- EBITDA for H1 FY27 stood at Rs. 65.98 crs against Rs. 39.94 crs during H1 FY26.
- PBT during the quarter has increased substantially to ₹ 21.40 crs from ₹ 4.70 crs in Q2 FY26 .
- Similarly, PAT during the quarter has also jumped to ₹15.80 crs from ₹ 4.07 crs in Q2 FY26.

Commenting on the Results, Mr. K.K. Sardana, Managing Director said,

Q2 FY27 marked a strong quarter for the Company, with a significant improvement in performance year-on-year, reflecting improved demand across key end-user industries and the benefits of disciplined execution. Demand remained healthy across food processing, paper, textiles and other industrial segments, supporting higher volumes, improved capacity utilization and stronger profitability during the quarter.

As demand conditions continue to improve, we are focused not only on capturing near-term growth opportunities but also on building capabilities for the next phase of expansion. Our proposed 1,200 TPD maize-processing facility in the State of Maharashtra will meaningfully increase the capacity, strengthen our competitive positioning and provide a platform for greater participation in higher-value starch derivative segments. The project represents an important step in our growth journey which will substantially enhance the scale, improve operating efficiencies and support future value creation.

With a strong market position, diversified customer relationships and strategic investments in capacity expansion, we believe the Company is well placed to benefit from the structural growth opportunities within the starch industry and deliver sustained value for all stakeholders.

About Sukhjit Starch & Chemicals Ltd:
