We request you to take the same on your records.

Thanking you,
Yours faithfully,
For Orient Green Power Company Limited

G. Srinivasa Ramanujan
Company Secretary & Compliance Officer

OGPL achieves highest net profits in its history in FY26

Chennai, May 11, 2026 – Orient Green Power Company Limited (NSE - GREENPOWER | BSE - 533263 | INE999K01014), One of India's foremost independent renewable power producers, focused on renewable energy operations, has reported its Financial Results for FY26.

Key Financial Highlights

Particulars (₹ Cr)	Consolidated					
	Q4 FY25-26	Q4 FY24-25	YoY	FY25-26	FY24-25	YoY
Total Income	46.62	47.63	(2%)	315.57	278.89	13%
EBITDA	18.15	22.53	(19%)	205.45	187.31	10%
EBITDA Margin (%)	39%	47%	-	65%	67%	-
Net Profit	(16.56)	(15.09)	(10%)	71.57	42.01	70%
Net Profit margin (%)	(36%)	(32%)	-	23%	15%	-

Business Highlights of FY26:

- Achieved highest net profit in the company's history
- Commissioned our first solar power plant in Dec 2025.
- Expanded wind capacity by 9.9 MW with 3 X 3.3 MW larger capacity turbines.
- Initiated repowering of old wind turbines, first under new repowering policy of Tamil Nadu.
- Increase in yearly turnover and EBITDA by ~13% and ~10% respectively.
- Interest cost down from ₹71.99 crores to ₹57.18 crores, ~21% reduction.
- Received refund of ~₹16 Crores excess interest charged in earlier years/periods.
- Credit rating upgrade and 45 bps reduction in interest rates at material subsidiary

Commenting on the performance, Mr. T Shivaraman, Managing Director & CEO, said:

"In FY26 favourable wind patterns observed especially in the first half of the fiscal year, benefited the generation and revenues for the fiscal. In addition, commissioning of the first ever solar plant of 7MW in Dec 2025 also supported the topline. Further, in the previous quarters, receipt of one off refund of excess interest charged in earlier years also boosted the profits for the entire fiscal. Overall, total income and net profit increased by 13% and 70% respectively during the year and the impressive performance over large part of the year enabled the company to register its highest ever net profit in the company's operating history despite the seasonal dip in wind patterns and muted performance in the last quarter.

In addition to successfully commissioning its first solar plant of 7 MW, the company has also contracted to add another 17.6 MW solar capacity. Other than solar additions, the company has also enhanced its wind portfolio by recently completing expansion with 9.9 MW larger capacity rated wind turbines and has also taken strategic initiatives to improve operating efficiencies by repowering about 7.8 MW of old wind turbines capacity, a first under the new repowering policy. The investment plans are anticipated to be completed in the fiscal FY2026-27 and to generate returns from next fiscal.

Overall FY26 was a fantastic as well as a breakthrough year for the company with many firsts. The above initiatives and investments plans, coupled with the completion of component upgradation undertaken over the previous years, and further bolstered by improved financial rating and liquidity position, are anticipated to sustain the company's growth momentum and generate improved returns in the years to come."

About Orient Power Company Limited

Orient Green Power Company Limited (OGPL), headquartered in Chennai and promoted by SVL Limited, is among the largest independent renewable power producers in India. The Company currently operates ~381.7 MW of wind power capacity across high-potential states such as Tamil Nadu, Andhra Pradesh, Gujarat, and Karnataka, alongside a 10.5 MW wind farm in Croatia, Europe and a 7 MW solar power plant in Tamil Nadu commissioned in FY26.

As a top independent operator and developer of wind farms in India by aggregate installed capacity, OGPL has built its expertise in identifying optimal locations, deploying advanced wind turbine designs, and maximizing generation efficiency. Its projects are strategically located in states with strong wind energy potential and supportive renewable energy policies, reinforcing its competitive positioning in the sector. By combining years of operational experience, strong technical capabilities, and a commitment to sustainable growth, the Company continues to play a key role in advancing India's renewable energy transition.

In FY26, the company on a consolidated basis reported Total Income of ₹315.57 Cr, EBIDTA of ₹205.45 Cr and Net Profit of ₹71.57 Cr.
