Press Release

Pace Digitek Secures ₹92.9 Crore Order for BESS Supply and Commissioning Support

Order adds to growing BESS product pipeline as the Company scales manufacturing capacity to 5 GWh

Bengaluru, 24 August 2026: Pace Digitek Limited (NSE: PACEDIGITK | BSE: 544550) announced that its material subsidiary, Lineage Power Private Limited (LPPL), has received a Letter of Award from Kalpa Power Private Limited for the supply and commissioning support of a Battery Energy Storage System (BESS). The order is valued at ₹92.9 crore and is scheduled for completion by 31 December 2026.

The order adds to Pace Digitek's growing BESS business and strengthens near-term visibility for its manufacturing operations. The project will be supplied from the Company's BESS manufacturing platform, which has recently been expanded to 5 GWh of installed capacity.

Over the past year, Pace Digitek has manufactured more than 300 utility-scale BESS containers, representing approximately 1.5 GWh of battery energy storage capacity. The Company has been progressively scaling its manufacturing capabilities to address growing demand for utility-scale and Commercial & Industrial (C&I) energy storage applications.

The Company's BESS manufacturing capacity has increased from 2.5 GWh to 5 GWh, with a further phased expansion towards 10 GWh targeted by the end of FY2027. The expansion is expected to provide additional capacity to support product supplies as well as the Company's participation in integrated BESS projects.

Commenting on the development, Mr. Venugopalrao Maddisetty, Chairman & Managing Director, Pace Digitek Limited, said:

"This order strengthens our growing BESS business and provides further visibility for our manufacturing platform. Over the past year, we have built a track record of manufacturing and supplying utility-scale BESS systems and have progressively expanded our capacity from 2.5 GWh to 5 GWh. As the market develops, we remain focused on scaling manufacturing, increasing localisation and building the capabilities required to serve a wider range of BESS opportunities."

Pace Digitek is building its BESS business across manufacturing, system integration and project execution, with a focus on increasing manufacturing scale and localisation. The Company believes that the combination of growing BESS demand, expanding manufacturing capacity and an established execution track record provides a platform for further growth in the energy storage business.

About PACE Digitek Limited

Pace Digitek Limited (NSE: PACEDIGITK | BSE: 544550) is an integrated infrastructure and energy solutions company operating across the Energy and Telecom & ICT business segments. The Company operates across the value chain, spanning Manufacturing, Engineering, Procurement & Construction (EPC) and Operations & Maintenance (O&M) activities, supporting both project execution and product supply.

In the energy segment, the Company undertakes Battery Energy Storage System (BESS) design, manufacturing, system integration and deployment. Through its subsidiary, Lineage Power Private Limited, the Company manufactures energy storage systems and related power infrastructure products.

In the Telecom & ICT segment, the Company manufactures telecom power systems and delivers EPC and O&M services for telecom infrastructure, fibre networks and digital infrastructure projects across India.
