EBITDA	374	303	300	901
PBT	132	38	8	-203
PAT	99	26	5	-158

New Delhi, August 10, 2026 — Cosmo Ferrites Limited (BSE: 523100), a leading manufacturer and exporter of Soft Ferrites and wire-wound magnetic components, today announced its unaudited financial results for the first quarter ended June 30, 2026 (Q1 FY27).

Quarterly Overview

The company delivered an improved performance in Q1 FY27, characterized by growth in revenue, operating EBITDA, and PAT, driven by higher sales volumes, improved average realizations, and market expansion. The company achieved an improved EBITDA margin despite higher raw material prices and logistics costs during the quarter, arising from the prevailing geopolitical situation.

Market & Capacity Expansion: Growth was supported by higher realizations in the domestic market and increased export volumes, reflecting robust overall growth. The company continues to focus on the EV and solar sectors within its magnetics business and added a new customer during the quarter.

New powder development: Cosmo successfully developed and commercialized several powders for advanced applications, specifically for EV, automotive, telecommunications and solar segments. The key features of the powders are lower power loss and higher saturation flux density, higher permeability with improved frequency response, which are suitable for enhanced system performance.

Commenting on the results, **Mr. Ambrish Jaipuria, Chairman, Cosmo Ferrites Ltd.**, said:

"We are delighted to report better performance Quarter after Quarter, which caps off a year of transformation and growth. The increase in our revenue and EBITDA is a direct result of volume growth and stronger average realizations.

COSMO FERRITES LIMITED

By expanding our customer footprint in both domestic and export markets, we have successfully unlocked higher capacity utilization. Looking ahead, we remain committed to sustained operational excellence, deepening our market penetration, and delivering long-term value to our stakeholders. We also continue to strengthen our focus on the EV business within our magnetics and core division."

About Cosmo Ferrites Limited

Established in 1986, Cosmo Ferrites Limited is India's largest producer and leading exporter of Manganese (MnZn) based Soft Ferrite cores, serving customers in over 50 countries. With a state-of-the-art manufacturing facility in Himachal Pradesh, the company has integrated forward into wire-wound magnetic components, catering to the evolving needs of the global electronics industry.
