VINDHYA TELELINKS LIMITED

PRESS RELEASE

Well Positioned to Capitalise on the Optical Connectivity Super-Cycle

7th Aug 2026, New Delhi: Vindhya Telelinks Limited ("VTL" or the "Company"), a company of the MP Birla Group, today announced its financial results for the first quarter of FY 2026-27. The Company continued to deliver a strong operational performance in its Cable business, supported by robust demand for optical fibre cable solutions, a favourable product mix and sustained investments in digital infrastructure and renewable energy sectors. Despite temporary execution headwinds in certain government-funded EPC projects, VTL's diversified business model continued to demonstrate resilience. For the quarter ended 30 June 2026, the Company reported a net profit of **₹2,809.97 lakhs**, registering a growth of **34.5%** over **₹2,089.91 lakhs** reported in the corresponding quarter of the previous year.

Highlights on Quarterly Performance - Standalone Financial Results

(₹ in lakhs)

Period	Revenue From Operation	EBIDTA	Finance Cost	Dep.	PBT	PAT
2026-27 Q1	71577.08	8648.47	4151.38	718.29	3778.80	2809.97
2025-26 Q1	90161.00	6437.12	3098.87	514.42	2823.83	2089.91

Cable Segment:

The Cable segment continued to demonstrate the strength of its diversified product portfolio, delivering continuous operational improvement. EBITDA for Q1 FY2026-27 increased to **₹ 4286.09 lakhs**, compared with **₹ 1592.45 lakhs** in the corresponding quarter of the previous year, supported by a richer product mix and a higher contribution from Optical Fibre Cables.

The global optical connectivity industry is entering a structural multi-year investment cycle, driven by hyperscale data centres, artificial intelligence, cloud computing, fibre-to-the-home (FTTH), 5G densification and accelerating digital infrastructure investments. With ongoing expansion in advanced manufacturing capabilities across high fibre-count optical fibre cables and specialty products, the Company is well positioned to participate in these structural growth opportunities.

EPC Segment:

The EPC segment reported revenue of **₹51706.64 lakhs** and EBITDA of **₹4362.38 lakhs** during Q1 FY2026-27, compared with **₹70409.26 lakhs** and **₹4844.67 lakhs**, respectively, in the corresponding quarter of the previous year.

Project execution remained impacted by delays in the release of government funds under key infrastructure programmes, particularly the Uttar Pradesh Jal Jeevan Mission (UP-JJM), resulting in slower revenue recognition and higher working capital deployment. Outstanding receivables under the UP-JJM stood at **₹ 733 crore** as on 30 June 2026. Although the Union Budget 2026 allocated **₹67,670 crore** to the Jal Jeevan Mission, fund disbursements during the quarter were moderated due to delays in budget allocations and the rollout of revised payment mechanisms, including an online payment portal. The Company is actively engaging with the concerned authorities and expects substantial recovery of outstanding dues during the current calendar year.

The division continues to focus on accelerating project execution, enhancing operational efficiencies, expanding margins and improving working capital productivity. At the same time, the Company is broadening its infrastructure portfolio by expanding into new and high-growth segments. It has secured a strategic **₹475 crore** order for the design, supply, installation, operation and maintenance of a **Smart LED Street Lighting Control & Monitoring System** in the State of Andhra Pradesh. This strategic order further strengthens the Company's diversified EPC order book and reinforces its ability to capitalize on emerging infrastructure opportunities beyond its traditional business segments.

As demand for digital infrastructure continues to accelerate, the Company is evaluating strategic initiatives to enhance the utilisation and long-term value of its IP-1 passive optical fibre network assets, consistent with its long-term growth strategy.

Outlook:

“The Company remains optimistic about its long-term growth prospects, supported by sustained investments in digital connectivity, power distribution, renewable energy and smart infrastructure. With a diversified business portfolio, an order book of approximately **₹4,850 crore** (excluding O&M orders) as on 30 June 2026, continued investments in advanced cable manufacturing capabilities and a disciplined approach to project execution, VTL is well positioned to deliver sustainable, profitable growth while maintaining a strong focus on capital efficiency, balance sheet strength and long-term value creation for its stakeholders.” **said Shri Y.S. Lodha, Managing Director & Chief Executive Officer.** “The Company also believes that the proposed amalgamation with Birla Cable Limited, subject to regulatory approvals, will further strengthen its competitive position." **Mr. Lodha added**.

Highlights on Quarterly Performance - Consolidated Financial Results

(₹ in lakhs)

Period	Revenue From Operation	PBT	PAT
Q1, 2026-27	71889.93	10148.68	7567.17
Q1, 2025-26	90751.98	8250.48	6169.03
