GSP Crop Science Limited – Q1FY27

Reports 16% YoY Growth in PAT; Revenue from Operations at ₹3,860 Mn

Ahmedabad, 11th August 2026: GSP Crop Science Ltd (NSE: GSPCROP; BSE: 544733) an agrochemical manufacturer of crop protection products, announced its unaudited financial results for the quarter ended June 30, 2026.

Key Consolidated Financial Summary:

Particulars (₹ Million)	Q1FY27	Q1FY26	YoY %
Revenue from Operations	3,860	3,770	2%
Gross Profit	1,424	1,299	10%
Gross Profit Margin	36.9%	34.5%	
EBITDA	425	424	-
EBIDTA Margin	*11.0%*	*11.2%*	
Profit after Tax (PAT)	264	226	17%
PAT Margin	*6.8%*	*6.0%*	

Key Quarterly Highlights

- Revenue from Operations stood stable at ₹3,860 Mn, with strong momentum in the domestic business partly offset by temporary raw material availability constraints impacting international sales.
- Global geopolitical developments, climate-related risks and supply chain disruptions impacted the availability of key raw materials, resulting in volatility in their prices in Q1FY27.
- Gross Profit grew 10% YoY to ₹1,424 Mn, with margin improving to 37% from 34%. This was mainly due to improved product mix
- Employee costs increased on a YoY basis due to a higher employee base and annual increments.
- Other expenses were higher compared to the corresponding period last year, driven by the commencement of operations at the new subsidiary unit and foreign exchange movements.
- Increase in other income was mainly due to profit on sale of lease land.
- Interest cost reduced due to prepayment of term loan.
- PAT increased 16% YoY to ₹264 Mn.
- GSP Crop Science Limited completed the acquisition of the remaining 21% equity stake in GSP Intermediates Private Limited (GIPL) on 11 June 2026. Following the acquisition, GSP's holding in GIPL increased to 100%, making GIPL a wholly owned subsidiary of the Company.
- In Q1FY27, the Company capitalised its warehouse at Saykha GIDC, while GIPL fully commissioned its ETP & MEEA plant at Saykha GIDC, further strengthening its manufacturing infrastructure.

Commenting on the overall performance of the Company Mr. Bhavesh Shah, Chairman and Managing Director, GSP Crop Science Ltd, **said:** *"in Q1FY27, the Revenue from Operations was stable mainly due healthy growth across our domestic B2C and B2B businesses despite a volatile operating environment. The international business was relatively muted, primarily due to limited availability of certain raw materials. During the quarter, the industry witnessed volatility in raw material prices along with supply constraints.*

However, our longstanding industry experience, market leadership and strong supplier relationships enabled us to effectively navigate these challenges

Gross profit margin improved during the quarter, supported by a favourable shift in product mix.

During the quarter, we further strengthened our manufacturing capabilities with the commissioning of the ETP & MEEA plant at GSP Intermediates and capitalisation of the warehouse at Saykha GIDC. The acquisition of the remaining 21% stake in GIPL also made it a wholly owned subsidiary of GSP Crop Science.

We continued to build on our presence across our product portfolio with a strong pipeline of products which will be filed for patent.

We remain confident in the long-term prospects of the industry and company."

About GSP Crop Science Ltd:
GSP Crop Science Limited is an India-based crop-protection company engaged in the development, manufacturing and distribution of agricultural solutions. The Company offers a portfolio comprising insecticides, herbicides, fungicides and plant growth regulators, serving the needs of farmers and customers across domestic and international markets.

With over four decades of industry experience, GSP operates manufacturing facilities across five locations and has two in-house R&D facilities supporting product development, formulation capabilities and innovation. The Company has a broad customer and distribution network and serves markets across India and overseas.

GSP Crop Science remains focused on delivering effective crop-protection solutions through innovation, manufacturing capabilities, farmer engagement and responsible business practices.
