ANNEXURE-I

Avio Smart Market Stack and StandardWings Partner to Build AI-Powered Digital Infrastructure for Rural India

Hyderabad/Nashik, 01st July, 2026: Avio Smart Market Stack Limited (ASMS), a technology company building a unified digital operating system for rural India, has signed a Memorandum of Understanding (MoU) with StandardWings Technologies Pvt. Ltd. to jointly explore the development of next-generation digital platforms aimed at transforming India's agricultural and rural ecosystem.

The collaboration brings together ASMS' extensive rural network spanning over **5,000 villages** and access to nearly **4 crore farmers and rural residents**, with StandardWings' expertise in Artificial Intelligence (AI), Machine Learning (ML), Internet of Things (IoT), enterprise software, and digital product development.

Under the proposed collaboration, the two companies will explore the development of scalable digital infrastructure to support sustainable agriculture, climate initiatives, rural commerce, financial inclusion, and technology-driven farmer services.

The collaboration will focus on a wide range of technology initiatives, including AI-powered crop advisory systems, yield prediction models, pest detection, weather-based decision support systems, digital agri-platforms, IoT-enabled precision farming solutions, smart agri-store technology, digital marketplace integration, supply chain traceability platforms, ESG assessments, digital Measurement, Reporting and Verification (dMRV) systems for carbon projects, sensor-based livestock anomaly detection, AI-powered applications, and farmer-centric digital solutions.

The companies also intend to jointly develop innovative agri-tech solutions, pilot programmes, and proprietary platforms tailored to India's evolving rural landscape, supporting the adoption of regenerative farming practices and climate-focused initiatives through digital technologies.

StandardWings Technologies Pvt. Ltd. has successfully delivered 300+ digital transformation projects for 150+ clients across agriculture, government, healthcare, logistics, manufacturing, and enterprise sectors, backed by over a decade of experience. Its agriculture-focused assignments include digital auditing and traceability solutions for Cotton Connect, AI-powered reporting and analytics for managing data from over 200,000 farmers, farmer evaluation and survey platforms, sustainability monitoring, and end-to-end traceability systems for the wine industry. The company also serves organisations such as the Maharashtra Government, National Health Mission, and municipal corporations, delivering AI, IoT, mobile, web, and cloud-based solutions that improve operational efficiency, transparency, and data-driven decision-making.

Commenting on the collaboration, Dr. Raja Krishna Murthy M, Head – Agri Tech Business, Avio Smart Market Stack Limited, said: *"India's agricultural sector is undergoing a rapid digital transformation, and technology will play a pivotal role in making farming more productive, sustainable and resilient. By combining ASMS' deep rural reach with StandardWings' technology capabilities, we aim to build scalable digital solutions that empower farmers with better advisory services, improved market access, climate resilience and data-driven decision-making."*

AVIO SMART MARKET STACK LIMITED

(Formerly known as Bartronics India Limited)

The Memorandum of Understanding reflects the intent of both organisations to explore collaborative opportunities in rural technology and digital agriculture. Any future projects or commercial engagements arising from this collaboration will be governed through separate definitive agreements.

About Avio Smart Market Stack Limited (ASMS)

*Avio Smart Market Stack Limited (formerly Bartronics India Limited) is building one of India's largest unified rural operating systems by integrating financial inclusion, agriculture, rural commerce, climate solutions, and healthcare to empower farmers and underserved communities digitally. The company has a presence across six countries, is listed on the National Stock Exchange and Bombay Stock Exchange, and has access to more than **5,000 villages** with a network reaching nearly **4 crore farmers and rural residents**.*
