**Subject: Dispatch of Notice of Annual General Meeting and Annual Report, and
Newspaper Advertisement**

Dear Sir(s),

This is to inform you that pursuant to Regulation 34(1) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“SEBI Listing Regulations”), the notice of the Annual General Meeting and the Annual Report of the Company for the Financial Year 2025-26 has been dispatched to all the Shareholders electronically on June 16, 2026 at their registered email Id. Also, a letter providing the web-link, including the exact path, where the Annual Report is available has been sent to all those shareholder(s) who have not registered their e-mail address(es) either with the Company or with any depository. A copy of the letter is attached and marked as **Annexure-1**.

Pursuant to Regulation 30 of SEBI Listing Regulations, attached is a copy of notice to the shareholders published on June 17, 2026 in Financial Express (an English newspaper having country-wide circulation) and Dinamani (a Tamil newspaper having wide circulation in Tiruchirapalli, Tamil Nadu, where registered office of the Company is situated), with respect to dispatch of notice of 74th Annual General Meeting of the Company to the shareholders, voting through electronic means and the cut-off date.

Thanking You,

Yours faithfully,
For **Dalmia Bharat Sugar and Industries Limited**

Rachna Gorla
Company Secretary

UK TRADE DEAL LOGJAM

India pushes for end to \$900-million steel quota

RAVI DUTTA MISHRA
New Delhi, June 16

INDIA IS PUSHING for a steel quota in the UK market worth nearly \$900 million under the bilateral free trade agreement (FTA) signed in July 2025 in a bid to resolve the ongoing row over steel curbs announced by the UK, it has been learned.

This has delayed implementation of the trade deal even though negotiations were concluded a year ago.

The move comes after the Indian steel industry flagged that the quotas announced by the UK would end up limiting even the current levels of Indian steel and products exports despite the FTA, and asked the government to at least ensure a quota equivalent to the three-year average of India's steel and steel products exports to the UK.

Government officials have said that India will move to curb Scotch whisky as a retaliatory measure if Indian interests are hurt. "Our quota needs to be at least the average of the last three years' exports. The quota announced by the UK, which is

Industrial exports to the UK are facing two major regulatory impediments, even after concluding the trade negotiations

set to come into effect from July 1, is far below that level, and the steel industry will end up suffering despite the FTA. The industry would end up taking a large hit in at least 6 categories where we have a significant export interest. Our exports are far higher than their proposed quota," a source said.

Industrial exports to the UK are facing two major regulatory impediments, even after concluding the trade negotiations. Officials said the immediate worry is the steel quota because

it comes into effect on July 1. It will be followed by the UK's Carbon Border Adjustment Mechanism (CBAM) set to come into effect on January 1, 2027.

A query emailed to the Ministry did not elicit a response.

Under the CBAM regulation, the UK will place a carbon price on some of the most emissions-intensive industrial goods imported to the UK — covering the aluminium, cement, fertiliser, hydrogen, and iron & steel sectors — which are considered at risk of

carbon leakage. But the scope will increase going forward.

"The sectoral and product-level scope of the CBAM will be kept under review beyond 2027 as new evidence comes to light to reflect changes to carbon leakage risk, as well as methodological and technological advances," a UK government statement read.

India's exports of iron and steel and their products to the UK stood at \$893.4 million in FY26, accounting for a significant share of \$13.4 billion in total merchandise exports to the UK. Maintaining that overcapacity was hurting the country's steel manufacturing industry, the UK in March lowered the tariff-free quota on imported steel and doubled the tariff on imports exceeding that quota from 25% to 50%.

Trade experts said such measures are typically announced to curb trade diversion from other countries, particularly the EU and the US. Both the EU and the US have also raised tariffs on steel outside quotas to 50%. However, experts pointed out that the UK has limited steel manufacturing capacity.

India issues deadlines to sync grid with clean energy buildout

RAJESH KUMAR SINGH
June 16

INDIA HAS INTRODUCED a set of timelines to harmonise the construction of transmission projects with the broader grid expansion, in an effort to speed up the penetration of green power in the country's energy mix.

The timelines, issued by the government's Central Electricity Authority, will align generation and last-mile distribution projects with the grid, helping avoid delays. High-voltage direct current, or HVDC projects are required to complete in a maximum 54 months, while a 765 kilovolt substation should be built in three years, according to the advisory. Projects in hilly terrains may be allowed a longer construction period, the CEA said.

Power transmission expansion, in many parts of the world including India, is failing to keep pace with quicker-to-build renewable energy infrastructure, creating a backlog of projects waiting for grid connectivity.

