Vikram Solar Secures 124 MW Module Supply Order for a Solar Project in Andhra Pradesh

Kolkata, September — Vikram Solar, one of India's leading solar PV module manufacturers, has secured a 124 MW module supply order for a solar project in Anantapur, Andhra Pradesh, reinforcing its growing presence in India's utility-scale and large-scale solar ecosystem.

Under the agreement, Vikram Solar will supply its high-efficiency G12R TOPCon modules, with rated capacities ranging from 620 Wp to 630 Wp. Module supplies are scheduled to commence in October 2026.

This order underscores Vikram Solar's strengthening position to serve this growing market, building on its recent scale-up to 15.5 GW of module manufacturing capacity. With an expanding manufacturing footprint and an evolving technology portfolio, the company is strengthening its ability to serve the requirements of utility-scale projects while supporting India's broader transition towards greater domestic manufacturing and energy self-reliance.

Mr. Sameer Nagpal, Chief Executive Officer, Vikram Solar, said, *"Every module supply order we sign is a vote of confidence - not just in our capacity, but in the technology and consistency we bring to the table. Solar developers today are looking for partners who can match the pace of India's energy ambitions with equally advanced solutions. Our G12R TOPCon platform represents that commitment to staying ahead of the curve, and this partnership reaffirms the confidence the industry continues to place in Vikram Solar as India builds out its utility-scale solar infrastructure. We remain focused on deepening these partnerships as the country's clean energy story continues to unfold."*

About Vikram Solar Limited:

Vikram Solar Limited is one of the leading Indian solar module manufacturers, specializing in efficient photovoltaic (PV) module manufacturing, with an international presence across 39 countries. Headquartered in Kolkata, West Bengal, it is one of the largest PV module manufacturers in India. Vikram Solar is a 9th time 'Top Performer' in PVEL's PV Module Reliability scorecard and has been included in the Tier 1 solar PV modules manufacturer list of Bloomberg NEF for 9 consecutive quarters. Vikram Solar Limited has established a pan-India presence through an extensive distributor network of 119 authorized distributors and more than 750+ dealers.
