ACME Solar operationalizes 3.62 GWh Battery Energy Storage System projects in Rajasthan

One of the fastest scale-up of BESS capacities in India

Gurugram, July 23, 2026: ACME Solar Holdings Ltd (ACME Solar), through its various subsidiaries, has, cumulatively, commissioned ~2.29 GWh Battery Energy Storage System (BESS) in the current financial year till date. With this milestone, the overall operational BESS capacity stands at ~3.62 GWh across 3 project sites in Rajasthan. This is one of the fastest scale-up of BESS capacity in India and represents a major step forward in strengthening grid stability, supporting peak-hour demand, and advancing the transition to reliable, round-the-clock renewable power.

Technical RCA Closure Update: Further to the media statement issued by ACME Solar Holdings Limited (ACME Solar) on July 17, 2026 regarding ACME Suryodaya BESS facility in Pokhran, Rajasthan, The root cause analysis has confirmed that the event originated due to an electrical short circuit, which caused the localized fire of the AC cables between Transformer and PCS, resulting in equipment shutdown. However, the fire did not damage other on-site equipment and was quickly brought under control. The restoration activities have been successfully completed. ACME Solar sincerely acknowledges the fast reaction provided by our on-site professional employees and technological support by partners during and after the incident.

About ACME Solar: ACME Solar Holdings Limited is a leading integrated renewable energy player with a diversified portfolio of 8,070 MW spanning solar, wind, storage, FDRE and hybrid solutions and an operational contracted capacity of 2,990 MW and ~3.62 GWh of BESS capacity and under construction contracted capacity of 5,080 MW. The under construction PPA signed portfolio stands at 3,880 MW. With an in-house EPC and O&M division, the company does end-to-end development and O&M of the plants, thereby delivering projects in a time & cost-effective manner while ensuring best in class operating performance evident in its industry leading CUF and operating margins.
