and Bankruptcy Code 2016 read with Rule 11 of the National Company Law Tribunal Rules, 2016. The Application states that a Company Petition (IB) bearing number 1518/KB/2020 ("Company Petition") was filed by Aldous Commodities Private Limited ("Operational Creditor") against Aanchal Ispat Limited ("Corporate Debtor"), the present Interim Application is filed in the Company Petition. The Applicant is MSME Promoter turned Successful Resolution Applicant of the Corporate Debtor.

The Applicant states that the Tribunal had approved the Resolution Plan vide order dated March 27, 2025 ("Approved Order") IA (IBC) (Plan) No. 9/KB/2024 in CP (IB) No. 1518/KB/2020. However, while approving the Resolution Plan, the Tribunal inserted inadvertent directions at Paragraphs 28 and 39 of the Approval Order directing that if there were any personal guarantors of the Corporate Debtor, the personal guarantees shall be invoked and appropriate action against them be taken in accordance with law and Financial Creditors invoke the Personal Guarantees, if not already done. However, the Resolution Plan was unanimously approved by the Respondent 2 with 100% voting, which clearly stated that all personal guarantees of the Applicant would stand release only upon full implementation of the Resolution Plan and consequently, there was no requirement for invocation of such guarantees. Further, the Applicant states he had filed a Company Application (AT) (Ins) bearing number 1192 of 2025 before the Hon'ble National Company Law Appeal Tribunal ("NCLAT") Further, the Applicant states he had filed a Company Application (AT) (Ins) bearing number 1192 of 2025 before the Hon'ble National Company Law Appeal Tribunal and during the hearing dated August 11, 2025, the Respondent 2 confirmed the observation made in paragraphs 28 and 39 were unwarranted and inconsistent with the Resolution Plan. Thereafter, the NCLAT deleted the said paragraphs 28 and 39 from the Approved Order and uncertainty created by the Approved Order was resolved on August 11, 2025. Further, the Applicant states that as per clause (oo) of the Resolution Plan if implementation was affected due to pending appellate proceedings, the Tribunal approval date shall automatically shift to the date on which impediment would be removed. Furthermore, The Applicant states he had formally placed the facts before the Respondent 1, however, the Applicant's request was erroneously treated as extension of timelines, instead of a request for recognition for the revised approval date. Subsequently, the Respondent 1 had issued a communication alleging of the failure to honour an upfront payment. Therefore, the Applicant has filed the present Application praying to (i) implement the commencement date of Resolution Plan as August 11, 2025

instead of March 27, 2025 and (ii) direct the Respondent 1 to recalculate and communicate the revised implementation timelines to all stakeholders. The Application is presently pending and the next date of hearing is July 15, 2026.
