L.T. ELEVATOR[®]

To,

Department of Corporate Services

Bombay Stock Exchange Limited25th Floor, P. J. Tower, Dalal Street,

Fort, Mumbai- 400 001.

Date: 15th July, 2026

Dear Sir/Madam,

Sub: Intimation under Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations") – Commencement of Construction of Integrated Manufacturing Facility

Ref: Scrip Code: 544518 (L. T. ELEVATOR LIMITED)

Pursuant to Regulation 30 of the SEBI Listing Regulations, we wish to inform you that L.T. Elevator Limited has performed the *Bhoomi Pujan* (Groundbreaking Ceremony) on July 13, 2026, marking the formal commencement of construction of its Integrated Manufacturing Facility on its recently acquired land parcel in West Bengal. The facility is expected to be commissioned in Q4 FY27.

Please find enclosed a press release providing further details of the aforesaid development, including its strategic significance and the expected impact on the Company's manufacturing capacity and operations.

The said press release is also being uploaded on the Company's website at: <https://www.lteelevator.com/page/compliances>

We request you to take note of the same.

Thanking you,

FOR, L. T. ELEVATOR LIMITED

ARVIND GUPTA
MANAGING DIRECTOR

Kolkata, 15 July 2026

L.T. Elevator Commences Construction of Integrated Manufacturing Facility with Bhoomi Pujan — Capex to become Operational in Q4 FY27

L.T. Elevator Limited (BSE: 544518), a leading provider of elevator solutions and automated parking systems, is pleased to announce that it has performed the Bhoomi Pujan (Groundbreaking Ceremony) for the construction of its **Integrated Manufacturing Facility** on 13 July 2026. The ceremony marks the formal commencement of site development on the Company's recently acquired land parcel, and the facility is expected to be commissioned by **Q4 FY27**.

ABOUT THE INTEGRATED MANUFACTURING FACILITY

The new facility, located at the Company's land parcel in West Bengal, represents a significant step in L.T. Elevator's strategic expansion. Upon commissioning, the facility is expected to **increase installed manufacturing capacity by approximately 2.5x**, enabling the Company to scale production to meet growing demand across its elevator, car parking, and home elevator segments.

The integrated facility will consolidate manufacturing, sourcing, and execution under one roof — reducing lead times, improving cost efficiency, and strengthening the Company's ability to serve large-scale institutional and government projects.

The facility will be equipped with **state-of-the-art machinery and advanced manufacturing processes** capable of supporting the latest generation of elevator and automated car parking systems. Key equipment being deployed at the new facility includes a **CNC Press Brake Bending Machine (135 Tons / 4000mm)** for high-precision sheet metal fabrication, a **1.5 kW Hand-Held Fibre Laser Welding System** for clean, high-strength welds on structural components, and a **TRUMPF TruPunch 1000 CNC Punching Centre** and **TRUMPF TruBend 3120 Press Brake** — globally recognised for precision metal forming. Together, these systems enable the Company to address technically demanding project specifications across passenger, goods, hospital, home elevator, and multi-level car parking segments.

Upon full ramp-up, the integrated facility is expected to deliver a **peak revenue potential of approximately ₹400 crore**, supported by an installed capacity to manufacture **approximately 2,500 elevator units** and **8,000 car parking spaces** annually — representing a step-change in scale relative to the Company's current manufacturing base.

The land parcel has additionally been designed to accommodate **further brownfield expansion** as the Company scales — providing a long-term runway for capacity additions without the need to acquire new land, and preserving optionality for the next phase of growth beyond FY28

STRATEGIC SIGNIFICANCE

- **Capacity scale-up:** Current installed capacity will be expanded ~2.5x upon commissioning in Q4 FY27, directly supporting the Company's order book growth trajectory.
- **Integrated operations:** The facility brings manufacturing, sub-assembly, and component sourcing in-house, reducing dependence on outsourced production and improving margin visibility.
- **Larger-ticket project readiness:** With a stronger balance sheet and enhanced manufacturing credentials post-listing, the Company is actively targeting significantly larger institutional, smart city, and government contracts.

*"Crossing ₹111 crore in revenue in FY26 while simultaneously laying the foundation for our integrated manufacturing facility marks a defining chapter for L.T. Elevator. This Bhoomi Pujan is not just a groundbreaking ceremony — it is a declaration of intent. When this facility comes online in Q4 FY27, it will materially transform our capacity, our cost structure, and our ability to pursue larger and more complex projects. **We are building for the next decade.**"*

— Mr. Yash Gupta, Director, L.T. Elevator Limited

ABOUT L.T. ELEVATOR LIMITED

Incorporated in 2008, L.T. Elevator Limited is a leading East India-based manufacturer offering end-to-end elevator solutions (Passenger, Goods, Hospital, Home) and automated parking systems through its wholly owned subsidiary Park Smart Solutions Limited. The Company is also expanding into the D2C home elevator segment. With an ISO 14001:2015 certified plant in West Bengal and **21 offices** across India, the Company serves real estate developers, hospitals, premium residential projects, and government institutions on a turnkey Engineering + O&M basis.
