Management Commentary

A Message From The Founder

Akshay Chhabra

Managing Director & Chairman

Q1FY27 marks a defining phase in our transformation as the strategic investments we have made, begin translating into business momentum.

Netcom has expanded our global delivery footprint and strengthened our capabilities across key international markets, while ResolX is accelerating our evolution from service delivery to AI-led, outcome-driven enterprise operations. Together, our global delivery engine and our agentic AI engine position 1Point1 Solutions to address a significantly larger market opportunity with differentiated capabilities spanning global delivery, intelligent automation and measurable business outcomes.

We believe a significant reset in Customer Experience is creating a new growth paradigm — one where success is defined not by service delivery, but by measurable business outcomes. Agentic AI is resetting the starting line, and we come to it with global scale, domain depth and two stock-exchange listings. 1Point1 is built to lead this transformation.

Our AI Positioning

Four principles that define how we build AI

1POINTTM

Utility Over Hype

Purpose-built tools designed for utility, not trends.

We don't build for trends; we build for the workflow. Each module in ResolX suite is made to solve specific operational frictions to make sure your team is spending less time searching and more time resolving.

Zero-Lag Customization

Immediate response to evolving client requirements.

Since we own the entire stack, we can customize, pivot and adapt the platform as per your business needs in real time. We go with the pace of your business and not a vendor's cycle.

Direct Value Transfer

Eliminating third-party overhead to maximize client ROI.

We will help you cut off the "middleman tax" as you will be saved from third party licensing fees and integration overhead, passing the efficiency of our proprietary stack directly to your bottom line.

Velocity as a Moat

Faster rollouts to keep your business ahead of the curve.

In "CX" you can't be late. As it is the same as being "wrong". Our approach allows us to deploy modules in days. This turns a strategic intent into an operational reality quicker than any pureplay tech vendor.

How We Win Each Conversation

1Point1 Solutions delivers business outcomes, not just outsourced capacity

1POINT1™

Metric	Legacy BPM Model		1Point1 Outcome Operations
 Scale Model	Headcount as proof of commitment. The bigger the team, bigger the invoice.	>	 800 to 8,000 - the team scales with the outcome, not the contract.
 Retention	Clients renew because switching costs are high, not because results are good.	>	 12 consecutive renewals - not because contracts lock clients in, but because outcomes keep them.
 AI Model	Rented AI layered on top of the same old process.	>	 ResolX: domain-trained, operation-native AI - built inside the workflow, not bolted on top of it.
 Commercial Model	We put our fee where our claim is.	>	 20% of our fee is at risk on every engagement. Our fees move with your outcomes, not our effort
 Speed to Value	6–18 months to first proof point - if it ever arrives.	>	 First measurable outcome in 6–10 weeks. Not a pilot. Not a dashboard. A result.

ROI PROOF: Delivering measurable business impact through higher productivity, lower cost-to-serve and faster time-to-value

- AI powered recovery models for EMI & claims

ROI PROOF Our recovery operations safeguard lending portfolios worth thousands of crores, driving client renewals as recovered value is clearly reflected in their books.

PERFORMANCE & ROI CLAIMS

Trust & Safety

Engineered to secure every interaction, identity and outcome

1POINT™

? WHY US

- ✓ Trust & Safety demands high-precision execution where missed fraud alerts, identity errors, proctoring lapses or moderation failures can create significant downstream risk
- ✓ Our hybrid intelligence model combines domain-trained specialists with AI-powered automation and human validation to enhance accuracy, speed and consistency thereby safeguarding compliance, trust and business outcomes.

PROVEN IN THE PORTFOLIO

- Delivering large-scale review, verification & compliance operations with 100% audit-ready track record across regulated workflows for over 24 months
- Proven HIPAA / SOC 2 compliance
- Hybrid Intelligence-led review models
- AI – enabled workflows

ROI PROOF: Higher protection at lower cost, achieved through near-zero compliance findings and double-digit efficiency gains across every Trust & Safety engagement

PERFORMANCE & ROI CLAIMS

Finance & Accounting

Engineered for accuracy, compliance and accelerated financial performance

? WHY US

- ✓ Optimize Cash Flow & Working Capital by streamlining Accounts Payable, collections and DSO management to strengthen liquidity, vendor relationships and overall financial performance
- ✓ Drive Accuracy, Compliance & Control by combining deep domain expertise with process excellence to reduce operational risk & improve governance

PROVEN IN THE PORTFOLIO

- Faster transition & stabilise high-volume F&A processes from multiple locations into a single, governed delivery model
- Strong control environment with standardised reconciliations, approval metrics and audit-ready documentation embedded in daily operations
- Order-to-cash, procure-to-pay & record-to-report towers for global and regional clients, not just transactional fragments
- Data-driven dashboards and analytics that turn finance operations into a decision engine

ROI PROOF: CFOs gain a more agile and controlled finance function which is operating 15–30% leaner while delivering faster closes, greater accuracy and deeper decision intelligence

PERFORMANCE & ROI CLAIMS

Knowledge Process Excellence (Medical, Legal & IP)

1POINT™

Engineered to ensure precision, compliance & uncompromised quality across every page & phrase

? WHY US

- ✓ Execute complex, judgment-heavy knowledge processes including end-to-end medical record retrieval, medico-legal summaries, litigation-ready chronologies and IP infringement reviews.
- ✓ Built for the US/North America market where legal exposure is high, accuracy and compliance are non-negotiable.

CLARIVA

Launched Clariva – AI-enabled medical record retrieval process with automated extraction and structuring, humans verifying critical outputs and quality assured at every step.

PROVEN IN THE PORTFOLIO

- 17k+ requests / 25k+ records per month; 8k+ invoices processed.
- 3-day turnaround on record organization and chronology.
- Medical professionals preparing summaries in standard formats.
- IP-infringement and other sensitive reviews.

ROI PROOF: Every error carries legal & financial exposure, we eliminate it at source while reducing cycle time and effort across every file, ensuring accuracy without operational drag

PERFORMANCE & ROI CLAIMS

IT Solutions

1POINTTM

Engineered to built end-to-end digital products, combining consulting, design & analytics, not just isolated code

? WHY US

- ✓ Competing directly with software and outsourced dev providers, we own the full lifecycle from strategy to run ops and differentiate through production-first delivery
- ✓ Our differentiation lies in combining modern stacks with in-house accelerators like ITLytics, workflow engines and testing frameworks to deliver production-grade outcomes at scale for faster & lower-risk shipping.

PROVEN IN THE PORTFOLIO

- Nearly two decades of experience in application development for startups and global enterprises, delivering end-to-end services from strategy to deployment and maintenance
- Strong expertise across Microsoft and modern stacks including SharePoint, Power Platform, React/Angular, native and cross-platform mobile, cloud and data engineering.
- In-house accelerators such as ITLytics, workflow engines, intranet portals and mobile frameworks that reduce time-to-market
- Integrated delivery engine combining testing, data/MDM, AI/ML and UX capabilities within a unified system

ROI PROOF: Your extended product engineering team across time zones with identical accountability, broader capabilities and better cost efficiency

POSITION & ROI CLAIMS