The clean power boom has also strained the current manufacturing capacity for transmission equipment, prolonging delivery schedules.

—BLOOMBERG

UP, Gujarat, 9 others record revenue surplus in FY25

PRESS TRUST OF INDIA
New Delhi, June 16

UTTAR PRADESH, GUJARAT, Jharkhand, Manipur, and nine other states recorded surplus revenues in FY25, while the remaining 15 states had a deficit. 18 states targeted revenue surplus, three states targeted revenue deficit, and seven targeted zero revenue deficit in FY25, according to a report on 'State Finances 2024-25' released by Comptroller and Auditor General (CAG) of India K Sanjay Murthy on Tuesday. "In FY25, 15 states were revenue-deficient while the rest 13 states were revenue surplus," the report said.

Of the 18 states that targeted revenue surplus, nine achieved the target, while Assam, Bihar, Chhattisgarh, Haryana, Hima-chal Pradesh, Karnataka, Maharashtra, Mizoram, and Telangana ended up being revenue deficit in FY25. Seven states — Goa, Jharkhand, Punjab, Rajasthan, Tamil Nadu, Tripura, and UP: targeted a zero-revenue deficit. Among them, four states: Goa, Jharkhand, Tripura, and UP: achieved a revenue surplus, whereas Punjab, Rajasthan and Tamil Nadu ended the year with a revenue deficit.

Of the 15 states that were revenue-deficient in FY25, Himachal, Mizoram, Punjab and Bengal received Finance

DK SRIVASTAVA,
CHIEF POLICY ADVISOR,
EY INDIA

Combined liabilities of all states including public debt and account liabilities amounted to 27.89% of the combined GSDP in FY25

Commission revenue deficit grants. The report further said that if the indicative fiscal deficit target of 3% of the GSDP, fixed by the 15th Finance Commission for FY25, for states' fiscal consolidation path is considered, then 18 states were above the target.

The aggregate revenue deficit of 15 revenue-deficit states, without netting revenue surplus of 13 states, stood at ₹3,46,385 crore, which was 1.5% of their combined GSDP.

The net revenue deficit, after adjusting the revenue surplus in 13 states, stood at ₹2,19,041 crore, 0.68% of the

combined GSDP of all 28 states.

"I hope that the publication on State Finances FY25 will serve as a useful evidence-based resource for governments, researchers, policy-makers and citizens, enabling a deeper understanding of state finances and supporting informed fiscal decision-making," CAG Murthy said.

The publication highlights the growing importance of states' own tax revenues, which accounted for 50% of the combined total revenue receipts of ₹40.52 lakh crore across the 28 states in FY25.

State GST constituted more than 43% of the combined states' own tax revenues.

The combined budgetary expenditure of all states stood at ₹51.20 lakh crore in FY25, equivalent to 15.78% of their combined GSDP.

The decadal trend shows that salaries, pensions and interest payments continue to constitute a major share of revenue expenditure. In FY25, such committed expenditure exceeded 43% of the combined revenue expenditure of the 28 states, with significant inter-state variation - from 74% in Nagaland to 29% in Maharashtra.

As of March 31, 2025, the total liabilities of the states stood at ₹90.51 lakh crore. All 28 states recorded a fiscal deficit.

Hunt for rare earth reaches Russia

NEHA ARORA
New Delhi, June 16

INDIAN MINER IREL is in talks with Rosneft to source rare earth samples from Tomtor, the Siberian deposit acquired by the Russian oil producer last year, as New Delhi seeks to secure supplies of critical minerals dominated by China, a source said.

The talks are taking place through government channels, said the source, adding that the samples would be processed in Russia before being shipped to India.

India is keen to study the mineral composition of the deposit before considering deeper engagement, said the source, who has knowledge of the matter and spoke on the condition of anonymity as the discussions are confidential.

State-backed IREL is at the forefront of India's global outreach to secure rare earth supplies to meet rising domestic demand and wean itself off dependence on China, with ties between the two neighbours remaining frosty.

IREL, India's Department

SECURING SUPPLIES

■ Talks are being held through government channels

■ India to study mineral composition of Siberian samples

■ State-backed IREL is at the forefront of India's global outreach to secure rare earth supplies to meet rising domestic demand

■ The US has imposed sanctions targeting Russia's energy sector, with measures affecting Rosneft and Lukoil

■ India explores rare earth mining in Argentina, Australia, Malawi

of Atomic Energy, which oversees the state miner, the foreign ministry, the mines ministry and Rosneft did not respond to Reuters' requests for comment.

