Hexaware Positioned as a Visionary in the 2026 Gartner® Magic Quadrant™ for Custom Software Development Services

October 7, 2026: Hexaware Technologies (NSE: HEXT), a global provider of IT solutions and services, today announced it has been positioned as a Visionary in the 2026 Gartner® Magic Quadrant™ for Custom Software Development Services.

Hexaware believes this positioning reflects its strategy of delivering custom software development through persistent engineering pods, powered by its proprietary AI platform stack and a talent model built around senior engineering expertise.

The company's proprietary platforms, including RapidX®, Agentverse™, and Tensai®, form the foundation of its AI-native delivery approach, enabling clients to accelerate software builds and modernization programs through pre-built AI agents and automated development lifecycles operating under human-supervised quality gates.

Gartner

Gartner, Magic Quadrant for Custom Software Development Services, By Jaideep Thyagarajan, Ryan McKinney, Nathan Davie, 07 October 2026

"To us, being recognized as a Visionary reflects what our teams have been building toward — an engineering model where AI does the heavy lifting on speed and scale, and our people focus on the decisions that actually matter to clients. That combination is what makes the difference in complex modernization work."

Sanjay Salunkhe, President & Global Head – Digital & Software Services, Hexaware
