Commenting on the results, Mr. Sachin Subhash Vora, Promoter, Chairman & MD of Kranti Industries Limited, said,

"Q1 FY27 represented a period of measured execution for Kranti Industries Limited, accompanied by an improvement in operating performance. The Indian automotive sector remained relatively stable, supported by domestic demand, rising localisation and India's expanding position within global manufacturing. During the quarter, revenue from operations stood at ₹2,547 lakhs, reflecting 26.8% YoY growth. EBITDA stood at ₹288 lakhs, with an EBITDA margin of 11.3%. The results reflect the benefits of operating discipline, expenditure control and changes in business mix. PAT recorded a marginal loss of ₹5.5 lakhs, mainly due to increased finance costs arising from higher working capital requirements, along with higher depreciation.

Looking ahead, our priorities will centre on strengthening customer engagement, enhancing capacity utilisation, pursuing new business opportunities and maximising the effectiveness of our existing manufacturing capabilities. We will continue to review expenditures, improve operational productivity and work towards strengthening earnings. At the same time, greater localisation and domestic sourcing offer opportunities for Indian component manufacturers. Our approach will remain focused on consistent execution, product quality and reliable customer service, while building a broader business pipeline during FY27."
