**Sub: Voluntary disclosure under Regulation 30 of the SEBI (LODR) Regulations, 2015 -
Announcement of "Formula Ride", an upcoming mobile racing game.**

Dear Sir/Madam,

Pursuant to Regulation 30 and other applicable provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are pleased to inform you that **7Seas Entertainment Limited** has announced "**Formula Ride**", an upcoming mobile racing game being developed in India for players in domestic and international markets.

Formula Ride is currently available for pre-registration on Google Play and pre-order on the App Store, ahead of its proposed commercial launch on Android and iOS.

Formula Ride is designed to combine high-speed racing with strategic race management, career progression and real-time multiplayer competition. The proposed title is expected to offer multiple game modes, vehicle progression and competitive features, with scope for future content expansion based on launch performance, player response, technical readiness and applicable platform requirements.

The announcement marks an important product-development milestone for the Company and advances its focus on creating original gaming intellectual property for domestic and international audiences. The commercial launch date and other product updates will be communicated through the Company's official channels.

A press release containing further details is enclosed as **Annexure I**. Based on the Company's present assessment, this announcement is not expected to have any immediate material financial impact on the Company. You are requested to kindly take the above information on record.

Thanking you,

Yours faithfully,

For 7Seas Entertainment Limited

PRESS RELEASE

7SEAS ENTERTAINMENT SHIFTS INTO HIGHER GEAR WITH “FORMULA RIDE”

India-built mobile racing title brings together speed, strategy, career progression and real-time multiplayer for a wider global audience

Hyderabad, 12 October 2026: 7Seas Entertainment Limited (BSE: 540874) today announced **Formula Ride**, an upcoming mobile racing game designed to place players at the centre of high-speed competition while introducing strategic decisions that can influence the outcome of every race. Formula Ride is currently available for pre-registration on Google Play and pre-order on the App Store, ahead of its proposed commercial launch on Android and iOS.

Developed in India for domestic and international audiences, Formula Ride is being built as a feature-rich racing experience in which raw speed is only part of the challenge. Planned gameplay elements include tyre management, pit-stop strategy, vehicle-damage response, braking dynamics and race-control decisions as conditions change on the track.

A racing experience built around choice and competition

Formula Ride is planned to include a range of modes intended for both quick-play users and players seeking longer-term progression:

- **Championship Mode:** a structured racing season proposed to feature 10 teams and a 20-driver grid.
- **Career Mode:** progression through racing tiers, with opportunities to unlock vehicles and upgrades and build a racing reputation.
- **Quick Race and Classic Modes:** accessible racing sessions offering different ways to experience the game.
- **Real-time Multiplayer:** proposed competitive gameplay with supporting features such as leaderboards, achievements and daily rewards.

The game is intended to combine accessible controls with deeper systems that reward timing, judgement and consistent improvement. This balance is expected to make the title accessible to new players while providing progression and competitive features intended to support continued player engagement.

Advancing original gaming intellectual property

Formula Ride reflects the Company’s continuing focus on original gaming intellectual property and mobile-first product development. Its proposed combination of competitive gameplay, progression systems and multiplayer features is intended to provide a foundation for future product enhancements and content updates, subject to user adoption, commercial viability, technical feasibility and platform requirements.

For 7Seas Entertainment, the title is also an opportunity to showcase Indian game-development capabilities to a wider audience. The project brings together the Company's teams across concept development, gameplay design, software engineering, visual production, quality assurance and publishing.

Management commentary

"Formula Ride is being designed to deliver more than the excitement of racing. Our focus is on creating an engaging experience in which players can compete, make meaningful strategic choices and grow through the game over time."

The title reflects our ambition to build original games in India for players everywhere. Its combination of race strategy, career progression and real-time multiplayer gives us a strong creative foundation on which we can continue to develop the experience. We are encouraged by the progress made so far and look forward to the commercial launch of Formula Ride and bringing the game to players in India and international markets."

– L. M. Shankar, Managing Director, 7Seas Entertainment Limited

Designed for a wider audience

Formula Ride is being developed for mobile players who enjoy fast, competitive sessions as well as those who prefer structured championships and long-term career progression. Following its commercial launch, the Company intends to refine and update the title based on player feedback, performance data, technical considerations and applicable platform policies.

Launch availability, platform details and further updates will be communicated through the Company's official website and channels.
