Sub.: Press Release - Intimation under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulation, 2015.

Dear Sir/Madam,

With reference to the captioned subject, we are enclosing herewith a Press Release with respect to **"Servotech Secures BEE 5-star Rating for 60 kW & 120 kW DC EV Chargers."**

Please consider the aforesaid as relevant disclosure required under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Kindly take the above information on record and oblige.

Thanking You,

**FOR SERVOTECH RENEWABLE POWER SYSTEM LIMITED
(FORMERLY KNOWN AS SERVOTECH POWER SYSTEMS LIMITED)**

**RUPINDER KAUR
COMPANY SECRETARY AND COMPLIANCE OFFICER

PRESS RELEASE

Servotech Secures BEE 5-star Rating for 60 kW & 120 kW DC EV Chargers

New Delhi, 25th June 2026: Servotech Renewable Power System Ltd. (NSE: SERVOTECH), a leading manufacturer of EV charging and renewable energy solutions, has secured the **5-Star rating** from the **Bureau of Energy Efficiency (BEE)** for its **60 kW & 120 kW DC Fast EV Chargers**.

The certification has been awarded under the Bureau of Energy Efficiency's EV Charger Star Labelling Programme. Servotech's **ST-EVDC60KW** and **ST-EVDC120KW** EV Charger models, achieved a weighted average energy **efficiency of 97%**, placing them in the highest rating category under the programme. These cutting-edge chargers set a new gold standard for power conservation and operational reliability across the electric vehicle ecosystem.

The achievement reinforces Servotech's commitment to developing high-efficiency EV charging solutions that help reduce energy losses, improve charging performance, and lower operating costs for charge point operators, fleet owners, and infrastructure developers. The certification further strengthens Servotech's competitive position across government, PSU, OMC, commercial, and fleet charging deployments where energy efficiency and lifecycle operating costs are increasingly becoming key procurement considerations.

Commenting on the development, Raman Bhatia, Managing Director, Servotech Renewable Power Systems Ltd. said, "We are delighted to secure the BEE 5-Star Rating for our 60 kW and 120 kW DC Fast Chargers. This is a monumental validation of our engineering excellence as we scale the nation's EV charging infrastructure and critically prioritize energy efficiency. For the past years, we have focused most of our investments on new product development, quality enhancement, and automation, indigenising components and expanding production capacities. This recognition

About Servotech Renewable Power System Limited (Formerly known as Servotech Power Systems Ltd.):

Servotech Renewable Power System Limited (Formerly known as Servotech Power Systems Ltd.) is an NSE-listed organization that develops tech-enabled EV charging and renewable energy solutions, leveraging over two decades of experience and expertise in the electronics space. The Company offers an integrated portfolio across DC chargers, solar inverters (Hybrid and GTI models), Battery Energy Storage Systems (BESS), and lithium-ion battery packs, serving multiple applications across commercial and domestic segments. With its comprehensive engineering capabilities, Servotech plays a pivotal role in developing India's renewable energy and EV technology infrastructure. As a trusted brand with a strong pan-India presence, the Company's legacy is marked by proven innovations and the development of advanced technologies.

Disclaimer:

This press release contains "forward-looking statements" — that is, statements related to future, not past, events. In this context, forward-looking statements often address our expected future business and financial performance, and often contain words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "should" or "will." Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For us, uncertainties arise from the behaviour of the renewable energy, electronics, and EV infrastructure industries; from the integration and performance of our subsidiaries and joint ventures; and from numerous other matters of national, regional, and global scale, including those of a political, economic, business, competitive, or regulatory nature. These uncertainties may cause our actual future results to be materially different from those expressed in our forward-looking statements. We do not undertake to update our forward-looking statements.
