Can Fin Homes Unveils Project Tejas

Can Fin Homes has implemented Project Tejas, a Rs. 297-crore, seven-year enterprise digital transformation programme to modernise its technology infrastructure and build a connected, agile and future-ready organisation.

Press Release

Bengaluru, 11th September 2026: As part of its ongoing digital transformation journey, Can Fin Homes has been progressively strengthening its technology landscape to build a connected, agile and future-ready organisation. In this direction, Project Tejas symbolises a paradigm shift towards a digital future for Can Fin Homes. The acronym 'TEJAS' stands for Tech Enhanced Journey for Agility C Scalability.

Embarking on the project in February 2025, its pilot phase was implemented across 11 branches in July 2026. The Company has since scaled implementation to ~177 branches to date.

The implementation of Project Tejas marks a significant milestone, establishing a modern technology foundation that enables enhanced capabilities, seamless integration, greater agility and improved customer and operational experiences, while positioning Can Fin Homes to adapt and scale effectively in an increasingly digital environment.

Project Tejas further strengthens Can Fin Homes' technology landscape through an integrated, cloud-enabled and data-driven ecosystem spanning lending, collections, deposits, finance, risk, document management, HR and enterprise reporting. The programme is designed to enhance digital capabilities, streamline workflows and enable faster, more informed decision-making through real-time monitoring, customer self-service, Account Aggregator integrations, and advanced data and analytics capabilities.

The programme brings together a strong ecosystem of technology and consulting partners, including PwC, IBM India Pvt. Ltd. and KPMG, along with Pennant Technologies, Kiya, Astral Infor, Newgen, Knight FinTech, Trustt, Workline and Shephertz bringing together diverse expertise to support Can Fin Homes' digital transformation journey.

The technology ecosystem is further supported by Amazon Web Services (AWS), Microsoft, Fortinet, CtrlS, Motadata, Bloo and Arcon, enhancing Can Fin Homes' capabilities across cloud, networking, cybersecurity, IT service management and enterprise technology, and providing a scalable foundation for future growth and innovation.

Can Fin Homes is also progressively integrating **AI-enabled capabilities** across areas such as document processing, bank-statement analysis, fraud controls, underwriting, collections and customer servicing, further strengthening its ability to deliver intelligent, responsive and seamless solutions for its customers.

Project Tejas marks an important step in Can Fin Homes' digital journey, creating a secure, scalable and future-ready technology foundation to support operational excellence, stronger governance, sustainable growth and an enhanced customer experience.

About Can Fin Homes Limited:

Can Fin Homes Limited (CFHL) is a leading Housing Finance Company (HFC) in India, built on a 39-year legacy of sustained growth. Promoted by Canara Bank in 1987, the organization has established a robust pan-India footprint of 266 branches spanning 21 States and 1 Union Territory. Can Fin Homes offers a comprehensive portfolio of financial products, including housing loans, non-housing loans, and deposit schemes. Guided by a customer-centric approach, the company continues to foster accessible homeownership and financial stability across urban and semi-urban markets nationwide.
