Dear Sir/Madam,

Scrip Code: 541144 (Active Clothing Co Ltd)

Subject: Intimation under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 – Installation of 1 MW Solar Power System

Dear Sir/Madam,

Renewable Energy and Solar Power Initiative

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, it is hereby informed that

As part of its ongoing commitment towards sustainable development, energy efficiency and responsible resource utilisation, the Company has taken a significant step towards increasing the adoption of renewable energy across its operations. In this regard, the Company has **installed and commissioned a solar power system with an aggregate capacity of 1 MW at its facility.**

The solar power system has successfully commenced operations and is expected to contribute towards meeting a portion of the Company's electricity requirements through renewable energy. The initiative is aimed at reducing the Company's dependence on conventional sources of electricity and increasing the share of renewable energy in its overall energy mix. The adoption of solar power is also expected to support the Company's efforts towards efficient energy management and responsible utilisation of natural resources.

The installation and commissioning of the solar power system represent an important step in the Company's continued efforts to integrate environmentally sustainable practices into its manufacturing and operational activities. The initiative is aligned with the Company's broader focus on improving energy efficiency, promoting resource conservation and reducing the environmental impact associated with its operations.

The Company recognises the importance of transitioning towards cleaner and more sustainable sources of energy and remains committed to identifying and implementing appropriate measures to improve its environmental performance. The Company will continue to evaluate opportunities for increasing the utilisation of renewable energy, improving energy efficiency and adopting suitable technologies and practices that support sustainable manufacturing and operational efficiency.