Tomtor is located in Russia's Siberian region of Yakutia and is considered one of the world's largest undeveloped rare earth deposits.

The United States has imposed sanctions targeting Russia's energy sector, with measures affecting Rosneft and Lukoil, to pressure Moscow over the war in Ukraine.

Rare earth elements are critical for making permanent

magnets used in electric vehicle motors and a range of other clean energy and defence applications.

In November, New Delhi approved a ₹7,300 crore programme to support rare earth magnet manufacturing.

India lacks commercial-scale facilities capable of refining and separating the full range of rare earth elements to high purity levels.

Last year, India was scouting rare earth samples from neighbouring Myanmar with the assistance of a powerful rebel group, Reuters reported.

IREL is also in talks

with Japanese and South Korean companies on plans to manufacture rare earth magnets commercially, Reuters reported last year.

The company is also exploring rare earth mining opportunities in Argentina, Australia and Malawi, and plans to begin rare earth magnet production in 2029 to 2030, the source said.

India has the world's third-largest rare earth reserves, estimated around 7.23 million metric tons, but does not currently produce rare earth magnets domestically.

Invest in startups now, Goyal tells India Inc

COMMERCE AND INDUSTRY Minister Piyush Goyal on Tuesday asked Indian corporates and venture funds to start investing in local startups before it is too late. "India family offices, Indian venture capital funds, Indian investors, Indian corporates all have to come into action. The ecosystem is ready. Our startups are doing some phenomenal work," he said at the closing ceremony of Bharat Innovates at Nice in France.

To industry leaders, the minister said they should co-develop and co-manufacture with the startups "so that India becomes your launchpad but global mar-

ket becomes your destination."

Established Indian companies have largely stayed on the sidelines as the country witnessed the start-up boom. The vast majority of startup funding came from foreign institutional capital like SoftBank, Tiger Global and Sequoia and they have walked away with the gains.

"There are tried and tested models in India. The market is large. The government will help you connect to the market. The policy framework is available. We are open to ideas on that front too. Invest in the future India offers to the world," he added.

FE BUREAU

Gems, jewellery exports in May plummet 2.49%

INDIA'S GEMS AND jewellery exports declined by 2.49% year-on-year in May to \$2,047.89 million following high gold prices and supply constraints, the Gem and Jewellery Export Promotion Council (GJEPC) said.

Exports were at \$2,100.21 million for the same period last year, according to GJEPC data.

The total gold jewellery exports declined by 14.75% to \$758.44 million in May compared to \$889.63 million in the same period last year.

The decline was primarily driven by a sharp contraction in Plain Gold Jewellery exports, which fell 14.75% to \$758.44 million in May, GJEPC said in a statement.

The sector has also been facing challenges arising from elevated gold prices, it added.

SPECIAL WINDOW FOR TRANSFER AND DEMATERIALIZATION OF PHYSICAL SHARES

Pursuant to SEBI Circular No. HO/38/13/11/2026-MIRSD-PODI/3750/2026 dated 30th January, 2026, shareholders of Ajanta Soya Limited ("the Company") are hereby informed that a Special Window has been opened from 5th February, 2026 to 4th February, 2027 for transfer and dematerialisation of physical shares of the Company sold/purchased prior to 1st April, 2019.

The facility shall also be available for transfer deeds executed prior to 1st April, 2019 but not lodged or rejected/returned due to deficiencies in documentation, process, or otherwise. Shares transferred under this Special Window shall be credited only in demat form and shall remain under lock-in for one year from the date of registration of transfer. Such shares shall not be transferred, lien-marked, or pledged during the lock-in period. Disputed cases and securities transferred to IEPF, if any, are excluded from this facility.

Shareholders who could not avail the earlier opportunity may submit the requisite documents to the Company's Registrar and Transfer Agent, Skyline Financial Services Private Limited ("RTA"), D-153A, 1st Floor, Okhla Industrial Area, Phase-I, New Delhi - 110020. For assistance, shareholders may contact the RTA at compliances@skylinereta.com or the Company at cs@ajantasoya.com.

UPDATE OF KYC DETAILS AND DEMATERIALIZATION OF PHYSICAL SHARES

Shareholders holding shares in physical form are encouraged to update their KYC details and convert their holdings into dematerialised (electronic) form. Holding shares in dematerialised form provides greater convenience, enhanced security, and helps avoid the risks associated with physical share certificates.
