Indian Railways is transforming how India travels, and passenger comfort, safety and hygiene are now national priorities. Acme's role & endeavor is to be a reliable lifecycle partner in that effort, from furnishing new coaches to technological modernisation and refurbishing & Mid Life Rehabilitation (MLR) of old coaches in service. Ours is a long-cycle business, and we ask investors to analyse our company over years, not a single half."*

Mr. Suraj Pandey, Managing Director, added, *"Revenue from Operations in the first half grew to ₹73.56 Cr, about 3 times the same period last year, led by technological Modernisation & upgradation of old coaches. Our order book of ₹727.54 Cr gives us strong visibility, and as in past years we expect the second half to be significantly stronger. The record Railway budget, the growing Refurbishment cycle of LHB coaches and our new approval for Supplies, Repair and technological upgrades are providing immediate & significant opportunity in the Railway market. Our focus in next half year would be on timely execution, better cash collection and healthy margins."*
