Dear Sir/Madam,

Sub: Disclosure under Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Pursuant to the provisions of Regulation 30 read with Part A Para B of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“**Listing Regulations**”), we wish to inform as under:

The Company vide its letter ref. no. COSEC/115/2025-26 dated 29th October, 2025 informed about the Establishment of a greenfield Switchgear Business (Setting up of new Switchgear Plant) manufacturing facility in Western India, considering the strong growth potential in the domestic and export markets for Switchgear products, and to strengthen its position across Medium Voltage ("MV") and Extra High Voltage ("EHV") segments enabling the Company to double its existing Switchgear manufacturing capacity and to cater to the complete product range including MV and EHV Switchgear, Substation Automation Systems, and Power Electronics solutions at a total estimated project cost of approximately Rs. 748.20 Crores (net of taxes) to be funded through a mix of internal accruals, equity, or debt, or a combination thereof on approximately 35 acres of land, with a built-up area of around 72,000 sq. meters and expected to be completed within 33 months.

The Company is in the process of setting up the Greenfield Project. The Company has set up an Extra High-Voltage(EHV) Switchgear Manufacturing Facility S3 Unit-II in Nashik which was inaugurated today i.e. 4th June, 2026. It is expected that 97% of the capex incurred for the facility will be utilized for the Greenfield project.

Annexure I

Sr. No.	Particulars	Description
1.	existing capacity;	9,000 units (annually) at S3 Unit-1 manufacturing EHV circuit breakers in the 33kV to 800 kV range.
2	existing capacity utilization;	Approx. 85% of the existing capacity
3.	proposed capacity addition;	7,200 units (annually) at S3 Unit-II to manufacture EHV circuit breakers in the 33kV to 245kV range including 500kV and 350kV high-voltage testing laboratories.
4.	period within which the proposed capacity is to be added;	The commercial production of the Extra High-Voltage Switchgear Manufacturing Facility in Nashik was commenced today i.e. 4 th June, 2026.
5.	investment made;	Rs. 39.49 cr.
6.	mode of financing;	Internal accruals
7.	rationale	Huge demand and capacity constraint in existing facility

PRESS RELEASE

CG Power Commissions Extra High-Voltage Switchgear Manufacturing Facility in Nashik

Mumbai, India, June 4, 2026:

CG Power and Industrial Solutions Ltd. (CG), an engineering conglomerate and a leader in the electrical engineering industry, today announced the commissioning of its extra high-voltage (EHV) switchgear manufacturing facility, S3 Unit-II, in Pimpalgaon Garudeshwar, Nashik, Maharashtra. This is in addition to the S3 Unit-I manufacturing facility at Ambad, Nashik which manufactures EHV circuit breakers in the 33kV to 800kV.

The new facility will manufacture EHV Circuit Breakers in the 33 kV to 245 kV range and expands CG's EHV circuit breaker manufacturing capacity by 80%. Equipped with advanced manufacturing and testing infrastructure, including 500 kV and 350 kV high-voltage testing laboratories, the Facility has been designed to meet the growing demand for reliable power transmission equipment across domestic and international markets.

The Facility strengthens CG's ability to serve critical sectors such as utilities, railways, renewable energy, oil and gas, and transmission infrastructure projects. It will also support the company's growing export business.

Built in line with CG's commitment to responsible manufacturing, the Facility incorporates energy-efficient systems, rainwater harvesting and water recycling infrastructure, and zero liquid discharge operations. These initiatives are expected to improve resource efficiency while reducing energy consumption and environmental impact.

Amar Kaul, Group CEO and Managing Director, CG Power and Industrial Solutions Limited, said, "The commissioning of S3 Unit-II marks an important milestone in our growth journey and reflects our confidence in opportunities emerging from grid expansion, renewable energy integration and infrastructure development. As demand for high-voltage transmission equipment continues to grow in India and across global markets, this facility enhances our ability to deliver world-class products at scale. The investment also reinforces our commitment to supporting the evolving energy needs of our customers through innovation, quality and operational excellence."

About CG Power and Industrial Solutions Limited

CG Power and Industrial Solutions Limited (Company) is an engineering conglomerate headquartered in Mumbai, India. The Company is a leader in the Electrical Engineering Industry and has two business lines - Industrial Systems and Power Systems. It manufactures Traction Motors, Propulsion Systems, Signaling Relays etc., for the Indian Railways, and wide range of Induction Motors, Drives, Transformers, Switchgears, and other allied products for the Industrial and Power sectors. Recently, the Company also is into the business of Consumer Appliances such as Fans, Pumps, and Water Heaters. The company has forayed into the semiconductor space and is setting up an Outsourced Semiconductor Assembly and Testing (OSAT) facility, offering comprehensive test services on a global scale. Moreover, the

company has also successfully acquired the Radio Frequency (RF) components business from Renesas and set up Axiro Semiconductor - a fabless design company focused on delivering high-performance and scalable semiconductor solutions.

The Company has 18 world-class manufacturing units across India and one in Sweden, and a Pan India network of 5 Regional and 14 Branch offices, with over 3,825 employees. The Company's consolidated revenue for FY26 was Rs. 12,418 crores.

The Company continues to excel and maintain its leadership position across its businesses, backed by its outstanding expertise, customer-centric approach, and enhanced focus on innovation and sustainability.

Since November 2020, the Company has become a part of the renowned Murugappa Group.

About Murugappa Group

A 125-year-old conglomerate with presence across India and the world, the INR 902 billion (90,178 crore) Murugappa Group has diverse businesses in agriculture, engineering, financial services and more.

The Group has 10 listed companies: Carborundum Universal Limited, CG Power & Industrial Solutions Limited, Cholamandalam Financial Holdings Limited, Cholamandalam Investment & Finance Company Limited, Coromandel International Limited, E.I.D.-Parry (India) Limited, NACL Industries Limited, Shanthi Gears Limited, Tube Investments of India Limited, and Wendt (India) Limited. Other major companies include Cholamandalam MS General Insurance Company Limited and Parry Agro Industries Limited. Brands such as Ajax, Hercules, BSA, Montra, Montra Electric, Mach City, Chola, Chola MS, CG Power, Shanthi Gears, CUMI, Gromor, Paramfos, Parry's are part of the Group's illustrious stable.

Abrasives, technical ceramics, electrominerals, electric vehicles, auto components, fans, transformers, signalling equipment for railways, bicycles, fertilisers, sugar, tea, and several other products make up the Group's business interests.

Guided by the Five lights — integrity, passion, quality, respect, and responsibility — and a culture of professionalism, the Group has a workforce of 94,041 employees.
