PRESS RELEASE

JAIN IRRIGATION SECURES ₹117.96 CRORE EMPANELMENT FROM MSEDCL FOR 5,000 SOLAR PUMPS

Jalgaon, Maharashtra | September 17, 2026: Jain Irrigation Systems Limited has secured a **Letter of Empanelment from Maharashtra State Electricity Distribution Company Limited (MSEDCL)** for the supply and installation of **5,000 Off-Grid DC Solar Photovoltaic Water Pumping Systems (SPWPS)** across Maharashtra.

Valued at **₹117.96 crore, inclusive of GST**, the empanelment has been awarded under the **Magel Tyala Saur Krushi Pump Yojana**, a Maharashtra Government initiative aimed at promoting solar-powered irrigation solutions for farmers.

Under the empanelment, Jain Irrigation will undertake the complete scope of work, including the **design, manufacture, supply, transportation, installation, testing and commissioning** of agricultural solar pumping systems of **3 HP, 5 HP and 7.5 HP capacities**. The project is scheduled to be completed within **60 days**.

The latest empanelment further strengthens Jain Irrigation's longstanding association with **MSEDCL** in Maharashtra's solar irrigation sector.

Jain Irrigation has been working with MSEDCL since **2015**, beginning with the **Atal Solar Pump Project**, under which the Company completed the supply and installation of **5,039 solar pumps across Maharashtra**. Subsequently, during **2019–20**, the Company completed another **1,539 pumps** under the **Mukhyamantri Saur Krushi Pump Yojana**.

More recently, under the **Magel Tyala Saur Krushi Pump Yojana**, which commenced in **December 2024**, Jain Irrigation has successfully completed the supply and installation of **12,457 pumps**, with a total project value of **₹307.62 crore**, according to the Company.

With the addition of **5,000 more solar pumps** under the latest empanelment, Jain Irrigation continues to expand its presence in Maharashtra's **solar-powered agricultural irrigation infrastructure**. The Company's cumulative execution across these projects reflects its experience in the **supply, installation and commissioning of solar pumping systems for agricultural applications**.
