Dear Sir/Madam,

Sub: Intimation under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 – Expansion into Distribution and Supply of Interactive Flat Panel Displays (Smart Boards) for Educational Institutions.

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we wish to inform the Exchange that the Company has decided to expand its business operations by entering into the distribution and supply of Interactive Flat Panel Displays (IFPDs), commonly known as Smart Boards, for educational institutions across India.

Over the course of its engagement with schools, the Company has observed that a significant number of educational institutions continue to face challenges in adopting technology-enabled teaching methodologies due to the lack of adequate classroom hardware infrastructure. While the Company has successfully provided AI-integrated Learning Management Systems (LMS), digital content, and educational software solutions to schools, the absence of smart classroom equipment has created a gap in the effective delivery of technology-driven learning.

In order to address this requirement and strengthen the digital education ecosystem, the Company has decided to undertake the Pan-India distribution and supply of Interactive Flat Panel Displays for schools. These smart panels will enable educational institutions to effectively utilize digital learning tools, AI-powered educational platforms, and other software solutions already being provided by the Company, including those offered free of cost to schools using the Company's textbooks and educational content.

For this purpose, the Company has entered into an arrangement with Wiki Kids Private Limited (formerly known as Wiki Kids Limited) for the distribution and supply of Interactive Flat Panel Displays across the country.

The Company believes that this initiative will further its objective of enhancing technology-enabled education, improving classroom learning outcomes, and providing comprehensive digital education solutions to schools nationwide.
